

SUPPLEMENTARY INFORMATION**I. Abstract**

The Survey of Program Dynamics (SPD) is a household-based survey designed as an omnibus data collection vehicle that can provide the basis for an overall evaluation of how well welfare reforms are achieving the aims of the Administration and the Congress, and meeting the needs of the American people.

The SPD will be a large, longitudinal, nationally-representative study that measures features of the welfare programs, including both programs that are being reformed and those that remain unchanged. The SPD will also measure other important social, economic, demographic and family changes that reflect the effectiveness of the welfare reforms.

With the August 22, 1996 signing of the Personal Responsibility and Work Opportunity Reconciliation Act of 1996 (Pub L. 104-193), the Bureau of the Census is required to conduct the SPD using as the sample households from the 1992 and 1993 Survey of Income and Program Participation (SIPP). The information obtained will be used to evaluate the impact of this law on a sample of recipients of assistance under state programs funded under this law as well as assess the impact on other low-income families. Issues of particular attention include out-of-wedlock births, welfare dependency, the length of welfare spells, and the causes of repeat welfare spells. We also plan to collect information on the status of children who were in the 1992 and 1993 SIPP panels from 1998 survey and thereafter.

A sample of respondents originally in the 1992 and 1993 SIPP panels will be interviewed once a year from 1997-2001, and perhaps longer depending on funding. Separate OMB clearance requests will be submitted for a 1997 pretest and the 1998-2001 surveys. Prior to conducting a pretest of the initial SPD questionnaire, the Bureau of the Census will conduct a "bridge" survey during April-June 1997 using the March 1997 Current Population Survey (CPS) questionnaire, which contains annual retrospective questions on work experience, earnings, program participation, and health insurance coverage. This "bridge" survey and the 1992 and 1993 SIPP panels will provide baseline data for approximately 35,000 households for the period prior to the implementation of the welfare reform activities. With the pretest in the fall of 1997, the full survey implementation in the spring of 1998, and annually thereafter through 2001, the data gathered for the 10-year period (1992-

2001) will aid in assessing short to medium-term consequences or outcomes of the welfare legislation.

We plan to utilize a financial incentive program in the "bridge" survey as an attempt to attain a higher response rate. Each household that completes an interview will receive a small monetary compensation for their cooperation in the survey.

A small sample of households will be selected for reinterview during the "bridge" survey. The reinterview process assures that all households in the survey were properly contacted, and that the data are valid.

II. Method of Collection

The SPD is designed as a longitudinal study of welfare related activities, with the sample respondents drawn from the 1992 and 1993 SIPP panels being interviewed again in the "bridge" survey in 1997, followed by interviews once a year from 1998-2001 (including a pretest in late 1997). Survey years 1998-2001 will emphasize questions pertaining to children and their well-being.

Foreign-Trade Zones Board

[Docket 73-96]

Foreign-Trade Zone 198—Volusia County, Florida; Request for Manufacturing Authority, Capo, Inc. (Sunglasses/Reading Glasses)

An application has been submitted to the Foreign-Trade Zones Board (the Board) by the County of Volusia, Florida, grantee of FTZ 198, pursuant to § 400.32(b)(2) of the Board's regulations (15 CFR Part 400), requesting authority on behalf of Capo, Inc., to manufacture sunglasses/reading glasses (HTS #9004.10) under FTZ procedures. It was formally filed on October 9, 1996.

Capo operates a facility within FTZ 198 that manufactures sunglasses and reading glasses. Presently, the company uses FTZ procedures at its facility for the storage of inventory. This application requests authority for allowing Capo to also conduct its assembly activity under FTZ procedures.

Most components are sourced from abroad (up to 95%), including: metal frames, plastic frames, sunglass lenses, imitation leather cords, man-made fiber

cords, cloth cords, cases, and lens stickers (duty rate range: 3.4%–19.5%).

