

**SUMMARY:** The U.S. Fish and Wildlife Service (Service) announces the availability for public review of a draft revision of the southern sea otter recovery plan. This species occurs along the central coast of California, from Point Año Nuevo south to Purisima Point. The Service solicits review and comment from the public on this draft revised plan. One public workshop will be held.

**DATES:** Comments on the draft revised recovery plan must be received on or before September 24, 1996 to receive consideration by the Service. Public hearings will be held in Monterey, California on July 18, 1996, from 2 to 4 p.m. and from 6 to 8 p.m.

**ADDRESSES:** Public hearings will be held at the Hyatt Regency Monterey, 1 Golf Course Road, Monterey, California.

Persons wishing to review the draft revised recovery plan may obtain a copy by written request addressed to the Field Supervisor, Ventura Field Office, U.S. Fish and Wildlife Service, 2140 Eastman Avenue, Suite 100, Ventura, California 93003, or the Assistant Regional Director, Ecological Services, U.S. Fish and Wildlife Service, 911 N.E. 11th Avenue, Portland, Oregon 97232-4181. Written comments and materials regarding the plan should be addressed to Mr. Carl Benz at the above Ventura, California address. Comments and materials received are available upon request for public inspection, by appointment, during normal business hours at the above Ventura, California address.

**FOR FURTHER INFORMATION CONTACT:** Mr. Carl Benz at the above Ventura, California address (telephone 805-644-1766).

#### **SUPPLEMENTARY INFORMATION:**

##### **Background**

The southern (California) sea otter was listed as threatened in 1977 under the Federal Endangered Species Act of 1973, as amended. It is also recognized as a depleted population pursuant to the Marine Mammal Protection Act. Reduced range and population size, vulnerability to oil spills, and the oil spill risk from coastal tanker traffic were the primary reasons for the threatened status. The southern sea otter population contains about 2,400 individuals and ranges between Point Año Nuevo south to Purisima Point. Approximately 17, including pups, otters are at San Nicolas Island as a result of translocation efforts to establish an experimental population. After review of new biological information, the Service, with assistance of the Southern Sea Otter Recovery

Team, drafted for public review and comment a revised recovery plan in 1991. After review of public comments on that draft and review of new technical information regarding oil spill risk to southern sea otters, the Service, with assistance of the Southern Sea Otter Recovery Team and technical consultants, has drafted for public review and comment a new revised recovery plan.

#### **Public Comments Solicited**

The Service solicits written comments on the recovery plan described. All comments received by the date specified will be considered prior to approval of the plan.

#### **Authority**

The authority for this action is Section 4(f) of the Endangered Species Act, 16 U.S.C. 1533(f).

#### **Issuance of Permit for Incidental Take of Endangered Species**

**AGENCY:** Fish and Wildlife Service, Interior.

**ACTION:** Notice.

**SUMMARY:** On August 4, 1995, a notice was published in the Federal Register (60 FR 39964) that an application had been filed with the U.S. Fish and Wildlife Service (Service) by the Riverside County Habitat Conservation Agency for a permit to incidentally take, pursuant to section 10(a)(1)(B) of the Endangered Species Act (Act) of 1973, as amended (16 U.S.C. 1532 *et seq.*), the endangered Stephens' kangaroo rat (*Dipodomys stephensi*). This is in conjunction with otherwise legal activities such as private and public development and improvement projects in portions of Riverside County, California, pursuant to the Implementation Agreement that implements the Long-Term Stephens' Kangaroo Rat Habitat Conservation Plan.

Notice is hereby given that on May 3, 1996, as authorized by the provisions of the Act, the Service issued an incidental take permit PRT-805414 to the above-named party subject to certain conditions set forth therein. The permit was granted only after it was determined that it was applied for in good faith, that by granting the permit it will not lead to the jeopardy of the endangered species, and that it will be

consistent with the purposes and policies set forth in the Act.

## National Park Service

### Proposed Boundary Adjustment of Olympic National Park; Exchange of Lands in Clallam and Mason Counties, Washington

**ACTION:** Notice of Realty Action on Proposed Boundary Adjustment and Lands Exchange.

**SUMMARY:** The National Park Service (NPS), the State of Washington (State) and the City of Tacoma (Tacoma) are proposing a lands exchange pursuant to the Act of October 23, 1992, Public Law 102-436 (106 Stat. 2217) and the Act of July 15, 1968 (16 U.S.C. 460 I-22(b)), also in accordance with the Act of June 29, 1938 establishing Olympic National Park (16 U.S.C. 251) as amended. Federal lands within Olympic National Park (ONP) are authorized for disposal to Tacoma for operation of the Lake Cushman hydroelectric project. The boundary of ONP would be adjusted to delete these disposed federal lands. In exchange, the United States (U.S.) will acquire State-owned lands within the boundaries of ONP to be provided by Tacoma.

