BILLING CODE 6050-28-P

DEPARTMENT OF ENERGY

Notice of Wetlands Involvement for Atmospheric Radiation Measurement/Cloud and Radiation Testbed at Sandia National Laboratories

AGENCY: Kirtland Area Office, DOE.

ACTION: Notice of wetlands involvement.

SUMMARY: DOE is proposing to establish an instrumented climate research site in the general vicinity of Barrow, Alaska, on the North Slope and adjacent Arctic Ocean. This site is being established to collect data on a long-term basis about the passage of sunlight and radiant heat through the earth's atmosphere. These data are needed to improve the predictive capability of computer models about changes in the concentration of atmospheric gases as a result of man's activities. Instrumentation and associated workspace would consist of a network of small facilities widely dispersed over an area extending up to 170 miles from Barrow, much of which is tundra. Approximately six acres would be required, of which only a small amount would be actually disturbed. To avoid adversely affecting the permafrost, all facilities and equipment would be supported on pilings installed in conformance with approved arctic/permafrost construction methods and transported only when the tundra is completely frozen.

DATES: Comments must be submitted on or before October 16, 1996.

ADDRESSES: Comments should be addressed to: Susan Lacy, NEPA Compliance Officer, U.S. Department of Energy, Kirtland Area Office, P. O. Box 5400, Albuquerque, NM 87185-5400, (505) 845-5542.

FOR FURTHER INFORMATION ON THIS PROPOSED ACTION, CONTACT: Dan Dille, Document Manager, U.S. Department of Energy, Kirtland Area Office, P.O. Box 5400, Albuquerque, NM 87185-5400, (505) 845-6246.

FOR FURTHER INFORMATION ON GENERAL DOE FLOODPLAIN/WETLANDS ENVIRONMENTAL REVIEW REQUIREMENTS, CONTACT: Carol M. Borgstrom, Director, Office of NEPA Policy and Assistance, EH-42, U.S. Department of Energy, 1000 Independence Avenue, SW, Washington, D.C. 20585, (202) 586-4600 or (800) 472-2756.

SUPPLEMENTARY INFORMATION:

1. Project Description

DOE proposes to establish an instrumented climatic research site on the North Slope of Alaska and adjacent Arctic Ocean, in the vicinity of the community of Barrow. Known as a Cloud and Radiation Testbed measurement site, it would be the third site established worldwide to gather data about the passage of sunlight and radiant heat through the earth's atmosphere. These data are needed to improve the predictive capability of computer models regarding climatic changes resulting from man's activities and any resulting climatic changes. Instrumentation and associated support facilities would consist of a network of small facilities widely dispersed over an area extending up to 170 miles from Barrow. The major concentration of facilities would be established at an existing facility near Barrow and would occupy approximately five acres. Seven to ten additional smaller facilities occupying a few square yards each would be distributed at varying distances from the Barrow facility. The total area required for all facilities would be about six acres. All facilities would be supported on pilings and installed in conformance with approved arctic/permafrost construction methods. Facilities would be transported only when the tundra is completely frozen.

2. Wetlands

A significant portion of the proposed action would be located on tundra, consisting of continuous permafrost. The permafrost extends from a few inches below the land surface to depths ranging from 600 to 1200 feet and has been in a similar condition for several thousand years. The soil column is frozen from November until May. An active layer thaws every summer and varies from 0.5 to five feet deep. After the thaw, about 30 percent of the land surface is water. Implementation of measures designed to prevent or minimize disturbance to the permafrost would preclude adverse impacts.

In accordance with DOE regulations for compliance with floodplain and wetlands environmental review requirements (10 CFR 1022), DOE will

prepare a wetlands assessment for this proposed action. The wetlands assessment will be included as an integral part of the EA that will be prepared for this proposal in complying with NEPA.

Issued in Albuquerque, NM on September 23, 1996.

Susan Lacy,

NEPA Compliance Officer, Kirtland Area Office, Department of Energy.

BILLING CODE 6450-01-P

Federal Energy Regulatory Commission

[Docket No. RP96-309-001]

Florida Gas Transmission Company; Notice of Request for Change in Proposed Effective Date and Conforming Changes to Tariff Sheets

September 25, 1996.

Take notice that on September 20, 1996, Florida Gas Transmission Company (FGT) tendered for filing as part of its FERC Gas Tariff, Third Revised Volume No. 1 the following tariff sheets to become effective November 1, 1996.

1st Rev. Sub. 17th Rev. Sheet No. 8A
1st Rev. Sub. 9th Rev. Sheet No. 8A.02
1st Rev. Sub. 15th Rev. Sheet No. 8B
1st Rev. Sub. 8th Rev. Sheet No. 8B.01

FGT states that on July 3, 1996 FGT filed tariff sheets in the above referenced docket (July 3 Filing) to implement rate and tariff changes to become effective upon the abandonment and transfer of certain facilities for which FGT had requested abandonment authorization in Docket No. CP92-12 ("South Texas Facilities"). In the July 3 Filing, FGT stated that, because of commercial and administrative considerations, the abandonment and transfer of the South Texas Facilities would occur on the first day of the first month following the date on which the Commission order in Docket No. CP96-12 became final and non-appealable. In anticipation of a final Commission order being issued during July, 1996, FGT requested a September 1, 1996 effective date for the tariff changes proposed in the July 3 Filing.

