Proposed Projects

Ryan White Comprehensive AIDS Resources and Emergency Act of 1990 Women's Initiatives (WIN)—New

The Health Resources and Services Administration's Maternal and Child Health Bureau proposes to collect information about HIV-related services provided to women of child-bearing age and their children. Information will be collected annually from eight sites funded by HRSA under cooperative agreements and their 320 local service providers that are funded under Sections 2618(a) and 2671 of the Public Health Service Act. The eight funded sites will collect the information by telephone from their providers, and forward the data collection forms to a HRSA contractor. There are no plans to collect or transmit the data electronically.

The purpose is to document current care system characteristics and facilitate planning for services to women with HIV and their children. The information will be used within and outside HRSA to inform the administration and Congress about HIV counseling and testing services for pregnant women, services and referral resources for pregnant women with HIV, antiretroviral therapies, and outreach related to perinatal HIV transmission reduction. Annual burden estimates are as follows:

Type of respondent	Number of respondents	Re-sponses per respondent	Burden hours per response	Total burden hours

Applicants must complete an application and provide information on all eligible education loans. Once HRSA has selected the participants, HRSA will request verification from their lenders of loan balances and terms of their outstanding educational loans.
