

previously ordered. As such, the countervailing duty cash deposit rate applicable to a company can no longer change, except pursuant to a request for a review of that company. *See Federal-Mogul Corporation and The Torrington Company v. United States*, 822 F.Supp. 782 (CIT 1993) and *Floral Trade Council v. United States*, 822 F.Supp. 766 (CIT 1993) (interpreting 19 C.F.R. § 353.22(e), the antidumping regulation on automatic assessment, which is identical to 19 C.F.R. § 355.22(g)). Therefore, the cash deposit rates for all companies except those covered by this review will be unchanged by the results of this review.

We will instruct Customs to continue to collect cash deposits for non-reviewed companies at the most recent company-specific or country-wide rate applicable to the company. Accordingly, the cash deposit rates that will be applied to non-reviewed companies covered by this order are those established in the most recently completed administrative proceeding. *See Extruded Rubber Thread From Malaysia; Final Results of Countervailing Duty Administrative Review*, 60 FR 51982 (October 4, 1995). These rates shall apply to all non-reviewed companies until a review of a company assigned these rates is requested. In addition, for the period January 1, 1994 through December 31, 1994, the assessment rates applicable to all non-reviewed companies covered by this order are the cash deposit rates in effect at the time of entry.

This countervailing duty order was determined to be subject to section 753 of the Act (as amended by the Uruguay Round Agreements Act of 1994). *Countervailing Duty Order; Opportunity to Request a Section 753 Injury Investigation*, 60 FR 27,963 (May 26, 1995), amended 60 FR 32,942 (June 26, 1995). In accordance with section 753(a), domestic interested parties have requested an injury investigation with respect to this order with the International Trade Commission (ITC). Pursuant to section 753(a)(4), liquidation of entries of subject merchandise made on or after January 1, 1995, the date Malaysia joined the World Trade Organization, is suspended until the ITC issues a final injury determination. We will not issue assessment instructions for any entries made after January 1, 1995; however, we will instruct Customs to collect cash deposits in accordance with the final results of this administrative review.

This notice serves as a reminder to parties subject to administrative protective order (APO) of their responsibility concerning the

disposition of proprietary information disclosed under APO in accordance with 19 C.F.R. § 355.34(d). Timely written notification of return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

This administrative review and notice are in accordance with section 751(a)(1) of the Act (19 U.S.C. 1675(a)(1)).

Dated: October 9, 1996.

Robert S. LaRussa,

Acting Assistant Secretary for Import Administration.

National Oceanic and Atmospheric Administration

[I.D. 101896B]

North Pacific Fishery Management Council; Crab Team Teleconference

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of teleconference.

SUMMARY: The North Pacific Fishery Management Council's (Council) Crab Fishery Management Plan Team will meet by teleconference on November 12, 1996, beginning at 11:00 a.m., Alaska Time.

ADDRESSES: The teleconference will be held at the Council office, 605 W. 4th Avenue, Suite 306, Anchorage, AK 99501-2252.

FOR FURTHER INFORMATION CONTACT: Dave Witherell, telephone: 907-271-2809.

SUPPLEMENTARY INFORMATION: The agenda for the meeting will include the following subjects.

1. Crab prohibited species catch management for groundfish pot fisheries.
2. Observer collection of crab bycatch data.
3. Crab Fishery Management Plan update.
4. Other crab-related issues which might arise.

Special Accommodations

This meeting will be physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Helen Allen, 907-271-2809, at least 5 working days prior to the meeting date.

Dated: October 18, 1996.

Bruce Morehead,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

BILLING CODE 3510-22-F

CONSUMER PRODUCT SAFETY COMMISSION

Proposed Collection; Comment Request—Citizens Band Base Station Antennas

AGENCY: Consumer Product Safety Commission.

ACTION: Notice.

SUMMARY: As required by the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the Consumer Product Safety Commission requests comments on a proposed reinstatement of approval of a collection of information from manufacturers and importers of citizens band base station antennas. The collection of information is in regulations implementing the Safety Standard for Omnidirectional Citizens Band Base Station Antennas (16 CFR Part 1204). These regulations establish testing and recordkeeping requirements for manufacturers and importers of antennas subject to the standard. The Commission will consider all comments received in response to this notice before requesting a reinstatement of approval of this collection of information from the Office of Management and Budget.

DATES: Written comments must be received by the Office of the Secretary not later than December 24, 1996.

ADDRESSES: Written comments should be captioned "Citizens Band Base Station Antennas" and mailed to the Office of the Secretary, Consumer Product Safety Commission, Washington, D.C. 20207, or delivered to that office, room 502, 4330 East West Highway, Bethesda, Maryland.

FOR FURTHER INFORMATION CONTACT: For information about the proposed reinstatement of approval of the collection of information, or to obtain a copy of 16 CFR Part 1204, call or write Carl Blechschmidt, Action Director, Office of Planning and Evaluation, Consumer Product Safety Commission, Washington, DC 20207; telephone (301) 504-0416, extension 2243.

