BILLING CODE 4510-43-M

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-440]

The Cleveland Electric Illuminating Company, et al.; Perry Nuclear Power Plant, Unit No. 1, Environmental Assessment and Finding of No Significant Impact

The U.S. Nuclear Regulatory Commission (the Commission) is considering approval of the transfer of Facility Operating License No. NPF-58, issued to The Cleveland Electric Illuminating Company, et al., the licensees, for operation of the Perry Nuclear Power Plant, Unit No. 1, located in Lake County, Ohio.

Environmental Assessment

Identification of the Proposed Action

The proposed action would consent to the transfer of the license with respect to Ohio Edison Company's (Ohio Edison) 12.58-percent ownership interest in the "common facilities" of the Perry plant to its wholly owned subsidiary, OES Nuclear, Inc. (OES).

The proposed action is in accordance with Ohio Edison's request for approval dated December 29, 1995.

The Need for the Proposed Action

The proposed action is required to obtain the necessary consent to the

transfer of the license discussed above. The underlying transaction is needed to allow Ohio Edison to reduce its current operating costs.

Environmental Impacts of the Proposed Action

The Commission has reviewed the proposed action and concludes that there will be no changes to the facility or its operation as a result of the proposed action. Accordingly, the NRC staff concludes that there are no significant radiological environmental impacts associated with the proposed action.

With regard to potential nonradiological impacts, the proposed action does not affect nonradiological plant effluents and has no other environmental impact. Accordingly, the NRC staff concludes that there are no significant nonradiological environmental impacts associated with the proposed action.

Alternatives to the Proposed Action

As an alternative to the proposed action, the staff considered denial of the proposed action. Denial of the application would result in no change in current environmental impacts. The environmental impacts of the proposed action and the alternative action are similar.

Alternative Use of Resources

This action does not involve the use of any resources not previously considered in the Final Environmental Statement for the Perry Nuclear Power Plant, Units 1 and 2, documented in NUREG-0884.

Agencies and Persons Consulted

In accordance with its stated policy, on June 5, 1996, the staff consulted with the Ohio State official, C. O'Clare of the Ohio Emergency Management Agency, regarding the environmental impact of the proposed action. The State official had no comments.

Finding of No Significant Impact

Based upon the environmental assessment, the Commission concludes that the proposed action will not have a significant effect on the quality of the human environment. Accordingly, the Commission has determined not to prepare an environmental impact statement for the proposed action.

For further details with respect to the proposed action, see the Ohio Edison submittal under cover of letter from Shaw, Pittman, Potts and Trowbridge, dated December 29, 1995, which is available for public inspection at the Commission's Public Document Room, The Gelman Building, 2120 L Street, NW., Washington, DC, and at the local public document room located at the Perry Public Library, 3753 Main Street, Perry, Ohio 44081.

Dated at Rockville, Maryland, this 19th day of June 1996.

For the Nuclear Regulatory Commission.

Jon B. Hopkins, Sr.

Project Manager, Project Directorate III-3, Division of Reactor Projects—III/IV, Office of Nuclear Reactor Regulation.

BILLING CODE 7590-01-P

Sunshine Act Meeting

DATE: Weeks of 24, July 1, 8, and 15, 1996.

PLACE: Commissioners' Conference Room, 11555 Rockville Pike, Rockville, Maryland.

STATUS: Public and Closed.

MATTERS TO BE CONSIDERED:

Week of June 24

Tuesday, June 25

10:00 a.m.

Briefing on Operating Reactors and Fuel Facilities (Public Meeting)
 (Contact: Victor McCree, 301-415-1711)

Wednesday, June 26

11:30 a.m.

Affirmation Session (Public Meeting) (if needed)
2:30 p.m.
Meeting with Advisory Committee on Nuclear Waste (ACNW) (Public Meeting) (Contact: John Larkins, 301-415-7360)

Friday, June 28

10:30 a.m.
Briefing by Executive Branch (Closed—Ex. 1) (Tentative)

Week of July 1—Tentative

Tuesday, July 2

10:00 a.m.
Briefing on Alternatives for Regulating Fuel Cycle Facilities (Public Meeting) (Contact: Ted Sherr, 301-415-7218)

Wednesday, July 3

10:00 a.m.
Briefing on BPR Project on Redesigned Material Licensing Process (Public Meeting) (Contact: Pat Rathbun, 301-415-7178)
11:30 a.m.
Affirmation Session (Public Meeting) (if needed)

Week of July 8—Tentative

There are no meetings scheduled for the week of July 8.

