

European Council on Accreditation of Laboratories (EAL) organizations.

The LAWG Steering Group presented a "Vision" statement. This informal group consists of the three sponsoring organizations and representatives of each of the stakeholders: Laboratories, accreditors, and the government and private sector entities that require accreditation of laboratories for their own purposes. The Vision statement was intended to provide a philosophy for developing broad cooperation on accreditation procedures and infrastructure that would be much more effective than the present chaotic system and which would meet the needs of all those affected by laboratory accreditation. A set of "Principles" was also offered as a guide for developing a possible infrastructure. These principles include recognition of competent organizations that accredit laboratories, use of procedures and requirements based on international standards and guides, elimination of domestic barriers, and improved access to foreign markets for U.S. products.

Throughout the Forum, speakers supported the opportunity to achieve a coordinated, cost effective system for unified procedures for determining the competency of laboratories by qualified accreditors.

Dated: September 15, 1996.

**SUPPLEMENTARY INFORMATION:** The Corporation is a federal government corporation that engages Americans of all ages and backgrounds in community-based service. This service addresses the nation's educational, public safety, human, and environmental needs to achieve direct and demonstrable results. In doing so, the Corporation fosters civic responsibility, strengthens the ties that bind us together as a people, and provides educational opportunity for those who make a substantial commitment to service.

The Corporation seeks to expand opportunities for individuals to serve as AmeriCorps Members and earn educational benefits, broaden the network of national service programs and strategies, and increase the number of communities joining with AmeriCorps to better meet their needs. Accordingly, the Corporation announced the availability of up to 5,000 education awards from the National Service Trust through a simplified application process for community service programs that can support all or most other program and Member support costs through other sources of funding. The education awards being made available may be earned by AmeriCorps Members successfully completing Full-time or Part-time terms in a community service program approved through the application process. Students selected for recognition will receive locally-funded scholarships, matched or supplemented with federal funds provided by the Corporation. Of the National Service Scholars, a small number selected at the State level will receive special recognition and larger scholarships, and an even smaller number selected at the national level will receive special recognition and still larger scholarships. The Corporation's goal in this effort is to highlight the outstanding community service performed by high school students across the country, to recognize the particularly noteworthy service accomplishments of outstanding young individuals, and to assist those individuals in pursuing higher education. In order to accomplish this, the Corporation is interested in selecting an organization to provide administrative and technical support related to this program.
