DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Notice of Availability of a Revised Technical/Agency Draft Recovery Plan for the Carolina Heelsplitter for Review and Comment

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of document availability and public comment period.

SUMMARY: The U.S. Fish and Wildlife Service (Service) announces the availability for public review of a revised technical/agency draft recovery plan for the Carolina heelsplitter (*Lasmigona decorata*). This rare freshwater mussel inhabits small- to medium-sized creeks and rivers with cool, slow- to moderate-flowing, well-oxygenated water. The Carolina heelsplitter currently has a very fragmented, relict distribution, but

historically was known from several locations in the Pee Dee and Catawba River systems in North Carolina and the Pee Dee and Savannah River systems (and possibly the Saluda River system) in South Carolina. Presently, the species is known to still survive in Waxhaw Creek (Catawba River system) and Goose Creek (Pee Dee River system) in Union County, North Carolina; Lynches River (Pee Dee River system) in Chesterfield, Lancaster, and Kershaw Counties, South Carolina; Flat Creek (Pee Dee River system), a small tributary to the Lynches River in Lancaster County, South Carolina; and Turkey Creek (Savannah River system) and two of its tributaries, Mountain and Beaverdam Creeks, in Edgefield County, South Carolina. The species has been restricted to short reaches of each of these streams, primarily as a result of impoundments and the general deterioration of water quality resulting from siltation and other pollutants contributed as a result of poor land-use practices. The Service solicits review and comment from the public on this draft plan.

DATES: Comments on the draft recovery plan must be received on or before August 23, 1996, to receive consideration by the Service.

ADDRESSES: Persons wishing to review the revised agency draft recovery plan may obtain a copy by contacting the Asheville Field Office, U.S. Fish and Wildlife Service, 160 Zillicoa Street, Asheville, North Carolina 28801. Written comments and materials regarding the plan should be addressed to the Field Supervisor at the above address. Comments and materials received are available on request for public inspection, by appointment, during normal business hours at the above address.

FOR FURTHER INFORMATION CONTACT: Mr. John Fridell at the address shown above, telephone (704) 258-3939 (Ext. 225).

SUPPLEMENTARY INFORMATION:

Background

Restoring endangered or threatened animals and plants to the point where they are again secure, self-sustaining members of their ecosystems is a primary goal of the Service's endangered species program. To help guide the recovery effort, the Service is working to prepare recovery plans for most of the listed species native the United States. Recovery plans describe actions considered necessary for conservation of the species, establish criteria for recognizing the recovery levels for downlisting or delisting them, and estimate time and cost for

implementing the recovery measures needed.

The Endangered Species Act of 1973, as amended (16 U.S.C. 1531 *et seq.*) (Act), requires the development of recovery plans for listed species unless such a plan would not promote the conservation of a particular species. Section 4(f) of the Act, as amended in 1988, requires that a public notice and an opportunity for public review and comment be provided during recovery plan development. The Service will consider all information presented during a public comment period prior to the approval of each new or revised recovery plan. The Service and other Federal agencies will also take these comments into account in the course of implementing approved recovery plans.

The primary species considered in this draft recovery plan is the Carolina heelsplitter (*Lasmigona decorata*). The areas of emphasis for recovery actions are portions of the Pee Dee and Catawba River systems in North Carolina and the Pee Dee and Savannah River systems in South Carolina. Habitat protection, reintroduction, and preservation of genetic material are the major objectives of this recovery plan.

Public Comments Solicited

The Service solicits written comments on the recovery plan described. All comments received by the date specified above will be considered prior to approval of the plan.

Authority

The authority for this action is Section 4(f) of the Endangered Species Act, 16 U.S.C. 1533(f).

Dated: June 12, 1996.

Richard G. Biggins,
Acting Field Supervisor.

BILLING CODE 4310-55-M

Notice of Availability of the Damage Assessment Plan, Phase II Injury Quantification, Damage Determination for the Coeur d'Alene Basin Natural Resource Damage Assessment

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of 30 day comment period.

SUMMARY: Notice is given that the document entitled, "Coeur d'Alene Basin Natural Resource Damage Assessment Plan, Phase II Injury Quantification, Damage Determination (The Plan) will be available for public review and comment on the date of publication in the Federal Register .

The U.S. Department of the Interior, Coeur d'Alene Tribe, and USDA Forest Service are trustees (The Trustees) for natural resources and are conducting a Natural Resource Damage Assessment for injuries to trust resources in the Coeur d'Alene River Basin.

DATES: Written comments on the plan must be submitted on or before July 24, 1996.

ADDRESSES: Requests for copies of The Plan may be made to:

U.S. Fish and Wildlife Service, 911 NE 11th Avenue, Portland, OR 97232-4181

Coeur d'Alene Tribe, 424 Old Sherman Avenue, Suite 306, Old City Hall, Coeur d'Alene, ID 83814

Bureau of Land Management, 1808 N. 3rd Street, Coeur d'Alene, ID 83814

USDA Forest Service, 200 East Broadway, P.O. Box 76699 Missoula, MT 59807.

Comments on the plan should be sent to the Coeur d'Alene Tribe at the address listed above. The Tribe will then be providing copies of all comments to the other trustees.

SUPPLEMENTARY INFORMATION: The Trustees are undertaking Phase II of an assessment of suspected damages resulting from the injury to the natural resources of the Coeur d'Alene Basin which have been exposed to hazardous substances associated with mining activities. This exposure has caused injury Resultant damages to trustees resources will be assessed under the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA) as amended.

The Trustees are following the guidance of the Natural Resource Damage Assessment Regulations (the regulations) found in 43 CFR part 11. The public review of The Plan announced by this notice is provided for in CFR 11.32(c) of the regulations.

Interested members of the public are invited to review and comment on The Plan. Copies are available for review at many community libraries in the Coeur d'Alene Basin, or one may obtain a copy from Trustee offices in the Coeur d'Alene area. All written comments will be considered by the Trustees, and included in the Report of Assessment, at the conclusion of this damage assessment process. Phase I Injury Determination was offered separately for public review and comment in November 1993. Separating the phases of the damage assessment plan for individual treatment allows The Trustees to work on the assessment in a logical progression, consistent with the regulations.