SUPPLEMENTARY INFORMATION:

A. Background

In 1982, the Commission issued the Safety Standard for Omnidirectional

Citizens Band Antennas (16 CFR Part 1204) to reduce risks of death and serious injury that may result if an omnidirectional antenna contacts an overhead power line while being erected or removed from its site. The standard contains performance tests to demonstrate that an antenna will not transmit a harmful electric current if it contacts an electric power line with a voltage of 14,500 volts phase-to-ground. Certification regulations implementing the standard require manufacturers, importers, and private labelers of antennas subject to the standard to perform tests to demonstrate that those products meet the requirements of the standard, and to maintain records of those tests. The certification regulations are codified at 16 CFR Part 1204, Subpart B.

The Commission uses the information compiled and maintained by manufacturers, importers, and private labelers of antennas subject to the standard to help protect the public from risks of injury or death associated with omnidirectional citizens band base station antennas. More specifically, this information helps the Commission determine that antennas subject to the standard comply with all applicable requirements. The Commission also uses this information to obtain corrective actions if omnidirectional citizens band base station antennas fail to comply with the standard in a manner which creates a substantial risk of injury to the public.

The Office of Management and Budget (OMB) approved the collection of information in the certification regulations under control number 3041-0006. OMB's most recent extension of approval expired on August 18, 1985. The Commission now proposes to request a reinstatement of approval without change for the collection of information in the certification regulations.

B. Estimated Burden

The Commission staff estimates that about 7 firms manufacture or import citizens band base station antennas subject to the standard. The Commission staff estimates that the certification regulations will impose an average annual burden of about 220 hours on each of those firms. That burden will result from conducting the testing required by the regulations and maintaining records of the results of that testing. The total annual burden imposed by the regulations on manufacturers and importers of citizens band base station antennas is approximately 1,540 hours.

The hourly wage for the testing and recordkeeping required to conduct the testing and maintain records required by the regulations is about \$55, for an estimated annual cost to the industry of \$84,700.

The Commission will expend approximately one week of professional staff time each year reviewing and evaluating the records maintained by manufacturers and importers of citizens band base station antennas. The annual cost to the Federal government of the collection of information in these regulations is estimated to be \$1,400.

C. Request for Comments

The Commission solicits written comments from all interested persons about the proposed extension of approval of the collection of information in the certification regulations implementing the Safety Standard for Omnidirectional Citizens Band Base Station Antennas. The Commission specifically solicits information about the hourly burden and monetary costs imposed by the collection of information on firms subject to this collection of information. The Commission also seeks information relevant to the following topics:

- Whether the collection of information is necessary for the proper performance of the Commission's functions;
- Whether the information will have practical utility for the Commission;
- Whether the quality, utility, and clarity of the information to be collected could be enhanced; and
- Whether the burden imposed by the collection of information could be minimized by use of automated, electronic or other technological collection techniques, or other form of information technology.

Dated: October 17, 1996.

Sadye E. Dunn,

Secretary, Consumer Product Safety Commission.

BILLING CODE 6355-01-P

Submission for OMB Review; Comment Request—Safety Standard for Automatic Residential Garage Door Operators

AGENCY: Consumer Product Safety Commission.

ACTION: Notice.

SUMMARY: In the Federal Register of February 12, 1996 (61 FR 5537), the Consumer Product Safety Commission published a notice in accordance with provisions of the Paperwork Reduction

Act of 1995 (44 U.S.C. Chapter 35) to announce the agency's intention to seek approval of the collection of information in the Safety Standard for Automatic Residential Garage Door Operators (16 CFR Part 1211). By publication of this notice, the Commission announces that it has submitted to the Office of Management and Budget a request for approval of that collection of information without change through December 31, 1999.

The Consumer Product Safety Improvement Act of 1990 (Pub. L. 101-608, 104 Stat. 3110) contains provisions requiring that all automatic residential garage door openers manufactured after January 1, 1993, must comply with the entrapment protection requirements of UL Standard 325 that were in effect on January 1, 1992. In 1992, the Commission codified the entrapment protection provisions of UL Standard 325 in effect on January 1, 1992, as the Safety Standard for Automatic Residential Garage Door Operators, 16 CFR Part 1211, Subpart A. Certification regulations implementing the standard require manufacturers, importers and private labelers of garage door openers subject to the standard to test their products for compliance with the standard, and to maintain records of that testing. Those regulations are codified at 16 CFR Part 1211, Subparts B and C.

The Commission uses the records of testing and other information required by the certification regulations to determine that automatic residential garage door openers subject to the standard comply with its requirements. The Commission also uses this information to obtain corrective actions if garage door openers fail to comply with the standard in a manner which creates a substantial risk of injury to the public.

Additional Information About the Request for Approval of a Collection of Information

Agency address: Consumer Product Safety Commission, Washington, DC 20207.

Title of information collection: Safety Standard for Automatic Residential Garage Door Operators, 16 CFR Part 1211.

Type of request: Approval of a collection of information.

General description of respondents: Manufacturers, importers, and private labelers of automatic residential garage door openers.

Estimated number of respondents: 14.
Estimated average cost of testing and recordkeeping per respondent: \$1,200 per year.