Week of July 15—Tentative

Monday, July 15

10:00 a.m.
Briefing on Status of Staff Actions on Industry Restructuring and Deregulation (Public Meeting) (Contact: Scott Newberry, 301-415-1183)
2:00 p.m.
Briefing by DOE on Status of High level Waste Program (Public Meeting)

Tuesday, July 16

10:00 a.m.
Briefing on EEO Program (Public Meeting)
2:00 p.m.
Briefing on Status of Risk Harmonization (Public Meeting) (Contact: Mike Webber, 301-415-7297)
3:30 p.m.
Affirmation Session (Public Meeting)

* The schedule for Commission meetings is subject to change on short notice. To verify the status of meetings call (Recording)—(301) 415-1292.

BILLING CODE 7590-01-M

SECURITIES AND EXCHANGE COMMISSION

Submission for OMB Review; Comment Request

Upon Written Request, Copies Available From: Securities and Exchange Commission, Office of Filings and Information Services, Washington, DC 20549.

Revision:

Form 8-A, SEC File No. 270-54, OMB Control No. 3235-0056
Form 10-K, SEC File No. 270-48, OMB Control No. 3235-0063
Form 10-Q, SEC File No. 270-49, OMB Control No. 3235-0070
Form 20-F, SEC File No. 270-156, OMB Control No. 3235-0288
Form 10-QSB, SEC File No. 270-369, OMB Control No. 3235-0416
Form 10-KSB, SEC File No. 270-368, OMB Control No. 3235-0420

Notice is hereby given that pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.), the Securities and Exchange Commission ("Commission") has submitted to the Office of Management and Budget requests for approval of modifications to the following Forms:

Form 8-A is a registration statement used by issuers that are already reporting under the Securities Exchange Act of 1934 ("Exchange Act") to register a class of securities under the Exchange Act. This Form permits issuers to incorporate by reference documents that are already filed with the Commission. The Commission proposes to permit issuers to register concurrently a public offering under the Securities Act of 1933 and a class of securities under the Exchange Act by filing a single Securities Act form that would cover both registrations. This proposal would reduce the number of filings that are made on Form 8-A from 1,940 to 776, and would reduce the estimated total annual burden hours from 14,550 hours to 5,820 hours.

Forms 10-K and 10-Q are filed by issuers to satisfy their annual and

quarterly periodic reporting obligations, respectively, pursuant to Section 13 and Section 15(d) of the Exchange Act. "Small business issuers," as defined by Exchange Act Rule 12b-2, are permitted to use Forms 10-KSB and 10-QSB to satisfy their annual and quarterly periodic reporting obligations, respectively, under Section 13 and Section 15(d) of the Exchange Act. In addition, "foreign private issuers," as defined in Exchange Act Rule 3B-4(c), may file Form 20-F to satisfy their annual Exchange Act periodic reporting obligations. The information required to be disclosed in these Forms permits verification of compliance with securities law requirements, and assures the public availability and dissemination of material information concerning an issuer.

The Commission proposed eliminating Form SR, which is filed by issuers to report the use of proceeds following an initial public offering, and requiring that the information currently required by that Form be included in the first periodic report filed by first-time public issuers under the Exchange Act. The use of proceeds information would be reported on Forms 10-K, 10-Q, 10-KSB, 10-QSB and, for foreign private issuers, on Form 20-F. The Commission's proposal would marginally increase the burden hours associated with filing such Forms. However, this increase is expected to result in the provision of important information regarding the use of proceeds and the progress of an offering within a filing that is more commonly monitored by investors.

Each year, approximately 6,051 issuers file 6,051 Form 10-Ks, and approximately 6,282 issuers file 18,216 Form 10-Qs. As a result of the Commission's proposal, an estimated 490 issuers would be required to include the proposed use of proceeds disclosure in their Forms 10-K and 10-Q. The average burden hours for the Forms 10-K and 10-Q that would contain the proposed disclosure item is expected to increase by 5.5 hours for each Form submission. The total annual burden hours for Form 10-K would increase from 10,416,318 hours to 10,419,013 hours, and the total annual burden hours for Form 10-Q would increase from 2,623,104 hours to 2,631,189 hours.

Approximately 545 foreign private issuers file 545 Form 20-Fs each year. An estimated 100 of these issuers are expected to include the proposed use of proceeds information in their Form 20-Fs, and the burden hours for such Form 20-Fs would increase by an average 5.5 hours per submission. The total annual
