

SUPPLEMENTARY INFORMATION: EPA received applications from Woodstream Corporation, 69 N. Locust St., Lititz, PA 17543-0327, to register the pesticide products Victor Roach Bait Stations 1 and Victor Roach Bait Stations 2 (EPA File Symbols 47629-R and 47629-E), containing the active ingredient German cockroach pheromone at 0.004 percent for both products, an active ingredient not included in any previously registered products pursuant to the provisions of section 3(c)(4) of FIFRA. These products are formulated with boric acid and are proposed for use to kill cockroaches in homes and commercial establishments such as hospitals, restaurants and schools. Notice of receipt of these applications does not imply a decision by the Agency on the applications.

Notice of approval or denial of an application to register a pesticide product will be announced in the Federal Register. The procedure for requesting data will be given in the Federal Register if an application is approved.

Comments received within the specified time period will be considered before a final decision is made; comments received after the time specified will be considered only to the extent possible without delaying processing of the application.

A record has been established for this notice under docket number [OPP-30410] (including comments and data submitted electronically as described below). A public version of this record, including printed, paper versions of electronic comments, which does not include any information claimed as CBI, is available for inspection from 8 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The public record is located in Rm. 1132 of the Public Response and Program Resources Branch, Field Operations Division (7506C), Office of Pesticide Programs, Environmental Protection Agency, Crystal Mall #2, 1921 Jefferson Davis Highway, Arlington, VA.

Electronic comments can be sent directly to EPA at:

opp-docket@epamail.epa.gov

Electronic comments must be submitted as an ASCII file avoiding the use of special characters and any form of encryption.

The official record for this notice, as well as the public version, as described above will be kept in paper form. Accordingly, EPA will transfer all comments received electronically into printed, paper form as they are received and will place the paper copies in the official record which will also include all comments submitted directly in

writing. The official record is the paper record maintained at the address in "ADDRESSES" at the beginning of this document.

Written comments filed pursuant to this notice, will be available in the Public Response and Program Resources Branch, Field Operations Division at the address provided from 8 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. It is suggested that persons interested in reviewing the application file, telephone this office at (703-305-5805), to ensure that the file is available on the date of intended visit.

Authority: 7 U.S.C. 136.

FEDERAL EMERGENCY MANAGEMENT AGENCY

Public Meeting; Federal Purchase and Stockpile of Potassium Iodide for Use by the General Public in a Radiological Emergency

AGENCY: Federal Emergency Management Agency (FEMA).

ACTION: Notice of Public Meeting.

SUMMARY: FEMA announces the following committee meeting:

NAME: Federal Radiological Preparedness Coordinating Committee (FRPCC), Ad Hoc Subcommittee on Potassium Iodide (KI).

DATES: The meeting will be held June 27, 1996. Any individuals or organizations interested in attending the public meeting or making oral presentations must so indicate by 4:00 PM, May 31, 1996.

TIME OF MEETING: 10:00 AM-4:00 PM.

PLACE: Federal Emergency Management Agency, room 401, 500 C Street, SW., Washington, DC 20472.

PROPOSED AGENDA: The meeting will begin at 10:00 AM with a presentation by the Subcommittee on the background of the Federal potassium iodide policy. That presentation will be followed by a statement of the current issues raised in the Petition for Rulemaking submitted to the U.S. Nuclear Regulatory Commission, and in letters to the Director of FEMA. The meeting will

then turn to attendees who have indicated that they want to make oral presentations, including response to any questions that may be asked by members of the Subcommittee. The meeting will adjourn after the Subcommittee and attendees have completed their presentations and any interaction on the subject matter.

SUPPLEMENTARY INFORMATION: The FRPCC issued its policy on the use of KI as a thyroid blocking agent on July 24, 1985 (50 FR 30258). On December 6, 1994, the FRPCC adopted a September 15, 1994 report and recommendations of the Ad Hoc Subcommittee on Potassium Iodide after review of the issues affecting the purchase and stockpile of KI by the Federal government. The Ad Hoc Subcommittee found no basis for changing the 1985 Federal policy, which states that KI should be purchased and stockpiled for emergency workers and institutionalized persons, and that the decision on its use as a protective action for the general public resides with the State, and in some cases, with local health authorities.

The FRPCC is again reviewing the issue of the Federal purchase, stockpile and use of KI by the general public in the event of a radiological emergency at a commercial nuclear power plant. The Petition for Rulemaking submitted to the U.S. Nuclear Regulatory Commission requests that 10 CFR Part 50.47(a)(10) be revised to read: "A range of protective actions, including sheltering, evacuation, and prophylactic use of iodine, have been developed for the plume exposure EPZ [emergency planning zone] for emergency workers and the general public." In addition, the same Petitioner requested FEMA to reconsider the 1985 Federal Policy. Accordingly, the Federal Radiological Preparedness Coordinating Committee formed an Ad Hoc Subcommittee to review and re-evaluate the issue.

