BILLING CODE 7590-01-P

Documents Containing Reporting or Recordkeeping Requirements; Notice of Pending Submittal to the Office of Management and Budget (OMB) for Review

AGENCY: Nuclear Regulatory Commission (NRC).

ACTION: Notice of pending NRC action to submit an information collection request to OMB and solicitation of public comment.

SUMMARY: The NRC is preparing a submittal to OMB for review of continued approval of information collections under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35).

Information pertaining to the requirement to be submitted:

1. The title of the information collection: 10 CFR Part 33, "Specific Domestic Licenses of Broad Scope for Byproduct Material".

2. Current OMB Approval Number: 3150-0015.

3. How often the collection is required: There is a one-time submittal of information to receive a license. Once a specific license has been issued, there is a 5-year resubmittal of the information for renewal of the license.

4. Who is required or asked to report: All applicants requesting a license of broad scope for byproduct material and all current licensees requesting renewal of a broad scope license.

5. The number of annual respondents: 177 NRC broad scope licensees and 354 Agreement State licensees.

6. The number of hours needed annually to complete the requirement or request: 4,425 hours for NRC licensees and 8,850 hours for Agreement State licensees.

7. Abstract: 10 CFR Part 33 contains mandatory requirements for the issuance of a broad scope license authorizing the use of byproduct material. The subparts cover specific requirements for obtaining a license of broad scope. These requirements include equipment, facilities, personnel, and procedures adequate to protect health and minimize danger to life or property.

Submit, by April 8, 1996, comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?

2. Is the burden estimate accurate?

3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?

4. How can the burden of the information collection be minimized, including the use of automated collection techniques or other forms of information technology?

BILLING CODE 7590-01-P

Documents Containing Reporting or Recordkeeping Requirements; Notice of Pending Submittal to the Office of Management and Budget (OMB) for Review

AGENCY: U. S. Nuclear Regulatory Commission (NRC).

ACTION: Notice of pending NRC action to submit an information collection request to OMB and solicitation of public comment.

SUMMARY: The NRC is preparing a submittal to OMB for review of continued approval of information collections under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35).

Information pertaining to the requirement to be submitted:

1. The title of the information collection: 10 CFR Part 31, "General Domestic Licenses for Byproduct Material".

2. Current OMB Approval Number: 3150-0016.

3. How often the collection is required: Reports are submitted as events occur. Registration certificates may be submitted at any time. Changes to the information on the registration certificate are submitted as they occur.

4. Who is required or asked to report: Persons desiring to own byproduct material and persons desiring to possess and use byproduct material in certain items.

5. The number of annual respondents: 170 NRC licensees and 340 Agreement State licensees.

6. The number of hours needed annually to complete the requirement or request: 2,634 hours for NRC licensees and 5,265 hours for Agreement State licensees.

7. Abstract: 10 CFR Part 31 establishes general licenses for the possession and use of byproduct material in certain items and a general license for ownership of byproduct material. General licensees are required to keep records and submit reports identified in Part 31 in order for NRC to determine with reasonable assurance that devices are operated safely and without radiological hazard to users or the public. The revision reflects an overall increase in burden. There has been a decrease in burden for NRC licensees, due to a smaller number of general

licensees and fewer reports being filed by general licensees. However, the burden for Agreement State licensees was not included in the previous burden.

Submit, by April 8, 1996, comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?
2. Is the burden estimate accurate?
3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?
4. How can the burden of the information collection be minimized, including the use of automated collection techniques or other forms of information technology?

BILLING CODE 7590-01-P

Documents Containing Reporting or Recordkeeping Requirements: Office of Management and Budget (OMB) Review

AGENCY: Nuclear Regulatory Commission (NRC).

ACTION: Notice of the OMB review of information collection.

SUMMARY: The NRC has recently submitted to OMB for review the following proposal for collection of information under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35).

1. Type of submission: Revision.
2. The title of the information collection: 10 CFR Part 50.76 "Reporting Reliability and Availability Information for Risk-Significant Systems and Equipment."
3. The form number, if applicable: Not Applicable.
4. How often the collection is required: Annually.
5. Who will be required to report: Licensees for commercial nuclear power reactors.
6. An estimate of the number of respondents: 110
7. The estimated number of annual responses: 110
8. An estimate of the total number of hours needed annually to complete the request: 151,200 (1375 hours per response). In addition, there is a one-time implementation burden of 46,550 hours which, annualized over three years, will be 15,520 hours (141 hours per licensee). Total initial annual burden will therefore be 166,720 hours (1516 hours) per licensee.
9. An indication of whether Section 3507(d), Pub. L. 104-13 applies: Applicable.

10. Abstract: The Nuclear Regulatory Commission (NRC) is proposing to amend its regulations to require that licensees for commercial nuclear power reactors report summary reliability and availability data for risk-significant systems and equipment to NRC. In addition, the records and documentation that provide the bases for the summary data reported to the NRC shall be maintained on site and made available for NRC inspection. This mandatory information would improve the NRC's ability to make risk-effective regulatory decisions consistent with the Commission's policy statement on the use of probabilistic risk assessments. The risk-significant systems and equipment for which data would be provided are a subset of the systems and equipment within the scope of the maintenance rule, 10 CFR 50.65.

A copy of the submittal may be viewed free of charge at the NRC Public Document Room, 2120 L Street, N.W. (Lower Level), Washington, D.C. 20037. Members of the public who are in the Washington, DC, area can access the submittal via modem on the Public Document Room Bulletin Board (NRC's Advanced Copy Document Library) NRC subsystem at FedWorld, 703-321-3339. Members of the public who are located

outside of the Washington, DC, area can dial FedWorld, 1-800-303-9672, or use the FedWorld Internet address: fedworld.gov (Telnet). The document will be available on the bulletin board for 30 days after the signature date of this notice. The electronic copy of this document will be in the NRC PDR library that can be selected from any FedWorld library. If assistance is needed in accessing the document, please contact the FedWorld help desk at 703-487-4608.

Comments and questions should be directed to the OMB reviewer by March 8, 1996: Troy Hillier, Office of Information and Regulatory Affairs, (3150-0011), NEOB-10202, Office of Management and Budget, Washington, D.C. 20503.

Comments can also be submitted by telephone (202) 395-3084.

The NRC Clearance Officer is Brenda Jo Shelton, (301) 415-7233.
