The public record is located in Room 1132 of the Public Response and Program Resources Branch, Field Operations Division (7506C), Office of Pesticide Programs, Environmental Protection Agency, Crystal Mall #2, 1921 Jefferson Davis Highway, Arlington, VA.

The official record for this rulemaking, as well as the public version, as described above will be kept in paper form. Accordingly, EPA will transfer any copies of objections and hearing requests received electronically into printed, paper form as they are received and will place the paper copies in the official rulemaking record which will also include all comments submitted directly in writing. The official rulemaking record is the paper record maintained at the address in **ADDRESSES** at the beginning of this document.

Under Executive Order 12866 (58 FR 51735, October 4, 1993), the Agency must determine whether the regulatory action is "significant" and therefore subject to review by the Office of Management and Budget (OMB) any the requirements of the Executive Order. Under section 3(f), the order defines "a significant regulatory action" as an action that is likely to result in a rule (1) having an annual effect on the economy of \$100 million or more, or adversely and materially affecting a sector of the economy, productivity, competition, jobs, the environment, public health or safety, or State, local or tribal governments or communities (also referred to as "economically significant"); (2) creating serious inconsistency or otherwise interfering with an action taken or planned by another agency; (3) materially altering the budgetary impacts of entitlement, grants, user fees, or loan programs or the rights and obligations thereof; or (4) raising novel legal or policy issues arising out of legal mandates, the President's priorities, or the principles set forth in this Executive Order.

Pursuant to the terms of this Executive Order, EPA has determined that this rule is not "significant" and is therefore not subject to OMB review.

This action does not impose any enforceable duty, or contain any "unfunded mandates" as described in Title II of the Unfunded Mandates Act of 1995 (Pub. L. 104-4), or require prior consultation as specified by Executive Order 12875 (58 FR 58093, October 28, 1993), entitled Enhancing the Intergovernmental Partnership, or special consideration as required by Executive Order 12898 (59 FR 7629, February 16, 1994).

Pursuant to the requirements of the Regulatory Flexibility Act (5 U.S.C. 601-612), the Administrator has determined that regulations establishing new tolerances or raising tolerance levels or establishing exemptions from tolerance requirements do not have a significant economic impact on a substantial number of small entities. A certification statement explaining the factual basis for this determination was published in the Federal Register of May 4, 1981 (46 FR 24950).

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 64

[CC Docket No. 91-281; DA 96-439]

Calling Number Identification Service—Caller ID

AGENCY: Federal Communications Commission (Commission).

ACTION: Final rule; waiver.

SUMMARY: The Common Carrier Bureau, acting pursuant to delegated authority, granted Sprint Communications Co. (Sprint) a waiver of the Federal Communications Commission's calling party number (CPN) delivery rules until June 1, 1996. The Commission's CPN delivery rules require that common carriers using Signaling System 7 are required to transmit the CPN associated with an interstate call to interconnecting carriers. Sprint requested the waiver because it needed additional time to correct a technical problem in which the privacy of a calling party might be compromised. The Bureau conditioned this waiver on Sprint providing two progress reports to the Bureau. These reports are to be provided not later than April 15, 1996 and again on May 10, 1996. The intended effect of this action is to avoid compromising the privacy of callers.

EFFECTIVE DATE: March 29, 1996.

FOR FURTHER INFORMATION CONTACT: Elizabeth Nightingale, Network Services Division, Common Carrier Bureau at 202-418-2352.

SUPPLEMENTARY INFORMATION: This summary describes the Bureau's Order in the matter of Rules and Policies Regarding Calling Number Identification Service, (CC Docket 91-281, adopted March 27, 1996 and released March 29, 1995). The file is available for inspection and copying during the weekday hours of 9 a.m. to 4:30 p.m. in the Commission's Reference Center, Room 239, 1919 M St., NW., Washington DC, or copies may be purchased from the Commission's duplicating contractor, ITS, Inc. 2100 M St., NW., Suite 140, Washington, DC 20037, phone 202-857-3800.

