[Docket No. ER91-569-007]

Take notice that on May 17, 1996, Entergy Power, Inc. (EPI) tendered for filing proposed amendments to its existing Rate Schedule FP. EPI states that Schedule FP, which was initially approved for market-based rates, has not been amended since it was filed in 1991. EPI states that this filing is made in response to the Commission's new policy regarding umbrella service agreements, announced in Southern Company Services, Inc., 75 FERC 61,130 (April 30, 1996).

¹ See Williams Natural Gas Co., 69 FERC ¶ 61,384 (1994), order on reh'g and deferring action, 72 FERC ¶ 61,101, order on compliance filing and reh'g, 74 FERC ¶ 61,103 (1996).

EPI states that it proposes amendments that would add the condition contained in Southern Company Services, limiting pricing of non-power goods and services transactions between EPI and its Regulated Affiliates; and comport with the Commission's recent ruling in Southern Company Services, which permits EPI to file umbrella service agreements, within 30 days of commencement of service under those agreements, for short-term transactions of one year or less.

EPI requests a waiver pursuant to 18 CFR 35.11 of the Commission's Regulations, which permits an earlier effective date upon good cause shown. EPI contends that the changes proposed to Schedule FP are intended to conform with current Commission policy regarding competitive bulk power transactions. EPI requests that amended Rate Schedule FP become effective as of the date of filing, in order to permit EPI and its customers to more fully employ open access tariffs to be available within 60 days after publication of Order 888.
