BILLING CODE 4140-01-M

Prospective Grant of Exclusive License: Pharmaceuticals for the Treatment of Autoimmune Disease and Transplant Rejection

AGENCY: National Institutes of Health, Public Health Service, DHHS.

ACTION: Notice.

SUMMARY: This is notice in accordance with 15 U.S.C. 209(c)(1) and 37 CFR 404.7(a)(1)(i) that the National Institutes of Health (NIH), Department of Health and Human Services, is contemplating the grant of a worldwide, limited field of use, exclusive license to practice the inventions embodied in the patents and patent applications referred to below to Sentron Medical, Inc. of Cincinnati, Ohio. The patent rights in these inventions have been assigned to the Government of the United States of America. The patents and patent applications to be licensed are:

- (1) Method of Treating Autoimmune Diseases and Transplantation Rejection
U.S. Patent Application Serial No. 08/073,830
Filing Date: 6/07/93
- (2) Method of Treating Autoimmune Diseases and Transplantation Rejection
U.S. Patent Application Serial No. 08/480,525
Filing Date: 06/07/95
- (3) Method of Treating Autoimmune Diseases and Transplantation Rejection
U.S. Patent Application Serial No. 08/464,130
Filing Date: 06/05/95
- (4) Method of Treating Autoimmune Diseases and Transplantation Rejection
U.S. Patent Application Serial No. 08/462,165
Filing Date: 06/05/95
- (5) Method of Treating Autoimmune Diseases and Transplantation Rejection
U.S. Patent Application Serial No. 08/460,886
Filing Date: 06/05/95
- (6) Methods for Assessing the Ability of a Candidate Drug To Suppress MHC Class 1 Expression
U.S. Patent Application Serial No. 08/

503,525

Filing Date: 08/21/95

The patents and patent applications to be licensed include those noted above, and all continuation applications, divisional applications, continuation-in-part applications, and foreign counterpart applications of these patents and patent applications.

ADDRESSES: Requests for a copy of these patent applications, inquiries, comments, and other materials relating to the contemplated license should be directed to: Carol C. Lavrich, Technology Licensing Specialist, Office of Technology Transfer, National Institutes of Health, 6011 Executive Boulevard, Suite 325, Rockville, Maryland 20852; Telephone: (301) 496-7056, ext. 287; Facsimile: (301) 402-0220. Applications for a license filed in response to this notice will be treated as objections to the grant of the contemplated license. Only written comments and/or applications for a license which are received by NIH on or before November 12, 1996, will be considered. Comments and objections submitted in response to this notice will not be made available for public inspection, and, to the extent permitted by law, will not be released under the Freedom of Information Act, 5 U.S.C. 552. A signed Confidential Disclosure Agreement will be required to receive a copy of any pending patent application.

The prospective exclusive license will be royalty-bearing and will comply with the terms and conditions of 35 U.S.C. 209 and 37 CFR 404.7. The prospective exclusive license may be granted unless, within sixty (60) days from the date of this published notice, NIH receives written evidence and argument that establishes that the grant of the license would not be consistent with the requirements of 35 U.S.C. 209 and 37 CFR 404.7.

SUPPLEMENTARY INFORMATION: The subject technology provides methods for treating autoimmune diseases in mammals and for preventing or treating transplantation rejection in a transplant recipient. The methods of treatment involve the use of drugs capable of suppressing expression of MHC Class I molecules. In particular, the use of the drug methimazole to suppress expression of MHC Class I molecules in the treatment of autoimmune diseases and the prevention or treatment of rejection in a transplant recipient is disclosed. In addition, *in vivo* and *in vitro* assays are provided for the assessment and development of drugs capable of suppressing MHC Class I molecules.

Although organ transplantation is an established therapy in the United States, there remain major clinical and practical obstacles which continue to limit the use of transplantation. The number of transplants currently performed dramatically understates the size of the opportunity for transplantation should these obstacles be overcome. In addition to the over 15,000 organ transplants that were performed in the U.S. in 1990, another 20,000-25,000 patients are on nationwide organ specific waiting lists because of organ shortages. New technologies which may enable the use of cells, organ segments, or non-human donors will make transplants possible for more of the patients on waiting lists.

