

with Central Louisiana Electric Company, Inc. (CLECO) for providing transportation services. The new point will be located in St. Mary Parish, Louisiana and was requested by CLECO to serve the Teche Power Plant. The estimated quantities of natural gas to be delivered will be 85,000 Dth/day-12.6 Bcf/annually. The cost is approximately \$186,000 with CLECO reimbursing Columbia Gulf 100% of the total actual construction cost. The services provided through the interconnection will be on an interruptible basis and will not affect Columbia Gulf's peak day and annual deliveries and the total volumes delivered will not exceed total volumes authorized prior to this request. Columbia Gulf states that this new interconnection is not prohibited by its existing tariff and that it has sufficient capacity to accomplish deliveries without detriment or disadvantage to other customers.

Any person or the Commission's staff may, within 45 days after issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to Section 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) a protest to the request. If no protest is filed within the time allowed therefor, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to Section 7 of the Natural Gas Act.

### Gas Research Institute; Notice of Annual Application

June 6, 1996.

Take notice that on June 5, 1996, Gas Research Institute (GRI) filed an application requesting advance approval of its 1997-2001 Five-Year Research, Development and Demonstration (RD&D) Plan and 1997 RD&D Program, and the funding of its RD&D activities for 1997, pursuant to the Natural Gas Act and the Commission's Regulations, particularly 18 CFR 154.401.

In its application, GRI requests approval of a total obligations budget of

\$170.4 million in 1997, a decrease of \$4.4 million from the \$174.8 million approved for GRI's amended 1996 obligations budget. During the twelve months ending December 31, 1997, GRI intends to collect \$179.9 million through jurisdictional rates and charges, and disburse \$176.2 million.

GRI also proposes to modify its current funding mechanism by: (i) Not following the 50/50 demand/commodity balancing provisions so that current surcharges may be used in 1997; and (ii) limiting refunds to amounts collected in excess of the annualized funding requirement for its 1997 RD&D program.

GRI proposes to fund its 1997 RD&D Program through the following surcharges: (1) A demand/reservation surcharge on two-part rates of 26.0 cents per Dth per Month for "high load-factor customers"; (2) a demand/reservation surcharge on two-part rates of 16.0 cents per Dth per month for "low load-factor customers"; (3) a volumetric commodity/usage surcharge of 0.88 cents for firm services involving two-part rates and for one-part interruptible rates; (4) a special "small customer" surcharge of 2.0 cents per Dth; and (5) a surcharge of 1.74 cents per Dth per month for one-part, firm service outside the "small customer" class.

GRI has not filed detailed information on its 1998 RD&D Program. According to GRI, downsizing of its 1996 RD&D Program is yet to be fully implemented and issues pertaining to funding stability are still outstanding; for this reason GRI requests that its 1997 proposal be approved on its own merit, rather than as part of a two-year program.

The Commission Staff will analyze GRI's application and prepare a Commission Staff Report. This Staff Report will be served on all parties and filed with the Commission as a public document by July 31, 1996. Comments on the Staff Report by all parties, except GRI, must be filed with the Commission on or before August 14, 1996. GRI's reply comments must be filed on or before August 28, 1996.

Any person desiring to be heard or to protest GRI's application, except for GRI members and state regulatory commissions, who are automatically permitted to participate in the instant proceedings as intervenors, should file a motion to intervene or protest with Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, in accordance with Rules 214 and 211 of the Commission's Rules of Practice and Procedure, 18 CFR 385.214 and 385.11. All protests, motions to intervene and comments should be filed

on or before June 20, 1996. All comments and protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to this proceeding. Any person wishing to become a party, other than a GRI member or a state regulatory commission, must file with the Commission and are available for public inspection.
