DEPARTMENT OF COMMERCE

International Trade Administration

[A–834–805]

Notice of Preliminary Determination of Sales at Less Than Fair Value and Postponement of Final Determination: Beryllium Metal and High Beryllium Alloys from Kazakstan

AGENCY: Import Administration,
International Trade Administration,
Department of Commerce.

EFFECTIVE DATE: August 28, 1996.

FOR FURTHER INFORMATION CONTACT:
Dorothy Tomaszewski or Ellen
Grebach, Office of Antidumping
Investigations, Import Administration,
International Trade Administration,
U.S. Department of Commerce, 14th

Street and Constitution Avenue, N.W.,
Washington, D.C. 20230; telephone:
(202) 482–0631 or (202) 482–3773,
respectively.

The Applicable Statute

Unless otherwise indicated, all
citations to the Tariff Act of 1930 ("the
Act") are references to the provisions
effective January 1, 1995, the effective
date of the amendments made to the Act
by the Uruguay Rounds Agreements
Act.

Preliminary Determination

We preliminarily determine that
beryllium metal and high beryllium
alloys ("beryllium") from Kazakstan are
being, or are likely to be, sold in the
United States at less than fair value
("LTFV"), as provided in section 733 of
the Act. The estimated margins are
shown in the "Suspension of
Liquidation" section of this notice.

Case History

Since the initiation of this
investigation on April 3, 1996 (61 FR
15770, April 9, 1996), the following
events have occurred:

On April 26, 1996, a cable was sent
to the U.S. embassy in Kazakstan
requesting the identification of
Kazakstan producers and exporters of
beryllium exported to the United States.
On May 3, 1996, a letter of appearance
was filed on behalf of the Kazak Joint-
Stock Company of Atomic Energy and
Industry ("KATEP") and the Joint-Stock
Company of Ulba Metallurgical Plant
("Ulba"). The Department of Commerce
("the Department") received a response
from the U.S. Embassy on May 8, 1996,
identifying the same companies named
in the May 3, 1996, letter of appearance.
The record indicates that during the POI
these companies were the only
companies licensed to export beryllium
from Kazakstan and that Ulba is the
only beryllium producer in Kazakstan.
The companies did not request that
separate, exporter-specific dumping
margins be calculated.

On May 15, 1996, the Department sent
its antidumping questionnaire to the
Embassy of Kazakstan, with a request
that it be transmitted to all companies
that produce beryllium for export to the
United States and to all companies that
were engaged in selling beryllium to the
United States during the period of
investigation. A copy of the
questionnaire was also sent to Ulba and
KATEP. The Department received
responses to the questionnaire from
Ulba and KATEP during June and July.

On April 29, 1996, the United States
International Trade Commission ("ITC")
notified the Department of its
affirmative preliminary determination.

On June 18, 1996, the Department
provided interested parties with the
opportunity to submit published,
publicly-available information for the
Department to consider when valuing
the factor inputs. Petitioner, Brush
Wellman Inc., and respondents
submitted information on July 23 and
July 30, 1996. Additional comments
from petitioner and respondents were
received on August 6, 1996.

Postponement of Final Determination

Pursuant to section 735(a)(2)(A) of the
Act, on August 14, 1996, respondents
requested that, in the event of an
affirmative preliminary determination
in this investigation, the Department
postpone its final determination until
135 days after the date of publication of
the determination in the Federal
Register. Pursuant to 19 CFR 353.20(b),
because (1) our preliminary
determination is affirmative, (2) the
respondents account for a significant
proportion of exports of the subject
merchandise, and (3) no compelling
reasons for denial exist, we are granting
respondents' request and postponing the
final determination.

Scope of Investigation

The scope of this investigation is
beryllium metal and high beryllium
alloys with a beryllium content equal to
or greater than 30 percent by weight,
whether in ingot, billet, powder, block,
lump, chunk, blank, or other
semifinished form. These are
intermediate or semifinished products
that require further machining, casting
and/or fabricating into sheet, extrusions,
forgings or other shapes in order to meet
the specifications of the end user.
Beryllium and high beryllium alloys
within the scope of this investigation
are classifiable under the Harmonized
Tariff Schedule of the United States
("HTSUS") 8112.11.6000, 8112.11.3000,
7601.20.9075, and 7601.20.9090.
Although the HTSUS subheading is
provided for convenience and customs
purposes, our written description of the
scope of this investigation is dispositive.

Period of Investigation

The period of investigation ("POI") is
July 1, 1995, through December 31,
1995.

Separate Rates

Respondents made no claim for
receiving a separate rate; therefore, the
Department did not address this issue.

Fair Value Comparisons

To determine whether sales of
beryllium from Kazakstan to the United
States by Ulba were made at less than
fair value, we compared the Export