Zone procedures would exempt Capo from Customs duty payments on the foreign components used in export production. On its domestic sales, it would be able to choose the duty rates that apply to finished sunglasses/reading glasses (5.1%) for the foreign components noted above. The company is also seeking an exemption from Customs duties on scrap generated in the production process. The application indicates that the savings from zone procedures would help improve the plant's international competitiveness.

In accordance with the Board's regulations, a member of the FTZ Staff has been designated examiner to investigate the application and report to the Board.

Public comment on the application is invited from interested parties. Submissions (original and three copies) shall be addressed to the Board's Executive Secretary at the address below. The closing period for their receipt is November 21, 1996. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period (to December 6, 1996).

A copy of the application and the accompanying exhibits will be available for public inspection at the following location: Office of the Executive Secretary, Foreign-Trade Zones Board, U.S. Department of Commerce, Room 3716, 14th Street & Pennsylvania Avenue, NW, Washington, DC 20230.

Dated: October 11, 1996.

[Docket 74-96]

Foreign-Trade Zone 181—Akron-Canton, Ohio Area; Application for Expansion

An application has been submitted to the Foreign-Trade Zones Board (the Board) by the Akron-Canton Regional Airport Authority, grantee of Foreign-Trade Zone 181, requesting authority to expand its zone in the Akron-Canton, Ohio area, adjacent to the Cleveland/Akron Customs port of entry. The application was submitted pursuant to the provisions of the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a-81u), and the regulations of the Board (15 CFR Part 400). It was formally filed on October 10, 1996.

FTZ 181 was approved on December 23, 1991 (Board Order 546, 57 FR 41, 1/2/92). The general-purpose zone currently consists of 110 acres within 2,121-acre Akron-Canton Regional Airport in North Canton, Ohio. An application is currently pending with the Board to expand the zone to include three additional sites in Trumbull, Columbiana and Stark Counties, Ohio (Docket 56-96).

This application is requesting authority to further expand the general-purpose zone to include two sites in Summit County (Akron area), Ohio: a warehouse facility on a site (30 acres) at 1779 Marvo Drive, Summit County; and, a warehouse facility on a site (5.5 acres) at 989 Home Avenue, Summit County. Both sites are owned/operated by Terminal Warehouse, Inc. No specific manufacturing requests are being made at this time. Such requests would be made to the Board on a case-by-case basis.

In accordance with the Board's regulations, a member of the FTZ Staff has been designated examiner to investigate the application and report to the Board.

Public comments on the application is invited from interested parties. Submissions (original and 3 copies) shall be addressed to the Board's Executive Secretary at the address below. The closing period for their receipt is December 23, 1996. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period (to January 6, 1997).

[Docket 75-96]

**Proposed Foreign-Trade Zone—
Memphis, Tennessee Application and
Public Hearing**

An application has been submitted to the Foreign-Trade Zones Board (the Board) by the Memphis International Trade Development Corporation (a Tennessee not-for-profit corporation), to establish a general-purpose foreign-trade zone in Memphis, Tennessee, adjacent to the Memphis Customs port of entry. The application was submitted pursuant to the provisions of the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a-81u), and the regulations of the Board (15 CFR Part 400). It was formally filed on October 11, 1996. The applicant is authorized to make the proposal under Section 7-85-103 of the Tennessee Statutes.

The proposed zone would be the second general-purpose zone in the Memphis Customs port of entry area. The existing zone is FTZ 77 at sites in Memphis, Tennessee (Grantee: City of Memphis, Tennessee, Board Order 189, 47 FR 16191, 4/15/82).

The proposed new zone would be located at the Memphis TradeCenter industrial park (50 acres), U.S. Highway 78 and Tuggle Road, Memphis. It is owned by CP TradeCenter, Ltd. and will be operated by the Foreign Trade Zone Operating Company of Texas. The first phase of development will involve constructing a 268,000 square foot multi-tenant facility.

The application contains evidence of the need for additional zone services in the Memphis area. Several firms have indicated an interest in using zone procedures for warehousing/distribution of such items as electronics and medical products. Specific manufacturing approvals are not being sought at this time. Requests would be made to the Board on a case-by-case basis.