Because a Commission order in Docket No. CP96-12 was not issued in July, and the transfer of facilities could not take place on September 1, FGT filed on August 12, 1996 a Request to Delay Action ("August 12 Filing") on FGT's July 3 Filing until such time as a final order approving abandonment of the South Texas Facilities was issued. In the August 12 Filing, FGT stated that

once an order was issued in Docket No. CP96-12, FGT would make a filing in the instant docket requesting a new effective date for the tariff sheets submitted with the July 3 Filing and make any conforming changes required to such tariff sheets.

FGT also states that on September 13, 1996 the Commission issued an Order Authorizing Abandonment in Docket Nos. CP96-11 and CP96-12 and, assuming such Order becomes final and non-appealable during October, 1996, FGT expects the transfer of the South Texas Facilities to become effective on November 1, 1996. Consequently, FGT is filing herein to request a November 1, 1996 effective date for the tariff sheets submitted with the July 3 Filing and to substitute tariff sheets containing conforming changes to four of the tariff sheets filed on July 3, 1996. Conforming changes are required to Sheet Nos. 8A, 8A.02, 8B, and 8B.01 as a result of filings made by FGT in Docket Nos. RP96-316, TM97-1-34 and TM97-2-34 which contain changes not reflected on the tariff sheets filed in the instant docket on July 3, 1996.

Any person desiring to protest this filing should file a protest with the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426, in accordance with 18 CFR 385.211 of the Commission's Rules and Regulations. All such protests must be filed as provided in Section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.

Linwood A. Watson, Jr.,
Acting Secretary.

BILLING CODE 6717-01-M

[Docket No. RP96-386-000]

Honeoye Storage Corporation; Notice of Proposed Changes in FERC Gas Tariff

September 25, 1996.

Take notice that on September 20, 1996 Honeoye Storage Corporation (Honeoye) tendered for filing as part of its FERC Gas Tariff, Second Revised Volume No. 1, revised tariff sheets to be effective November 1, 1996.

Honeoye states that the purpose of the filing is to convert Honeoye tariff and rates from a volumetric (MCF) to a thermal energy basis (MMBTU). The

Commission's Order No. 582 issued September 28, 1995 at Docket No. RM95-3-000 requires pipelines that are on a volumetric basis to convert to a thermal energy basis. Honeoye states that with this tariff amendment, it is converting its existing volumetric rates to a thermal energy basis. Honeoye states that it has used the system average BTU for the twenty-four months ended March 31, 1996 as the basis for converting to a thermal energy basis. Honeoye states that there will be no change in rates and revenues under the proposed revisions since both volumes and rates are being converted.

Honeoye requests waiver of the Commission's Regulations to the extent necessary to permit the tariff sheets to become effective November 1, 1996.

Honeoye states that copies of the filing are being mailed to Honeoye's jurisdictional customers and interested state regulatory agencies.

Any person desiring to be heard or protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, in accordance with Sections 385.214 and 385.211 of the Commission's Rules of Practice and Procedure. All such motions or protests must be filed as provided in Section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.

Linwood A. Watson, Jr.,
Acting Secretary.

BILLING CODE 6717-01-M

[Docket No. RP96-339-001]

Pacific Gas Transmission Company; Notice of Compliance Filing

September 25, 1996.

Take notice that on September 23, 1996, Pacific Gas Transmission Company (PGT) tendered for filing as part of its FERC Gas Tariff, First Revised Volume No. 1-A: Substitute Title Sheet, Substitute Second Revised Sheet No. 2, Substitute First Revised Sheet Nos. 6B, 6D, 6E and 7, Substitute Seventh Revised Sheet No. 51, and Substitute First Revised Sheet No. 139; and as part of its FERC Gas Tariff, Second Revised Volume No. 1: Substitute Title Sheet.

PGT requested the above-referenced tariff sheets become effective September 13, 1996.

PGT asserts that the purpose of this filing is to comply with the Commission's September 11, 1996 order in this proceeding to bring PGT's tariff into compliance with Order Nos. 582 and 582-A, issued September 28, 1995 and February 29, 1996, respectively, in Docket Nos. RM95-3-000, *et al.* In that order, FERC accepted the above-referenced tariff sheets effective September 13, 1996 but directed they be refused to incorporate some non-substantive technical corrections. PGT states the proposed changes will not affect PGT's costs, rates or revenues, and that a copy of this filing has been served on PGT's jurisdictional customers and interested state regulatory agencies.

Any person desiring to protest this filing should file a protest with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with 18 CFR 385.211 of the Commission's Rules and Regulations. All such protests must be filed as provided in Section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.

Linwood A. Watson, Jr.,
Acting Secretary.

[Docket No. RP96-387-000]

Williams Natural Gas Company; Notice of Proposed Changes in FERC Gas Tariff

September 25, 1996.

Take notice that on September 20, 1996, William Natural Gas Company (WNG) tendered for filing to its FERC Gas Tariff, Second Revised Volume No. 1, the following tariff sheets to be effective November 1, 1996:

First Revised Sheet Nos. 103, 106, 112, 114, 121, and 126
Second Revised Sheet No. 131
First Revised Sheet Nos. 136 and 141
Second Revised Sheet Nos. 202 and 203
First Revised Sheet No. 226A
Fourth Revised Sheet Nos. 227 and 228
Third Revised Sheet No. 229
First Revised Sheet Nos. 229A, 229B and 229C
First Revised Sheet No. 235
Second Revised Sheet No. 236
First Revised Sheet No. 237
