Foreign-Trade Zones Board

[Docket 54-96]

Foreign-Trade Zone 142—Camden, New Jersey Application for Subzone Status Coastal Eagle Point Oil Company (Oil Refinery Complex) Westville, New Jersey

An application has been submitted to the Foreign-Trade Zones Board (the Board) by the South Jersey Port Commission, grantee of FTZ 142, requesting special-purpose subzone status for the oil refinery complex of Coastal Eagle Point Oil Company (wholly-owned subsidiary of Coastal Corporation), located in Gloucester County (Westville area), New Jersey. The application was submitted pursuant to the provisions of the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a–81u), and the regulations of the Board (15 CFR part 400). It was formally filed on June 25, 1996.

The refinery complex (130,000 BPD, 377 employees) is located at a 1,000-acre site on the Delaware River at U.S. Route 130 South, Gloucester County (Westville area), New Jersey, some 10 miles south of Philadelphia.

The refinery produces fuels and petrochemical feedstocks. Fuels produced include gasoline, jet fuel, kerosene, distillates and residual fuels. Petrochemical feedstocks and refinery by-products include butane, propane, benzene, toluene, xylene, propylene, cumene, sulfur, petroleum coke and asphalt. All of the crude oil (85 percent of inputs) and some feedstocks and motor fuel blendstocks used in producing fuel products are sourced abroad.

Zone procedures would exempt the operations involved from Customs duty payments on the foreign products used in its exports. On domestic sales, the company would be able to choose the finished product duty rate (nonprivileged foreign status—NPF) on certain petrochemical feedstocks and refinery by-products (duty-free) instead of the duty rates that would otherwise apply to the foreign-sourced inputs (e.g., crude oil, natural gas condensate). The duty rates on crude oil range from 5.25¢/ barrel to 10.5¢/barrel. The application indicates that the savings from zone procedures would help improve the refinery's international competitiveness.

In accordance with the Board's regulations, a member of the FTZ Staff has been designated examiner to investigate the application and report to the Board.

Public comment is invited from interested parties. Submissions (original and 3 copies) shall be addressed to the Board's Executive Secretary at the address below. The closing period for their receipt is September 6, 1996. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period (to Septmeber 23, 1996).

A copy of the application and accompanying exhibits will be available for public inspection at each of the following locations:

U.S. Department of Commerce, Export Assistance Center, Bldg. #6, Suite 100, 3131 Princeton Pike, Trenton, New Jersey 08648.

Office of the Executive Secretary, Foreign-Trade Zones Board, Room 3716, U.S. Department of Commerce, 14th & Pennsylvania Avenue, NW, Washington, DC 20230.

Dated: June 27, 1996.

John J. Da Ponte, Jr.,

Executive Secretary.

BILLING CODE 3510–DS–P

Lapse of Authority for Inactive Foreign-Trade Zones

AGENCY: Foreign-Trade Zones Board, International Trade Administration, Commerce.

ACTION: Second notice.

SUMMARY: The information that follows is provided as a follow-up to the notice published on April 1, 1996 (61 FR 14290) regarding § 400.28(a)(5) ("lapse provision") of the regulations of the Foreign-Trade Zones (FTZ) Board (15 CFR Part 400), which goes into effect on November 8, 1996, for certain inactive foreign-trade zones. Based upon an FTZ staff survey and contacts with zone grantees, it appears that some 40 of 210 existing FTZ projects could be initially affected by the lapse provision. In addition, it appears some 50 subzones (out of some 350) could be individually affected notwithstanding the fact that the general-purpose zone with which they are affiliated would not be affected. Since the last notice, 7 projects have taken action to meet the activation requirements, and over 50 percent of the remaining grantees affected are doing

This second notice is published to give interested parties a further opportunity to comment on the interpretive guidelines and procedures that are being considered by the Board to implement § 400.28(a)(5). As indicated below, certain changes are being considered after review of the comments received following the first notice.

EFFECTIVE DATES: As indicated in the first notice, the lapse provision first goes into effect for zones approved prior to November 8, 1991, which have not been activated at any time in the past and will not have been activated by November 8, 1996. Thereafter it will have a continuing effect that requires activation within 5 years of approval.

FTZ Activation

The information relating to activation remains essentially as stated in the first notice. A zone grantee which will have reported in its annual report to the FTZ Board the receipt of shipments under FTZ procedures (and under Customs activation approval) at any time in the past prior to November 8, 1996, and thereafter within the applicable time frame, is deemed to have fulfilled the FTZ activation requirement with regard to its general-purpose zone sites, and for any subzones for which shipments have been reported. The grantees of zones so activated after the last annual report period are requested to notify the **Executive Secretary with supporting** information if they have not yet done so.

A zone project at which no shipments have been actually received under FTZ procedures, but which is active in offering FTZ services to the public, may fulfill the activation requirement as follows: (1) obtain Customs activation approval under § 146.6 of the Customs regulations (19 CFR Part 146) from the Customs Port Director (formerly, District Director) for the area; and, (2) submit a zone schedule to the Executive Secretary of the FTZ Board and to the Customs Port Director pursuant to § 400.42(b) of the FTZ regulations. It is completion of both these requirements that constitutes "FTZ activation".

As indicated in the first notice, zone grantees having no shipments to report and who are completing the requirements to avert a lapse of authority under § 400.28(a)(5), shall notify the Executive Secretary in writing upon completion of the requirements, stating the extent to which the zone is open for business. The Executive Secretary will then, upon review, acknowledge in writing whether FTZ activation has occurred subject to FTZ Board approval of the procedures outlined in this notice.

Review Procedure

As indicated in the first notice, beginning November 8, 1996, and thereafter on October 1 of each Federal fiscal year, the FTZ Staff will conduct periodic reviews with regard to zone projects that appear to be affected by \$ 400.28(a)(5). Lists will be maintained by the FTZ staff of those zones for which authority has lapsed as well as those for which authority has terminated (after the reinstatement period), and the U.S. Customs Service will be kept advised.

Reinstatement

Upon review of the comments received in response to the first notice,