Dated: September 4, 1996.

Barbara M. McGarey,

Deputy Director, Office of Technology Transfer.

BILLING CODE 4140-01-M

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. FR-4124-N-03]

Office of the Assistant Secretary for Community Planning and Development; Federal Property Suitable as Facilities to Assist the Homeless

AGENCY: Office of the Assistant Secretary for Community Planning and Development, HUD.

ACTION: Notice.

SUMMARY: This notice identifies unutilized, underutilized, excess, and surplus Federal property reviewed by HUD for suitability for possible use to assist the homeless.

FOR FURTHER INFORMATION CONTACT: Mark Johnston, room 7256, Department of Housing and Urban Development, 451 Seventh Street SW, Washington, DC 20410; telephone (202) 708-1226; TDD number for the hearing- and speech-impaired (202) 708-2565 (these telephone numbers are not toll-free), or call the toll-free Title V information line at 1-800-927-7588.

SUPPLEMENTARY INFORMATION: In accordance with 24 CFR Part 581 and section 501 of the Stewart B. McKinney Homeless Assistance Act (42 U.S.C. 11411), as amended, HUD is publishing this Notice to identify Federal buildings and other real property that HUD has reviewed for suitability for use to assist the homeless. The properties were reviewed using information provided to HUD by Federal landholding agencies

regarding unutilized and underutilized buildings and real property controlled by such agencies or by GSA regarding its inventory of excess or surplus Federal property. This Notice is also published in order to comply with the December 12, 1988 Court Order in *National Coalition for the Homeless v. Veterans Administration*, No. 88-2503-OG (D.D.C.).

Properties reviewed are listed in this Notice according to the following categories: Suitable/available, suitable/unavailable, suitable/to be excess, and unsuitable. The properties listed in the three suitable categories have been reviewed by the landholding agencies, and each agency has transmitted to HUD: (1) Its intention to make the property available for use to assist the homeless, (2) its intention to declare the property excess to the agency's needs, or (3) a statement of the reasons that the property cannot be declared excess or made available for use as facilities to assist the homeless.

Properties listed as suitable/available will be available exclusively for homeless use for a period of 60 days from the date of this Notice. Homeless assistance providers interested in any such property should send a written expression of interest to HHS, addressed to Brain Rooney, Division of Property Management, Program Support Center, HHS, room 5B-41, 5600 Fisher Lane, Rockville, MD 20857; (301) 443-2265. (This is not a toll-free number.) HHS will mail to the interested provider an application packet, which will include instructions for completing the application. In order to maximize the opportunity to utilize a suitable property, providers should submit their written expressions of interest as soon as possible. For complete details concerning the processing of applications, the reader is encouraged to refer to the interim rule governing this program, 24 CFR Part 581.

For properties listed as suitable/to be excess, that property may, if subsequently accepted as excess by GSA, be made available for use by the homeless in accordance with applicable law, subject to screening for other Federal use. At the appropriate time, HUD will publish the property in a Notice showing it as either suitable/available or suitable/unavailable.

For properties listed as suitable/unavailable, the landholding agency has decided that the property cannot be declared excess or made available for use to assist the homeless, and the property will not be available.

Properties listed as unsuitable will not be made available for any other purpose for 20 days from the date of this

Notice. Homeless assistance providers interested in a review by HUD of the determination of unsuitability should call the toll free information line at 1-800-927-7588 for detailed instructions or write a letter to Mark Johnston at the address listed at the beginning of this Notice. Included in the request for review should be the property address (including zip code), the date of publication in the Federal Register, the landholding agency, and the property number.