Analysis of the Order

After reviewing Sprint's petition for stay and waiver of the Commission's rules governing calling party number (CPN) delivery and privacy, the Bureau has concluded to grant Sprint a temporary waiver until June 1, 1996 of Section 64.1601(a) and Section 64.103 of the Commission's rules.

Sprint requested additional time to comply with the Commission's caller ID

rules because it identified two technical problems that might compromise the privacy of calling parties. Sprint indicated that one of the problems could be corrected by the end of April 1996, while the other could be corrected by the end of July 1996.

This request for additional time to comply with the Commission's caller ID rules presented the Bureau with the undesirable choice between (1) granting the requested waiver and temporarily frustrating the Commission's federal objective of widespread CPN availability, or (2) denying the waivers and temporarily frustrating the Commission's federal privacy objectives. The Bureau determined that compromising the privacy of callers would be unacceptable. Therefore, Sprint was granted a waiver until June 1, 1996 of the Commission's rule that requires carriers to pass CPN. The Bureau did not grant additional time to Sprint beyond this date because (1) It found that Sprint had provided inadequate information to allow a determination whether a waiver of the Commission's CPN rules until July 31, 1996 would be in the public interest, and (2) it believed that Sprint may have adequate time to correct both problems by June 1, 1996. Additionally, the Bureau noted that on June 1, 1996 the Commission's stay applicable to interstate calls made to and from California expires and that the Bureau sought to avoid unnecessary customer confusion associated with interstate calls that do not contain caller ID information beyond this date. The Bureau indicated that by granting this waiver until June 1, 1996 and denying Sprint's request for additional time, the major sources of customer confusion related to interstate caller ID will be eliminated as of June 1, 1996.

The Bureau conditioned the waiver on the requirement that Sprint file two reports with the Bureau indicating the progress of steps being taken to ensure compliance. Finally, the Bureau reiterated that it would not tolerate repeated compliance delays and that, if appropriate, it would take enforcement action.

Ordering Clauses

It is ordered, pursuant to Section 1.3 of the Commission's rules, 47 CFR 1.3, and authority delegated in Section 0.91 of the Commission's rules, 47 CFR 0.91, and Section 0.291 of the Commission's rules, 47 CFR 0.291, that Sprint's request for a waiver of Section 64.1601(a) and Section 64.1603 of the Commission's rules is granted in part and denied in part. This waiver is effective until June 1, 1996, and is

subject to the conditions specified herein.

It is further ordered that this order is effective upon release.

Radio Broadcasting Services; Madera and Clovis, CA

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: This document reallots Channel 221B1 from Madera to Clovis, California, and modifies the license of KZFO Broadcasting, Inc. for Station KZFO(FM), as requested, pursuant to the provisions of Section 1.420(i) of the Commission's Rules. *See* 55 FR 7509, published March 2, 1990; *see also* 56 FR 42966, published August 30, 1991. The allotment of Channel 221B1 to Clovis will provide a first local FM service to the community without depriving Madera of local aural transmission service. Coordinates used for Channel 221B1 at Clovis are 36-55-50 and 119-38-38. With this action, the proceeding is terminated.

EFFECTIVE DATE: May 8, 1996.

Hazardous Materials Transportation Regulations; Compatibility with Regulations of the International Atomic Energy Agency

AGENCY: Research and Special Programs Administration (RSPA), DOT.

ACTION: Final rule; editorial revisions and response to a petition for reconsideration.

SUMMARY: On September 28, 1995, RSPA published a final rule which amended the Hazardous Materials Regulations pertaining to the transportation of radioactive materials to harmonize them with those of the International Atomic Energy Agency (IAEA) and, thus, most major nuclear nations of the world. Several substantive changes were made to provide a more uniform degree of safety for various types of shipments. These changes included requiring offerors and carriers to maintain written radiation protection programs, revising the definition of and packaging for low specific activity radioactive materials, and requiring use of the International System of Units for the measurement of activity in a package of radioactive material. This final rule makes editorial and technical corrections to that final rule and responds to a petition for reconsideration.
