practicable to issue the preliminary results in 245 days, section 751(a)(3)(A) allows the Department to extend this time period to 365 days.

We determine that it is not practicable to issue the preliminary results within 245 days because the review involves collecting and analyzing information from a large number of companies. Further, there are new legal issues to address because this is the first review of this antidumping duty order under the new law.

Accordingly, the deadline for issuing the preliminary results of this review is now no later than March 31, 1997. The deadline for issuing the final results of this review will be 120 days from the publication of the preliminary results.

This extension is in accordance with section 751(a)(3)(A) of the Act.

Dated: August 15, 1996.

Susan H. Kuhbach,

Acting Deputy Assistant Secretary, Import Administration.

[FR Doc. 96-21337 Filed 8-20-96; 8:45 am] BILLING CODE 3510-DS-P

National Institute of Standards and Technology

Notice of Government Owned Invention Available for Licensing

AGENCY: National Institute of Standards and Technology, Commerce.

SUMMARY: The invention listed below is owned by the U.S. Government, as represented by the Department of Commerce, and is available for licensing in accordance with 35 U.S.C. 207 and 37 CFR Part 404 to achieve expeditious commercialization of results of federally funded research and development.

FOR FURTHER INFORMATION CONTACT:

Technical and licensing information on this invention may be obtained by writing to: Marcia Salkeld, National Institute of Standards and Technology, Office of Technology Partnerships, Building 820, Room 213, Gaithersburg, MD 20899; Fax 301–869–2751. Any request for information should include the NIST Docket No. and Title for the relevant invention as indicated below.

supplementary information: NIST may enter into one or more Cooperative Research and Development Agreements ("CRADA") with licensees to perform further research on the invention for purposes of commercialization. NIST may grant licensees an option to negotiate for exclusive licenses to any jointly owned inventions which arise from the CRADAs as well as an option to negotiate for exclusive royalty-bearing licenses for NIST employee

inventions which arise from the CRADAs.

The invention available for licensing is:

NIST Docket No. 96-009

Title: Interferometric Thickness Variation Test Method For Windows and Silicon Wafers Using a Diverging Wavefront

Description: A non-contact method of using an infrared interferometer for determining a full aperture map of thickness variation and central thickness of silicon wafers and windows. The IR interferometer maps the thickness variation over the entire wafer surface in one rapid measurement. A second measurement with the same device determines the central thickness of the wafer. If the wafer has substantial bow, a third measurement with the wafer reversed permits determination of the bow and separation of its effect from the thickness variation measurement.

Dated: August 12, 1996.

Samuel Kramer,

Associate Director.

National Oceanic and Atmospheric Administration

[I.D. 081596F]

South Atlantic Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meeting.

SUMMARY: The South Atlantic Fishery Management Council will hold a meeting of the Snapper Grouper Plan Development Team (PDT). The agenda will include review of Amendments 8 & 9, review of assessment reports, review of stock status, develop additional items for the next amendment to the snapper grouper fishery management plan, and develop data/research needs.

DATES: The meeting will be held on September 9-11, 1996. The PDT will meet from 1:30 p.m. to 5 p.m. on September 9; from 8:30 a.m. to 12 noon and 1:30 p.m. to 5 p.m. on September 10; and from 8:30 a.m. to 12 noon on September 11.

ADDRESSES: The meetings will be held at the NMFS Laboratory in Beaufort, NC; telephone: 919-728-8716.

Council address: South Atlantic Fishery Management Council; One

Southpark Circle, Suite 306; Charleston, SC 29407-4699

FOR FURTHER INFORMATION CONTACT:

Susan Buchanan, Public Information Officer; telephone: 803–571-4366; fax: 803–769-4520; e-mail: susan buchanan@safmc.nmfs.gov

Special Accommodations

These meetings are physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to the Council office (see ADDRESSES) by September 2, 1996.

Dated: August 15, 1996.

Richard H. Schaefer,

Director, Office of Fisheries Conservation and Management, National Marine Fisheries Service.

[I.D. 081496B]

Endangered Species; Permits

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Issuance of permit 1,010 (P503S) and permit 1,011 (P211J).

SUMMARY: Notice is hereby given that NMFS has issued two permits that authorize takes of an Endangered Species Act-listed species for the purpose of scientific research/enhancement, subject to certain conditions set forth therein, to the Idaho Department of Fish and Game at Boise, ID and the Oregon Department of Fish and Wildlife (ODFW) at Portland, OR.

ADDRESSES: The applications and related documents are available for review in the following offices, by appointment:

Office of Protected Resources, F/PR8, NMFS, 1315 East-West Highway, Silver Spring, MD 20910–3226 (301-713-1401); and

Environmental and Technical Services Division, 525 NE Oregon Street, Suite 500, Portland, OR 97232– 4169 (503–230–5400).

SUPPLEMENTARY INFORMATION: The permits were issued under the authority of section 10 of the Endangered Species Act of 1973 (ESA) (16 U.S.C. 1531–1543) and the NMFS regulations governing ESA-listed fish and wildlife permits (50 CFR parts 217–222).

