#### Agency Forms Undergoing Paperwork Reduction Act Review

The Centers for Disease Control and Prevention (CDC) publishes a list of information collection requests under review by the Office of Management and Budget (OMB) in compliance with the

Paperwork Reduction Act (44 U.S.C. Chapter 35). To request a copy of these requests, call the CDC Reports Clearance Office on (404) 639-7090. Send written comments to CDC, Desk Officer; Human Resources and Housing Branch, New Executive Office Building, Room 10235; Washington, DC 20503. Written comments should be received within 30 days of this notice.

The following requests have been submitted for review since the last publication date on September 18, 1996.

#### Proposed Projects

1. Tuberculosis in Children—New—The Centers for Disease Control and Prevention, National Center for HIV,

STD, and TB Prevention, Division of Tuberculosis Elimination, Surveillance Epidemiologic Investigations Branch will be conducting a study for the purpose of performing research concerning the epidemiology of TB in children, including children co-infected with the human immunodeficiency virus (HIV). The study will involve the following modules: (1) the epidemiology, magnitude and risk factors for TB in children, including HIV-infected children; (2) studies of the diagnosis of TB in children, and (3) reducing the risk of nosocomial transmission of TB in pediatric settings. The total cost to respondents and government is estimated at \$138,000.

| Respondents                                 | Number of respondents | Number of responses/respondent | Avg. burden/response (in hrs.) |
|---|-----------------------|--------------------------------|--------------------------------|
| Positive Tuberculin Skin Testing Form ..... | 100                   | 1                              | 0.33                           |
| Negative Tuberculin Skin Testing Form ..... | 200                   | 1                              | 0.33                           |

The total annual burden is 99.

2. A Brief Intervention for Alcohol Problems in an Emergency Department—New—The contribution of alcohol to injuries due to motor vehicle crashes, violence, and other causes has been a public health concern for many years. Because the emergency department (ED) is the primary source of treatment for many individuals with alcohol-related injuries, the ED visit provides a unique opportunity for early

recognition and initial clinical management of a major injury risk factor, excessive alcohol consumption. The field of alcohol treatment is evolving rapidly and therapeutic attention is increasingly directed toward persons with mild or moderate drinking problems who do not require specialized treatment. Controlled studies in outpatient primary care settings have demonstrated that interventions consisting of as little as a

single brief interview and feedback session can decrease alcohol consumption in 40% to 47% of excessive drinkers at 6 months followup. The purpose of this study is to design, implement, and evaluate the effectiveness of an ED-based prevention program for injured patients with alcohol problems that incorporates promising new screening methods and a brief intervention.

E. The Family and Youth Services Bureau recommends policy direction and programs to address youth and family issues to the Commissioner. It assesses policies, legislation and programs which affect youth and families; recommends budgetary and legislative proposals and subject areas for research and demonstration activities; coordinates efforts with and provides expert advice to departmental and other federal agencies on youth issues and programs and develops program initiatives to address the needs of youth and families. The Bureau represents HHS on various councils, workgroups and committees and provides leadership and coordination to other HHS programs and agencies.

The Bureau promotes a youth development approach to program services so that Bureau programs and activities are planned and designed with an emphasis on meeting the developmental needs of young people and their families, including runaway and homeless youth, youth at risk of involvement with gangs, violence and drugs and other youth in at-risk situations. Administration of these programs currently includes development and implementation of policy, guidelines and regulations concerning the funding and management of service projects for youth under the Runaway and Homeless Youth Act of 1974, the Anti-Drug Abuse Act of 1988 and the Crime Control Act of 1994.

The Bureau oversees the receipt, review and award of applications for grants that ultimately provide services to youth and families and monitors the management of these grants, either directly or in liaison with ACF Regional Offices. In addition, the Bureau designs,

develops, funds and monitors support activities related to these programs including, but not limited to, the provision of technical assistance, a monitoring system, a data collection system, a family and youth clearinghouse and a national communications system/hotline.

The Bureau determines the conceptual and policy framework to address issues facing families and adolescents. It identifies problems, defines critical issues for investigation and makes recommendations regarding subject areas for research, demonstration and evaluation activities. Based on the outcomes of these activities, the Bureau disseminates information through conferences, forums and written materials; provides assistance to service providers and state and local governments in planning, developing, implementing and evaluating programs affecting family and youth; and recommends plans and programs to increase public awareness and understanding about activities affecting vulnerable families and youth.