The meeting will be open to the public with approximately 30 seats available on a first-come, first-served basis. Individuals or representatives of organizations who plan to attend the meeting or make oral presentations should contact William F. McNutt, Chairman, Federal Radiological Preparedness Coordinating Committee, Ad Hoc Subcommittee on Potassium Iodide, room 634, Federal Emergency Management Agency, 500 C Street, SW., Washington, DC 20472, (202) 646-2857; (facsimile) (202) 646-4183, on or before 4:00 PM, May 31, 1996.

Dated: May 10, 1996.

Kay C. Goss,

Associate Director for Preparedness, Training and Exercises.

BILLING CODE 6718-06-P

[Docket No. FEMA-REP-2-NY-3]

Approval of the State of New York Radiological Emergency Response Plan Site-specific to the Indian Point Nuclear Power Generating Station

AGENCY: Federal Emergency Management Agency (FEMA).

ACTION: Notice.

SUMMARY: FEMA gives notice of its approval of the State of New York Radiological Emergency Response Plan site-specific to the Indian Point Nuclear Power Generating Station located in Westchester County, New York.

DATES: This approval is effective as of May 3, 1996.

FOR FURTHER INFORMATION CONTACT: Regional Director, FEMA Region II, 26 Federal Plaza, room 1337, New York, NY 10278-0002, (facsimile) (212) 225-7281. Please refer to Docket File No. FEMA-REP-2-NY-3.

SUPPLEMENTARY INFORMATION: On May 3, 1996 the Kay C. Goss, Associate Director for Preparedness, Training and Exercises, Federal Emergency Management Agency, reviewed and approved the State of New York Radiological Emergency Response Plan site-specific to the Indian Point Nuclear Power Generating Station, as follows:

"In accordance with the Federal Emergency Management Agency (FEMA) Rule, 44 CFR 350, the State of New York originally submitted the offsite radiological emergency response plans site-specific to the Indian Point Nuclear Power Generating Station, located in Westchester County, New York, to the Regional Director of FEMA Region II on August 17, 1981, for FEMA review and approval. On October 28, 1991, the Region II Director submitted an evaluation and recommendation for formal approval of the offsite plans and preparedness to the Associate Director for State and Local Programs and Support in accordance with Section 350.11 of the FEMA Rule. However, during the Headquarters review process several issues were identified which were referred back to FEMA Region II for clarification.

"The Regional Director subsequently addressed the issues requiring clarification and resubmitted the evaluation to FEMA Headquarters on November 29, 1995. Included in this

evaluation was a review of the full participation offsite radiological emergency preparedness exercise conducted on June 15, 1994, in accordance with 44 CFR 350.9.

"Based on the evaluation and recommendation for approval by the FEMA Region II Director, the review by the Federal Radiological Preparedness Coordinating Committee (FRPCC), and the review by the FEMA Headquarters staff in accordance with 44 CFR 350.12, I find and determine that the State of New York and local offsite radiological emergency response plans and preparedness site-specific to the Indian Point Nuclear Power Generating Station are adequate to protect the health and safety of the public living in the vicinity of the plant. The offsite radiological emergency response plans and preparedness are assessed as adequate in that there is reasonable assurance that appropriate protective measures can be taken offsite in the event of a radiological emergency and that the plans are capable of being implemented.

"The prompt alert and notification system installed and operational around the Indian Point Nuclear Power Generating Station was previously approved by FEMA on March 27, 1992, in accordance with the criteria of NUREG-0654/FEMA-REP-1, Rev. 1, Appendix 3, and FEMA-REP-10, "Guide for the Evaluation of Alert and Notification Systems for Nuclear Power Plants."

"Accordingly, I approve the New York State and local offsite radiological emergency response plans and preparedness, site-specific to the Indian Point Nuclear Power Generating Station. FEMA will continue to review the status of offsite plans and preparedness site-specific to the Indian Point Nuclear Power Generating Station in accordance with Section 350.13 of the FEMA Rule.

"For further details with respect to this action, refer to Docket File No. FEMA-REP-2-NY-3 maintained by the Regional Director, FEMA Region II, 26 Federal Plaza, Room 1337, New York, New York 10278-0002."

Dated: May 3, 1996.

Kay C. Goss,

Associate Director for Preparedness, Training, and Exercises.