Notice was published on May 20, 1996 (61 FR 25208) that an application had been filed by IDFG (P503S) for a scientific research/enhancement permit. Permit 1,010 was issued to IDFG on

August 13, 1996. Permit 1,010 authorizes IDFG takes of adult and juvenile, threatened, Snake River spring/summer chinook salmon (Oncorhynchus tshawytscha) associated with a captive rearing program for three populations of chinook salmon in Idaho. Under the permit, IDFG is authorized to collect ESA-listed, naturally-produced chinook salmon parr annually from the upper Salmon River tributaries of West Fork Yankee Fork, upper East Fork, and Lemhi River; transport the collected fish to hatcheries; and rear them to maturity. IDFG plans to release healthy hatcheryreared adults in the wild to supplement the respective natural-spawning populations. However, because a protocol for fish releases has not been fully developed, permit 1,010 does not authorize the release of fish from the captive rearing program. NMFS has conditioned permit 1,010 to require IDFG to apply for a modification to the permit for authorization to release fish from the program, expected to begin in 1998.

The captive rearing program was initiated when NMFS issued emergency permit 972 to IDFG on August 7, 1995 (60 FR 42147, August 15, 1995). Permit 1,010 replaces permit 972. The takes of ESA-listed chinook salmon previously authorized under permit 972 have been incorporated into permit 1,010. Permit 972 is now inactive. Permit 1,010 expires on December 31, 2000.

Notice was published on May 20, 1996 (61 FR 25208) that an application had been filed by ODFW (P211J) for a scientific research/enhancement permit. On July 24, 1996, a public hearing took place on ODFW's request for a permit in La Grande, OR (61 FR 35727, July 8, 1996). Permit 1,011 was issued to ODFW on August 13, 1996. Permit 1,011 authorizes ODFW takes of adult and juvenile, threatened, Snake River spring/summer chinook salmon (Oncorhynchus tshawytscha) associated with a captive broodstock program for three populations of chinook salmon in Oregon. ODFW is authorized to collect ESA-listed, naturally-produced chinook salmon parr annually from the Grande Ronde River tributaries of Catherine Creek, the Lostine River, and the upper Grande Ronde River; transport the collected fish to hatcheries; rear the fish to maturity; and spawn them. ODFW plans to release the healthy progeny of the hatchery-spawned fish in the wild to supplement the respective natural populations. However, because a protocol for fish releases has not been fully developed, permit 1,011 does not authorize the release of fish from the captive broodstock program. NMFS has conditioned permit 1,011 to require

ODFW to apply for a modification to the permit for authorization to release fish from the program, expected to begin in 1998

The captive broodstock program was initiated when NMFS issued emergency permit 973 to ODFW on August 7, 1995 (60 FR 42147, August 15, 1995). Permit 1,011 replaces permit 973. The takes of ESA-listed chinook salmon previously authorized under permit 973 have been incorporated into permit 1,011. Permit 973 is now inactive. Permit 1,011 expires on December 31, 2000.

İssuance of the permits, as required by the ESA, was based on a finding that such permits: (1) Were requested in good faith, (2) will not operate to the disadvantage of the ESA-listed species that is the subject of the permits, and (3) are consistent with the purposes and policies set forth in section 2 of the ESA and the NMFS regulations governing ESA-listed species permits.

Dated: August 15, 1996.

Margaret Lorenz,

Acting Chief, Endangered Species Division, Office of Protected Resources, National Marine Fisheries Service.

[FR Doc. 96–21296 Filed 8–20–96; 8:45 am] BILLING CODE 3510–22–F

DEPARTMENT OF EDUCATION

Notice of Proposed Information Collection Requests

AGENCY: Department of Education. **ACTION:** Proposed collection; comment request.

SUMMARY: The Acting Director, Information Resources Group, invites comments on the proposed information collection requests as required by the Paperwork Reduction Act of 1995.

DATES: Interested persons are invited to submit comments on or before October 21, 1996.

ADDRESSES: Written comments and requests for copies of the proposed information collection requests should be addressed to Patrick J. Sherrill, Department of Education, 600 Independence Avenue, S.W., Room 5624, Regional Office Building 3, Washington, DC 20202–4651.

FOR FURTHER INFORMATION CONTACT: Patrick J. Sherrill (202) 708–8196. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1–800–877–8339 between 8 a.m. and 8 p.m., Eastern time, Monday through Friday.

SUPPLEMENTARY INFORMATION: Section 3506 of the Paperwork Reduction Act of

1995 (44 U.S.C. Chapter 35) requires that the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. OMB may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its statutory obligations. The Acting **Director of the Information Resources** Group publishes this notice containing proposed information collection requests prior to submission of these requests to OMB. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g., new, revision, extension, existing or reinstatement; (2) Title; (3) Summary of the collection; (4) Description of the need for, and proposed use of, the information; (5) Respondents and frequency of collection; and (6) Reporting and/or Recordkeeping burden. OMB invites public comment at the address specified above. Copies of the requests are available from Patrick J. Sherrill at the address specified above.

The Department of Education is especially interested in public comment addressing the following issues: (1) is this collection necessary to the proper functions of the Department, (2) will this information be processed and used in a timely manner, (3) is the estimate of burden accurate, (4) how might the Department enhance the quality, utility, and clarity of the information to be collected, and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology.

Dated: August 15, 1996. Arthur F. Chantker, Acting Director, Information Resources Group.

Office of Educational Research and Improvement

Type of Review: Revision. Title: Integrated Postsecondary Education Data System (IPEDS) 1996 Through 1997/1998.

Frequency: Annually.
