3. HIV Prevention Programs in National/Regional Minority and Other Community Based Organization Project Reports—(0920-0249)—Reinstatement—CDC is responsible for monitoring and evaluating HIV prevention activities conducted under cooperative agreements with National/Regional Minority and Other Community Based Organizations.

Enhancing and assuring quality programming requires that CDC have current information regarding the progress of activities and services supported through these cooperative agreements. In some instances, these cooperative agreements have been awarded to organizations that have not previously been awarded Federal funds, or provided HIV prevention services. Additionally, many have limited infrastructure, requiring greater oversight and technical assistance. Technical assistance site visits and telephone communications do provide

some of the required information; yet, site visits have been dramatically reduced and specific contents of phone conversations can be easily forgotten, especially when several awards are administered by one individual. Therefore, thorough quarterly project reports are considered a critical component of the monitoring/evaluation process. Because this program encompasses at least 23 N/RMOs and 90 CBOs awards, there is a need for a standardized system for reporting the progress of each organization's activities.

Respondents	No. Of Respondents	No. Of Responses/Re-spondent	Avg. Burden/Response (in hrs.)
National/Regional	23	4	4
CBO	90	4	4

The total annual burden is 1808. Send comments to Desk officer, CDC; Human Resources and Housing Branch, New Executive Office Building, Room 10235; Washington, DC 20503.
