

SUPPLEMENTARY INFORMATION:

History

On January 24, 1996, a proposal to amend part 71 of the Federal Aviation Regulations (14 CFR part 71) to revise the Class E airspace at Guthrie, TX, was published in the Federal Register (61 FR 1867). Development of VOR/DME RNAV SIAP's to RWY's 01 and 19 at 6666 Ranch Airport, Guthrie, TX, requires the revision of the Class E airspace at this airport. The proposal was to revise the controlled airspace extending upward from 700 feet AGL to contain IFR operations in controlled airspace during portions of the terminal operation and while transitioning between the enroute and terminal environments.

Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No comments to the proposal were received. The rule is adopted as proposed.

The coordinates for this airspace docket are based on North American Datum 83. Class E airspace designations for airspace areas extending upward from 700 feet or more AGL are published in Paragraph 6005 of FAA Order 7400.9C dated August 17, 1995, and effective September 16, 1995, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

The Rule

This amendment to part 71 of the Federal Aviation Regulations (14 CFR part 71) amends the Class E airspace located at 6666 Ranch Airport, Guthrie, TX, to provide controlled airspace extending upward from 700 feet AGL for aircraft executing the VOR/DME RNAV SIAP's to RWY's 01 and 19.

The FAA has determined that this regulation only involves an established body of technical regulations that need frequent and routine amendments to keep them operationally current. It, therefore—(1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

Adoption of the Amendment

In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71—[AMENDED]

1. The authority citation for 14 CFR part 71 continues to read as follows:

Authority: 49 U.S.C. 40103, 40113, 40120; E.O. 10854; 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389; 49 U.S.C. 106(g); 14 CFR 11.69.

§ 71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of the Federal Aviation Administration Order 7400.9C, *Airspace Designations and Reporting Points*, dated August 17, 1995, and effective September 16, 1995, is amended as follows:

Paragraph 6005: Class E Airspace areas extending upward from 700 feet or more above the surface of the earth.

* * * * *

ASW TX E5 Guthrie, TX [Revised]

Guthrie, 6666 Ranch Airport, TX
(Lat. 33°38'28"N, long. 100°20'51"W)

That airspace extending upward from 700 feet above the surface within a 6.7-mile radius of 6666 Ranch Airport and within 2 miles each side of the 196° bearing from the airport extending from the 6.7-mile radius to 10.4 miles south of the airport, and within 3.7 miles each side of the 003° bearing from the airport extending from the 6.7-mile radius to 10.4 miles north of the airport.

BILLING CODE 4910-13-M

14 CFR Part 71

[Airspace Docket No. 94-ASW-22]

**Revision of Class E Airspace;
Guymon, OK**

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action revises the Class E airspace extending upward from 700 feet above ground level (AGL) at Guymon, OK. The development of a Global Positioning System (GPS) standard instrument approach procedure (SIAP) to Runway (RWY) 36 at Guymon Municipal Airport has made

this action necessary. This action is intended to provide adequate Class E airspace to contain instrument flight rule (IFR) operations for aircraft executing the GPS SIAP to RWY 36 at Guymon Municipal Airport, Guymon, OK.

EFFECTIVE DATE: 0901 UTC, August 15, 1996.

SUPPLEMENTARY INFORMATION:

History

On June 27, 1995, a proposal to amend part 71 of the Federal Aviation Regulations (14 CFR part 71) to revise the Class E airspace at Guymon, OK, was published in the Federal Register (60 FR 33161). A GPS SIAP to RWY 36 developed for Guymon Municipal Airport, Guymon, OK, requires the revision of the Class E airspace at this airport. The proposal was to revise the controlled airspace extending upward from 700 feet AGL to contain IFR operations in controlled airspace during portions of the terminal operation and while transitioning between the enroute and terminal environments.

Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No comments to the proposal were received. However, the proposal was published with an incorrect coordinate for the location of the Guymon Municipal Airport. The correct coordinates for the airport should have been (Lat. 36°41'03" N, long. 101°30'25" W). The description of the Class E airspace in this rule has been revised to reflect this change. The FAA has determined that this is editorial change and will not increase the scope of this rule. Except for the non-substantive change just discussed, the rule is adopted as proposed. The coordinates for this airspace docket are based on North American Datum 83. Class E airspace designations for airspace areas extending upward from 700 feet or more AGL are published in Paragraph 6005 of FAA Order 7400.9C dated August 17, 1995, and effective September 16, 1995, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

The Rule

This amendment to part 71 of the Federal Aviation Regulations (14 CFR

part 71) amends the Class E airspace located at Guymon Municipal Airport, Guymon, OK, to provide controlled airspace extending upward from 700 feet AGL for aircraft executing the GPS SIAP to RWY 36.

