SUPPLEMENTARY INFORMATION:

Title: Construction Grants Delegation to States; OMB No. 2040-0095; EPA ICR No. ICR 0909.05. This is a request for extension of a currently approved collection.

Abstract: The purpose of this ICR is to revise and extend the current clearance for the collection of information under the Construction Grants Program Delegation to States, 40 CFR part 35, subpart J, and Title II of the Clean Water Act (CWA). While the Construction Grants Program is being phased out and replaced by the State Revolving Loan Fund (SRF) program, collection activities for the Construction Grants Program must continue until program completion. The program includes reporting, monitoring and program requirements for municipalities and delegated States.

The information collection activities described in this ICR are authorized under Sections 205(g) and 518(e) of the Clean Water Act as amended, 33 U.S.C. 1251 et seq, and under 40 CFR part 35, subpart J. The requested information provides the minimum data necessary for the Federal government to maintain appropriate fiscal accountability for use of Section 205(g) construction grant funds. The information is also needed to assure adequate management overview of those State project review activities that are most important to fiscal and project integrity, design performance, Federal budget control, and attainment of national goals.

Managers at the State and Federal levels both rely on the information described in this ICR. State managers rely on the information for their own program and project administration. Federal managers rely on this information to assess, control, and predict the impacts of the construction grants program on the Federal Treasury and future budget requirements. Federal managers also use this information to respond to OMB and Congressional requests and to maintain fiscal accountability.

In addition, builders of wastewater treatment plants use the information

discussed in this ICR. The builders of these plants assess and use the information in the Innovative/Alternative Technology Data Base File to obtain technical information on innovative or alternative wastewater treatment systems. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR Chapter 15. The Federal Register Notice required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on 8/7/96 (61 FR 153); no comments were received.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 58 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purpose of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: States and municipalities.

Estimated Number of Respondents: 44.

Frequency of Response: 137 per year.
Estimated Total Annual Hour Burden: 8,457 hours.

Estimated Total Annualized Cost Burden: \$284,747.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the following addresses. Please refer to EPA ICR No. 0909.05 and OMB Control No. 2040-0095 in any correspondence.
