Murphy Exploration & Production Company, Structure-Removal Operations, SEA Nos. ES/SR 96-08 through 96-14.	Vermilion Area, Block 86, Lease OCS-G 14400, 25 miles south of Vermilion Parish, Louisiana.	11/27/95
Elf Exploration, Inc., Structure-Removal Operations, SEA No. ES/SR 96-016.	West Cameron Area, West Addition, Block 392, Lease OCS-G 4768, 63 miles south of Cameron Parish, Louisiana.	12/04/95

Persons interested in reviewing environmental documents for the proposals listed above or obtaining information about EA's and FONSI's prepared for activities on the Gulf of Mexico OCS are encouraged to contact the MMS office in the Gulf of Mexico OCS Region.

FOR FURTHER INFORMATION: Public Information Unit, Information Services Section, Gulf of Mexico OCS Region, Minerals Management Service, 1201 Elmwood Park Boulevard, New Orleans, Louisiana 70123-2394, Telephone (504) 736-2519.

SUPPLEMENTARY INFORMATION: The MMS prepares EA's and FONSI's for proposals which relate to exploration for and the development/production of oil and gas resources on the Gulf of Mexico OCS. The EA's examine the potential environmental effects of activities described in the proposals and present MMS conclusions regarding the significance of those effects. Environmental Assessments are used as a basis for determining whether or not approval of the proposals constitutes major Federal actions that significantly affect the quality of the human environment in the sense of NEPA Section 102(2)(C). A FONSI is prepared in those instances where the MMS finds that approval will not result in significant effects on the quality of the human environment. The FONSI briefly presents the basis for that finding and includes a summary or copy of the EA.

This notice constitutes the public notice of availability of environmental documents required under the NEPA Regulations.

Dated: January 19, 1996.

Chris C. Oynes,

Regional Director, Gulf of Mexico OCS Region.

National Park Service

Notice of Inventory Completion of Native American Human Remains and Associated Funerary Objects From Spring Lake, Utah Under the Control of the Unita National Forest, United States Forest Service and Currently in the Possession of the Museum of Peoples and Cultures, Brigham Young University, Provo, UT

AGENCY: National Park Service

ACTION: Notice

Notice is hereby given in accordance with the provisions of the Native American Graves Protection and Repatriation Act, 25 U.S.C. 3003 (d), of the completion of an inventory of human remains and associated funerary objects under the control of the Unita National Forest, United States Forest Service, and currently in the possession of the Museum of Peoples and Cultures, Brigham Young University, Provo, UT.

A detailed inventory and assessment of the human remains and associated funerary objects was done by the U.S. Forest Service and the Museum of Peoples and Cultures's professional staff in consultation with representatives of the Unitah-Ouray Ute Tribe.

The human remains—an adult male approximately 45-60 years old—and a minimum of 13,558 associated objects were reportedly excavated by local miners in 1917 from Forest Service lands above Spring Lake, UT. The objects found with the remains include brass bells, an iron spur, approximately 13,500 multi-colored glass seed beads, a metal axe head, bridle rosettes, a metal bit, and copper bracelets.

The human remains and associated objects were accessions by the Museum of Latter-Day Saints Church History in 1919. At that time, a local physician attempted to confirm a report that the human remains were those of the Timpanogots' chief Black Hawk who

had died in 1870 and had been buried in the same approximate location. The physician collected statements from Chana E. Hales, William E. Croft, Louise N. Pace, and Ben H. Bullock who had known Black Hawk. These individuals identified many of the objects as Black Hawk's personal effects.

The human remains and associated objects were curated by the Museum of Latter-Day Saints Church History until 1994, when they were transferred to the Museum of Peoples and Cultures for purposes of inventory and repatriation. Osteological analysis confirmed the human remains to be of a 45-60 year old male. Although Black Hawk's exact age was unknown, reports from the era estimate his age as being in his fifties at the time of his death. Many of the associated objects were identified by representatives of the Unitah-Ouray Ute tribe as being common in late nineteenth century Ute burials. No evidence contradicts the identification of the human remains as those of Black Hawk.

Mr. Richard Mountain, Ms. Arlene Appah, and Ms. Silvia Cornpeach, great-grandchildren of Black Hawk's brother Mountain, have claimed Black Hawk's remains and funerary objects on the basis of lineal descent. On November 20, 1995, the Unitah-Ouray Ute Tribal Business Committee passed a formal resolution recognizing their claim and its consistency with Ute tribal kinship practice.

Based on the above mentioned information, officials of United States Forest Service have determined that, pursuant to 43 CFR 10.2 (d)(1), the human remains listed above represent the physical remains of Black Hawk, an individual of Native American ancestry. Museum officials have also determined that, pursuant to 25 U.S.C. 3001 (3)(A), the 13,558 objects listed above are reasonably believed to have been placed with or near individual human remains at the time of death or later as part of

the death rite or ceremony. Lastly, U.S. Forest Service officials have determined that, pursuant to 43 CFR 10.2 (b)(1), Mr. Richard Mountain, Ms. Arlene Appah, and Ms. Silvia Cornpeach can trace their ancestry directly and without interruption by means of the traditional kinship system of the Unitah-Ouray Ute tribe to the remains and associated funerary objects of Black Hawk.

This notice has been sent to Mr. Richard Mountain, Ms. Arlene Appah, Ms. Silvia Cornpeach, and officials of the Unitah-Ouray Ute Tribe, the Skull Valley Executive Committee, the Southern Ute Tribe, the Ute Mountain Ute Tribe, the Goshute Indian Tribe, the Paiute Tribe of Utah, and the Kaibab Paiute Tribe of Arizona. Any other individuals that believe themselves to be lineal descendants of Black Hawk should contact Ms. Charmaine Thompson, Heritage Program Leader, Unita National Forest, United States Forest Service, 88 West 100 North, Provo, UT 84601, telephone: (801) 342-5119, before March 1, 1996. Repatriation of these human remains and associated funerary objects to Mr. Richard Mountain, Ms. Arlene Appah, Ms. Silvia Cornpeach, may begin after that date if no additional claimants come forward.

Dated: January 25, 1996.

Francis P. McManamon,
*Departmental Consulting Archeologist
 Chief, Archeology and Ethnography Program.*