**SUPPLEMENTARY INFORMATION:** An environmental assessment for this project was completed in July 1994, resulting in a Finding of No Significant Impact on February 16, 1996.

The following described federal lands are being proposed for disposal by the U.S. and proposed for deletion from the boundaries of ONP:

Willamette Meridian

Township 23 North, Range 5 West

Tract 37 in unsurveyed Sections 3 and 4

Containing 29.83 acres, more or less.

In exchange, the U.S. will acquire the following described lands:

Willamette Meridian

Township 30 North, Range 10 West

Section 26: NW¼ NW¼, and

Township 28 North, Range 15 West

Section 36: N½ NE¼ NE¼ SW¼.

The above lands aggregating 45 acres, more or less.

The lands to be exchanged have been determined to be of equal value. This lands exchange and boundary adjustment is being proposed to facilitate Tacoma's operation of the Lake Cushman hydroelectric project, which periodically inundates the above federal land within ONP. Management of these lands, although being conveyed to Tacoma and being removed from the boundary of ONP, will continue to include public access and resource protection through a management agreement.

The exchange also provides for the U.S. acquisition of State lands within the boundaries of ONP, which will be administered by NPS. Acquisition of these lands will provide protection to valuable wildlife habitat, wilderness, cultural and recreational resources within ONP.

There are no leases or permits to other third parties affecting the federal lands proposed for disposal. These lands have been surveyed for cultural resources and threatened/endangered species and found suitable for disposal given the mitigation measures provided by agreement.

#### FURTHER INFORMATION AND COMMENTS:

More detailed information on this proposed action may be obtained from the Superintendent, Olympic National Park, 600 East Park Avenue, Port Angeles, Port Angeles, Washington 98362-6789. Public comments will be accepted for a period of 45 calendar days from the publication date of this notice. Comments should be sent to the Superintendent, Olympic National Park at the above address.

In the absence of any subsequent action to modify or vacate the proposed exchange and boundary adjustment, this realty action to proceed with the exchange and boundary adjustment will become the final determination of the Department of the Interior.

Dated: June 12, 1996.

*Deputy Field Director, Pacific West Field Area.*

## INTERNATIONAL TRADE COMMISSION

[Investigation No. 337-TA-380]

### Certain Agricultural Tractors Under 50 Power Take-Off Horsepower; Notice of Commission Determination not to Review an Initial Determination Granting Complainants' Motion to Amend the Complaint and Notice of Investigation to Add a Respondent

**AGENCY:** International Trade Commission.

**ACTION:** Notice.

**SUMMARY:** Notice is hereby given that the U.S. International Trade Commission had determined not to review the initial determination (ID) of the presiding administrative law judge (ALJ) in the above-captioned investigation granting complainants' motion to amend the complaint and notice of investigation to add Fujisawa Trading Agency ("Fujisawa") as a respondent.

#### FOR FURTHER INFORMATION CONTACT:

Shara L. Aranoff, Esq., Office of the General Counsel, U.S. International Trade Commission, 500 E Street, SW, Washington, D.C. 20436, telephone 202-205-3090.

#### SUPPLEMENTARY INFORMATION:

The Commission instituted this investigation, which concerns allegations of unfair acts in violation of section 337 in the importation and sale of certain agricultural tractors under 50 PTO horsepower, on February 14, 1996. On May 7, 1996, complainants Kubota Tractor Corporation, Kubota Manufacturing of America Corporation, and Kubota Corporation filed a motion to add Fujisawa Trading Agency ("Fujisawa") as a respondent in this investigation. In its motion, complainant contends that it learned that Fujisawa is an exporter of the accused tractors after the institution of this investigation. Complainants assert that good cause exists to add Fujisawa as a respondent based on its status as an exporter of the accused tractors and that adding Fujisawa as a respondent will not prejudice the public interest or the rights of any parties to the investigation. The Commission investigative attorney supported the motion. Pursuant to Commission rule 210.15(a)(2), Kubota served a copy of the public version of its motion on Fujisawa. Neither Fujisawa nor any other party opposed the motion. On May 29, 1996, the presiding ALJ issued an ID (Order No. 16) granting complainants' motion. No petitions for review of the ID were received.
