

marketed as an isolated project under a contract through which the customer, Sam Rayburn Municipal Power Agency (SRMPA), receives the entire output of the project for a period of 50 years as a result of funding the construction of the hydroelectric facilities at the project. A separate power repayment study is prepared for each project which has a special rate based on its isolated project determination.

Following Department of Energy Order Number RA 6120.2, the Administrator, Southwestern, prepared a current power repayment study for the Robert D. Willis project using the existing annual rate of \$294,312. The study indicated that maintaining the current rate will create a revenue surplus for the project. This is primarily a result of adding the remote operation of the Whitney Project, beginning in FY 1997, by the Corps of Engineers from the Sam Rayburn Project. The Revised Power Repayment Study for the isolated Willis project shows that a decrease of \$27,384 (a 9.3 percent decrease) annually will satisfy repayment criteria. This decrease would change annual revenues produced by the Willis Project from \$294,312 to \$266,928 and satisfy the present financial criteria for repayment of the project.

Opportunity is presented for customers and interested parties to receive copies of the studies and proposed rate schedule for the Willis project. If you desire a copy of the Repayment Study Data Package for the Willis project, please do not hesitate to submit your request to: Mr. George C. Grisaffe, Assistant Administrator, Office of Administration and Rates, P.O. Box 1619, Tulsa, OK 74101, (918) 595-6628.

A Public Information Forum is scheduled to be held at 4:30 p.m., central time (c.t.) Tuesday, July 16, 1996, in Southwestern's offices, room 1600, Williams Center Tower 1, One West Third Street, Tulsa, Oklahoma. The Forum is to explain to customers and interested parties the proposed rates and supporting studies. The Forum will be conducted by a chairman who will be responsible for orderly procedure. Questions concerning the rates, studies and information presented at the forum may be submitted from interested persons and will be answered, to the extent possible, at the forum. Questions not answered at the Forum will be answered in writing, except the questions involving voluminous data contained in Southwestern's records may best be answered by consultation and review of pertinent records at Southwestern's offices. Persons interested in attending the Public Information Forum should indicate in

writing by 4:00 p.m., c.t., Friday, July 12, 1996, their intent to appear at such Forum. Accordingly, if no one so indicates their intent to attend, no such Forum will be held.

A Public Comment Forum is scheduled to be held at 1:30 p.m., c.t., Tuesday, July 30, 1996, at the same location established for the Public Information Forum. At the Public Comment Forum interested persons may submit written comments or make oral presentations of their views and comments. This forum will also be conducted by a chairman who will be responsible for orderly procedure. Southwestern's representatives will be present, and they and the chairman may ask questions of speakers. The chairman may allow others to speak if time permits. Persons interested in attending or speaking at the Public Comment Forum should indicate in writing by 4:00 p.m., c.t., Friday, July 26, 1996, their intent to appear at such Forum. Accordingly, if no one so indicates their intent to attend, no such Forum will be held.

A transcript of each Forum will be made. Copies of the transcripts may be obtained from the transcribing service. Copies of all documents introduced will be available from Southwestern upon request, for a fee. Written comments on the proposed rates for the project are due on or before 30 days from publication. Written comments should be submitted to the Administrator, Southwestern Power Administration, U.S. Department of Energy, P.O. Box 1619, Tulsa, Oklahoma 74101.

Following review of the oral and written comments, the Administrator will submit the rate proposals and the Power Repayment Studies for the Willis project, in support of the proposed rates, to the Deputy Secretary of Energy for confirmation and approval on an interim basis and to the Federal Energy Regulatory Commission (FERC) for confirmation and approval on a final basis. The FERC will allow the public an opportunity to provide written comments on the proposed rate increases before making a final decision.

Issued in Tulsa, Oklahoma, this 24th day of June, 1996.

Frances R. Gagan,

*Acting Administrator.*

## FEDERAL LABOR RELATIONS AUTHORITY

### Notice of Opportunity to Submit Amicus Curiae Briefs in Representation Proceedings Pending Before the Federal Labor Relations Authority

AGENCY: Federal Labor Relations Authority.

**ACTION:** Notice of the opportunity to file briefs as amici curiae in proceedings before the Federal Labor Relations Authority raising issues regarding: (1) the relationship between sections 7111(f)(1) and 7120 of the Federal Service Labor-Management Relations Statute (5 U.S.C. 7111(f)(1) and 5 U.S.C. 7120); and (2) the criteria to be used by the Authority in resolving representation cases under section 7111(f)(1) of the Statute arising from an agency reorganization where both successorship and accretion principles are claimed to apply.

**SUMMARY:** The Federal Labor Relations Authority provides an opportunity for all interested persons to file briefs as amici curiae on significant issues arising in cases pending before the Authority. The Authority is considering the cases pursuant to its responsibilities under the Federal Service Labor-Management Relations Statute, 5 U.S.C. 7101-7135 (1994) (the Statute) and its regulations, set forth at 5 CFR part 2422 (1995), revised by 5 CFR part 2422 (1996). The issues concern how the Authority should: (1) determine whether a labor organization is subject to corrupt influences or influences opposed to democratic principles within the meaning of section 7111(f)(1) of the Statute; and (2) resolve representation petitions arising from a reorganization where both successorship and accretion principles are claimed to apply to the same employees.

**DATES:** Briefs submitted in response to this notice will be considered if filed by close of business on July 24, 1996.
