SUPPLEMENTARY INFORMATION: AgrEvo USA Co., Little Falls Center One, 2711 Centerville Rd., Wilmington, DE 19808, has requested in pesticide petition (PP) 5G4466, the establishment of temporary tolerances for residues of the combined herbicide glufosinate-ammonium (butanoic acid, 2-amino-4-(hydroxymethylphosphinyl)-, monoammonium salt; and its metabolites 2-acetamido-4-methylphosphinico-butanoic acid and 3-methylphosphinico-propionic acid expressed as glufosinate free acid equivalents in or on the raw agricultural commodities field corn grain at 0.2 part per million (ppm); field corn forage at 4.0 ppm; field corn fodder and soybeans at 2.0 ppm; soybean forage at 4.0 ppm; soybean hay at 2.0 ppm; soybean aspirated grain fractions at 25.0 ppm; soybean hulls at 5.0 ppm; eggs at 0.05 ppm; poultry meat and fat at 0.05 ppm; and poultry meat byproducts at 0.10 ppm. These temporary tolerances will permit the marketing of the above raw agricultural commodities when treated in accordance with the provisions of the experimental use permit 45639-EUP-56, which is being issued under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (Pub. L. 95-396, 92 Stat. 819; 7 U.S.C. 136).

The scientific data reported and other relevant material were evaluated, and it was determined that establishment of the temporary tolerances will protect the public health. Therefore, the temporary tolerances have been established on the condition that the herbicide be used in accordance with the experimental use permit and with the following provisions:

1. The total amount of the active ingredient to be used must not exceed the quantity authorized by the experimental use permit.

2. AgrEvo USA Co., must immediately notify the EPA of any findings from the experimental use that have a bearing on safety. The company must also keep records of production, distribution, and performance and on request make the records available to any authorized officer or employee of the EPA or the Food and Drug Administration.

These tolerances expire March 15, 1997. Residues not in excess of these amounts remaining in or on the raw

agricultural commodities after this expiration date will not be considered actionable if the herbicide is legally applied during the term of, and in accordance with, the provisions of the experimental use permit and temporary tolerances. These tolerances may be revoked if the experimental use permit is revoked or if any experience with or scientific data on this herbicide indicate that such revocation is necessary to protect the public health.

The Office of Management and Budget has exempted this notice from the requirement of section 3 of Executive Order 12866.

Pursuant to the requirements of the Regulatory Flexibility Act (Pub. L. 96-354, 94 Stat. 1164, 5 U.S.C. 601-612), the Administrator has determined that regulations establishing new tolerances or raising tolerance levels or establishing exemptions from tolerance requirements do not have a significant economic impact on a substantial number of small entities. A certification statement to this effect was published in the Federal Register of May 4, 1981 (46 FR 24950).

SUMMARY: Notice of *De Minimis* Settlement: in accordance with Section 122(I)(1) of the Comprehensive Environmental Response, Compensation and Liability Act of 1980, as amended ("CERCLA"), notice is hereby given of a *de minimis* settlement concerning past and estimated future response actions at the Albion-Sheridan Landfill Site in Albion, Michigan. The Attorney General

has provided the required prior written approval for this Settlement, as set forth under Section 122(g)(4) of CERCLA.

DATES: Comments must be provided on or before June 7, 1996.

ADDRESSES: Comments should be addressed to the Docket Clerk, Mail Code MFA-10J, U.S. Environmental Protection Agency, 77 West Jackson Boulevard, Chicago, Illinois, 60604, and should refer to: In the Matter of Albion-Sheridan Landfill Site, Docket No. V-W-96-340.

FOR FURTHER INFORMATION CONTACT: Kurt N. Lindland, Mail Code CS-29A, U.S. Environmental Protection Agency, 77 West Jackson Boulevard, Chicago, Illinois 60604.

SUPPLEMENTARY INFORMATION: The following parties executed binding certifications of their consent to participate in the settlement: Albion College, Bilicke Oldsmobile Sales, Inc., and Frahm Chevrolet, Buick, Pontiac Co.

These parties will pay approximately \$30,000 in settlement payments for response costs related to the Albion-Sheridan Landfill Site, if the United States Environmental Protection Agency determines that it will not withdraw or withhold its consent to the proposed settlement after consideration of comments submitted pursuant to this notice.

U.S. EPA may enter into this settlement under the authority of Section 122(g) of CERCLA. Section 122(g) authorizes *de minimis* settlements with potentially responsible parties ("PRPs") that contributed hazardous substances to a site where those contributions were small and where the toxicity of the substances contributed is not significantly different from the other substances brought to the site. Pursuant to this authority, the agreement proposes to settle with parties who are responsible for less than .1% of the total volume of hazardous substances sent to the site. Settling *de minimis* PRPs will be required to pay their fair share of the past and estimated future response costs at the Site. The settlement payment amount includes a premium of 100% against estimated future response costs to account for potential cost overruns, the potential for failure of the remedies selected to clean up the site, and other risks.

A copy of the proposed administrative order on consent and additional background information relating to the settlement, including a list of parties to the settlement, are available for review and may be obtained in person or by mail from Kurt N. Lindland, Mail Code CS-29A, U.S. Environmental Protection
