

14 CFR Part 71**[Airspace Docket No. 96-AGL-4]****Establishment of Class E Airspace; Menomonie, WI****AGENCY:** Federal Aviation Administration (FAA), DOT.**ACTION:** Final rule.

SUMMARY: This action establishes Class E airspace at Score Field, Menomonie, WI, to accommodate a Very High Frequency Omnidirectional Range/Distance Measuring Equipment (VOR/DME) for Runway 27. Controlled airspace extending upward from 700 to 1200 feet above ground level (AGL) is needed to contain aircraft executing the approach. The intended effect of this action is to provide segregation of aircraft using instrument approach procedures in instrument conditions from other aircraft operating in visual weather conditions.

EFFECTIVE DATE: 0901 UTC, August 24, 1996.

FOR FURTHER INFORMATION CONTACT: John A. Clayborn, Air Traffic Division, Operations Branch, AGL-530, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018, telephone (847) 294-7568.

SUPPLEMENTARY INFORMATION:**History**

On May 2, 1996, the FAA proposed to amend part 71 of the Federal Aviation Regulations (14 CFR part 71) to establish Class E5 at Score Field, Menomonie, WI (61 FR 19592). The proposal was to add controlled airspace extending upward from 700 to 1200 feet AGL to contain Instrument Flight Rules (IFR) operations in controlled airspace during portions of the terminal operation and while transiting between the enroute and terminal environments.

Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No comments objecting to the proposal were received. Class E5 airspace designations for airspace areas extending upward from 700 feet or more above the surface of the earth are published in paragraph 6005 of FAA Order 7400.9C dated August 17, 1995, and effective September 16, 1995, which is incorporated by reference in 14 CFR 71.1. The Class E5 airspace designation listed in this document will be published subsequently in the Order.

The Rule

This amendment to part 71 of the Federal Aviation Regulations (14 CFR

part 71) establishes Class E5 airspace at Score Field, Menomonie, WI, to accommodate a Very High Frequency Omnidirectional Range/Distance Measuring Equipment (VOR/DME) for Runway 27. Controlled airspace extending upward from 700 to 1200 feet AGL is needed to contain aircraft executing the approach. The area will be depicted on appropriate aeronautical charts thereby enabling pilots to circumnavigate the area or otherwise comply with IFR procedures.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation—(1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

14 CFR Part 71**[Airspace Docket No. 92-AGL-5]****Establishment of Class E Airspace; Sturgis, SD****AGENCY:** Federal Aviation Administration; Sturgis, SD.**ACTION:** Final rule.

SUMMARY: This action establishes Class E airspace at Sturgis, SD. A Global Positioning System (GPS) standard instrument approach procedure (SIAP) to Runway 29 has been developed for the Sturgis Municipal Airport. Controlled airspace extending upward from 700 feet above ground level (AGL) is needed to contain aircraft executing the approach. The intended effect of this action is to provide segregation of aircraft using instrument approach procedures in instrument conditions from other aircraft operating in visual weather conditions.

Alteration of Jet Routes J–86 and J–92; Correction

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule; correction.

SUMMARY: This action corrects a final rule published in the Federal Register on June 13, 1996 (Airspace Docket No. 93–AWP–4). In the airspace designation of Jet Route 86 (J–86), effective August 15, 1996, erroneously showed “Miami, FL” as the ending point for J–86. This action corrects the definition of J–86 by changing the ending point to read “Dolphin, FL.”

EFFECTIVE DATE: 0901 UTC, August 15, 1996.

FOR FURTHER INFORMATION CONTACT: Bill Nelson, Airspace and Rules Division, ATA–400, Office of Air Traffic Airspace Management, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, DC 20591; telephone: (202) 267–8783.

SUPPLEMENTARY INFORMATION: Federal Register Document 96–15062, Airspace Docket No. 93–AWP–4, published on June 13, 1996 (61 FR 29938), extended J–86 and realigned J–92 to enhance traffic flows and reduce controller workload. However, in the June 13 publication the description for J–86 erroneously indicated Miami, FL as the ending point for J–86. This action corrects that error.

Correction of Final Rule

§ 71.1 [Corrected]

Accordingly, pursuant to the authority delegated to me, the airspace designation for J–86, published in the Federal Register on June 13, 1996 (61 FR 29939); Federal Register Document

96–15062, Column 1) is corrected to read as follows:

Delegation of Authority

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of delegation of authority.

SUMMARY: The Administrator of the FAA is delegating the authority to administer certain provisions of Special Aviation Regulation (SFAR) No. 74—Airspace and Flight Operations Requirements for the 1996 Summer Olympic Games, Atlanta, GA, to the Regional Administrator for the Southern Region. This delegation will enable the FAA to respond to the immediate needs of the Olympic Committee, local and Federal law enforcement officials and other safety personnel during the Olympic Games.

EFFECTIVE DATE: July 10, 1996.

FOR FURTHER INFORMATION CONTACT: Steve Alogna, Olympic Project Manager, Federal Aviation Administration, 1701 Columbia Ave., College Park, Georgia 30337; (404) 305–5051.

SUPPLEMENTARY INFORMATION: On February 12, 1996, the FAA published SFAR No. 74 in the Federal Register (61 FR 5492), which establishes airspace and flight operations requirements for the XXVI Olympic Games. This regulation is to provide for security of the venues, safe operations, and efficient management of air traffic to, within, and from these areas, and to prevent an unsafe congestion of sightseeing and other aircraft over the various games sites. Paragraph A.3 of SFAR No. 74 contains provisions to provide flexible and efficient management and control of air traffic, such as the authority to give priority to or exclude from certain requirements of