For more information regarding particular properties identified in this Notice (*i.e.*, acreage, floor plan, existing sanitary facilities, exact street address), providers should contact the appropriate landholding agencies at the following address: GSA: Mr. Brain K. Polly, Assistant Commissioner, General Services Administration, Office of Property Disposal, 18th and F Streets, NW, Washington, DC 20405; (202) 501-0052; Interior: Ms. Lola D. Knight, Department of the Interior, 1849 C Street, NW, Mail Stop 5512-MIB, Washington, DC 20240; (202) 208-4080; Transportation: Mr. Crawford F. Grigg, Director, Space Management, SVC-140, Transportation Administrative Service Center, Department of Transportation, 400 7th Street, SW, Room 2310, Washington, DC 20590; (202) 366-4246; (These are not toll-free numbers).

Dated: September 6, 1996.

Jacque M. Lawing,
Deputy Assistant Secretary for Economic Development.

BILLING CODE 4210–29–M

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Notice of Availability of Draft Conservation Agreements for the Bonneville Cutthroat Trout and the Colorado River Cutthroat Trout for Review and Comment

AGENCY: Fish and Wildlife Service,
Interior.

ACTION: Notice of document availability.

SUMMARY: The Fish and Wildlife Service (Service) announces the availability for public review of two Draft Conservation Agreements, one for the Bonneville cutthroat trout (*Onchornychus clarki utah*) in the State of Utah and one for the Colorado River cutthroat trout (*Onchornychus clarki pleuriticus*) in the State of Utah. Both of these species are designated species of special concern by the Service and within the State of Utah. The Conservation Agreements were developed by the Utah Department of Natural Resources, as a collaborative and cooperative effort among resource agencies. Both agreements focus on reducing and eliminating significant threats to the species that warrant their special status, and on restoring and maintaining populations of each species to ensure their longterm conservation within their respective historical ranges. The Service solicits review and comment from the public on these draft agreements.

DATES: Comments on the Draft Conservation Agreements must be received on or before October 15, 1996 to be considered by the Service during preparation of the final Conservation Agreements and prior to the Service's determination whether it will be a signatory party to the agreements.

ADDRESSES: Persons wishing to review the Draft Conservation Agreements may obtain a copy by contacting the Assistant Field Supervisor, U.S. Fish and Wildlife Service, 145 East 1300

South, Suite 404, Salt Lake City, Utah 84115. Written comments and materials regarding the Draft Conservation Agreements also should be directed to the same address. Comments and materials received will be available on request for public inspection, by appointment, during normal business hours at the above address.

FOR FURTHER INFORMATION CONTACT: Mr. Robert D. Williams, Assistant Field Supervisor (see **ADDRESSES** section) (telephone 801/524–5001).

SUPPLEMENTARY INFORMATION:

Background

The Bonneville cutthroat trout is a subspecies of cutthroat trout native to the Bonneville Basin of Utah, Nevada, Idaho, and Wyoming. The desiccation of ancient Lake Bonneville restricted Bonneville cutthroat trout to headwater streams and lakes within the Basin. Human activities such as water development, agricultural development, energy development, mining, timber harvesting, grazing, overfishing, and the introduction of nonnative species have impacted Bonneville cutthroat trout populations. The tenuous status of the remaining populations and the habitat has led to conservation efforts at the Federal, State, and local level. The Utah Department of Natural Resources initiated development of a Conservation Agreement for the Bonneville cutthroat trout in 1995, working cooperatively with other agencies, in an effort to ensure the longterm conservation of Bonneville cutthroat trout within its historical range in Utah.

The Colorado River cutthroat trout is a subspecies of cutthroat trout native to the upper Colorado River drainage in Utah, Colorado, Wyoming, and Arizona. Current distribution of the subspecies is restricted to headwater drainages of the Colorado River above the Grand Canyon. Human activities such as water development, agricultural activities, energy development, mining, overfishing, and the introduction of nonnative species have impacted Colorado River cutthroat trout populations. The tenuous status of the remaining populations and the habitat has led to conservation efforts at the Federal, State, and local level. The Utah Department of Natural Resources initiated development of a Conservation Agreement for the Colorado River cutthroat trout in 1995, working cooperatively with other agencies, in an effort to ensure the longterm conservation of Colorado River cutthroat trout within its historical range in Utah.

The Conservation Agreements for both subspecies of cutthroat trout
