Approval and Promulgation of Implementation Plans; State of Kansas

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The EPA proposes to approve the State Implementation Plan (SIP) revision submitted by the state of Kansas for the purpose of fulfilling the requirements set forth in the EPA's General Conformity rule. The SIP was submitted by the state to satisfy the Federal requirements in 40 CFR 51.852 and 93.151. In addition, the EPA proposes to approve a SIP revision submitted by the state pertaining to revision of the state's open burning rules.

In the final rules section of the Federal Register, the EPA is approving the state's SIP revision as a direct final rule without prior proposal, because the Agency views this as a noncontroversial revision amendment and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this proposed rule, no further activity is contemplated in relation to this rule. If the EPA receives adverse comments, the direct final rule will be withdrawn and all

public comments received will be addressed in a subsequent final rule based on this proposed rule. The EPA will not institute a second comment period on this document. Any parties interested in commenting on this document should do so at this time.

DATES: Comments on this proposed rule must be received in writing by November 1, 1996.

Endangered and Threatened Species; Public Hearings on Proposed Status for the West Coast Steelhead

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Public hearings.

SUMMARY: NMFS is announcing dates and locations for public hearings concerning the proposed listing of natural steelhead (*Oncorhynchus mykiss*) populations occurring in California, Oregon, Washington, and Idaho, as threatened or endangered under the Endangered Species Act (ESA). The hearings will provide an opportunity for the public to give comments and will permit an exchange

of information and opinion among interested parties.

FOR FURTHER INFORMATION CONTACT: Garth Griffin, (503) 231-2005; Craig Wingert, (310) 980-4021; or Marta Nammack, (301) 713-1401.

SUPPLEMENTARY INFORMATION:

Background

On August 9, 1996, NMFS issued a proposed rule (61 FR 41541) to list 10 of 15 evolutionarily significant units (ESUs) of west coast steelhead (*Oncorhynchus mykiss*) under the ESA. The ESUs proposed as endangered are located in California (Central California Coast, South/Central California Coast, Southern California, and Central Valley) and Washington (Upper Columbia River). The ESUs proposed as threatened are dispersed throughout California, Idaho, Oregon, and Washington and include the Snake River Basin, Lower Columbia River, Oregon Coast, Klamath Mountains Province, and Northern California ESUs. NMFS also designated the Middle Columbia River ESU as a candidate species. There was not sufficient information available at the time of notice to indicate that steelhead in the Middle Columbia River region warranted protection under the ESA, though NMFS identified specific risk factors and concerns that needed to be evaluated before concluding an assessment of the overall health of steelhead in this area.

Department of Commerce ESA implementing regulations state that the Secretary of Commerce "shall promptly hold at least one public hearing if any person so requests within 45 days of publication of a proposed regulation to list * * * a species" (50 CFR 424.16 (c)(3)). Public hearings on the proposed rule provide the opportunity for the public to give comments and to permit an exchange of information and opinion among interested parties. NMFS encourages your involvement in such ESA matters.