The FAA has determined that this regulation only involves an established body of technical regulations that need frequent and routine amendments to keep them operationally current. It, therefore—(1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

 Airspace, Incorporation reference, Navigation (air).

Adoption of the Amendment

In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR Part 71 as follows:

PART 71—[AMENDED]

1. The authority citation for 14 CFR part 71 continues to read as follows:

 Authority: 49 U.S.C. 40103, 40113, 40120; E.O. 10854; 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389; 49 U.S.C. 106(g); 14 CFR 11.69.

§ 71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of the Federal Aviation Administration Order 7400.9C, *Airspace Designations and Reporting Points*, dated August 17, 1995, and effective September 16, 1995, is amended as follows:

 Paragraph 6005: *Class E Airspace areas extending upward from 700 feet or more above the surface of the earth.*

* * * * *

ASW OK E5 Guymon, OK [Revised]
 Guymon Municipal Airport, OK
 (lat. 36°41'03"N, long. 101°30'25"W)
 Guymon NDB
 (lat. 36°42'19"N, long. 101°30'18"W)

That airspace extending upward from 700 feet above the surface within a 6.6-mile radius of Guymon Municipal Airport and within 2.4 miles each side of the 006° bearing from the Guymon NDB extending from the 6.6-mile radius to 7.4 miles north of the airport.

[Airspace Docket No. 95-ASW-01]

Establishment of Class E Airspace; Seymour, TX

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action establishes the Class E airspace extending upward from 700 feet above ground level (AGL) at Seymour, TX. The development of a Global Positioning System (GPS) standard instrument approach procedure (SIAP) to Runway (RWY) 17 at Seymour Municipal Airport has made this action necessary. This action is intended to provide adequate Class E airspace to contain instrument flight rule (IFR) operations for aircraft executing the GPS SIAP to RWY 17 at Seymour Municipal Airport, Seymour, TX.

EFFECTIVE DATE: 0901 UTC, August 15, 1996.

FOR FURTHER INFORMATION CONTACT: Donald J. Day, Operations Branch, Air Traffic Division, Southwest Region, Federal Aviation Administration, Fort Worth, TX 76193-0530, telephone 817-222-5593.

SUPPLEMENTARY INFORMATION:

History

On June 27, 1995, a proposal to amend part 71 of the Federal Aviation Regulations (14 CFR part 71) to establish the Class E airspace at Seymour, TX, was published in the Federal Register (60 FR 33162). On August 7, 1995, a correction to the airspace description was published in the Federal Register (60 FR 40227). A GPS SIAP to RWY 17 developed for Seymour Municipal Airport, Seymour, TX, requires the revision of the Class E airspace at this airport. The proposal was to revise the controlled airspace extending upward from 700 feet AGL to contain IFR operations in controlled airspace during portions of the terminal operation and while transitioning between the enroute and terminal environments.

Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No comments to the proposal were

received. However, the proposal and the subsequent correction for the airspace description for the proposal were published with an incorrect coordinate for the location of the Seymour Municipal Airport. The correct coordinates for the airport should have been (Lat. 33°38'55" N, long. 099°15'38" W). The description of the Class E airspace in this rule has been revised to reflect this change. The FAA has determined that this is an editorial change and will not increase the scope of this rule. Except for the editorial change just discussed, the rule is adopted as proposed.

The coordinates for this airspace docket are based on North American Datum 83. Class E airspace designations for airspace areas extending upward from 700 feet or more AGL are published in Paragraph 6005 of FAA Order 7400.9C dated August 17, 1995, and effective September 16, 1995, which is incorporated by reference in 14 CFR 71.1 The Class E airspace designation listed in this document will be published subsequently in the Order.

The Rule

This amendment to part 71 of the Federal Aviation Regulations (14 CFR part 71) amends the Class E airspace located at Seymour Municipal Airport, Seymour, TX, to provide controlled airspace extending upward from 700 feet AGL for aircraft executing the GPS SIAP to RWY 17.

The FAA has determined that this regulation only involves an established body of technical regulations that need frequent and routine amendments to keep them operationally current. It, therefore—(1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.
