BILLING CODE 4510-30-M

**[NAFTA—00633]**

**General Electric Company, GE Transportation Systems—Erie, Erie, Pennsylvania; Notice of Revised Determination on Reconsideration**

On November 21, 1995, the Department issued a Negative Determination Regarding Eligibility to Apply for NAFTA-Transitional Adjustment Assistance, applicable to all workers of General Electric Company, GE Transportation Systems located in Erie, Pennsylvania. The denial notice was published in the Federal Register on December 1, 1995 (60 FR 61711).

The initial investigation resulted in a negative determination because criteria (3) and (4) of the Eligibility Requirements of Section 250 of the Trade Act, as amended, were not met for workers at the subject firm. There was no shift in production from General Electric Company of locomotives or locomotive parts from Mexico or Canada, nor did the subject firm import these products from Mexico or Canada.

Based on new information received from counsel for the petitioners, the department, on its own motion,

reviewed the findings of the investigation. The petitioning workers were engaged in the production of locomotives and locomotive parts. New findings show that beginning in July 1995, the production of motor coils was shifted from the subject firm's Erie, Pennsylvania production facility to Mexico.

**Conclusion**

After careful review of the additional facts obtained on reopening, I conclude that there was a shift in production from the workers' firm to Mexico of articles that are like or directly competitive with those produced by the subject firm. In accordance with the provisions of the Act, I make the following revised determination:

"All workers of General Electric Company, GE Transportation Systems, Erie, Pennsylvania, engaged in the production of motor coils who became totally or partially separated from employment on or after October 2, 1994, are eligible to apply for NAFTA-TAA under Section 250 of the Trade Act of 1974."

Signed at Washington, DC, this 31st day of October 1996.

Russell T. Kile,

*Program Manager, Policy and Reemployment Services, Office of Trade Adjustment Assistance.*

BILLING CODE 4510-30-M

**Investigations Regarding Certifications of Eligibility To Apply for NAFTA Transitional Adjustment Assistance**

Petitions for transitional adjustment assistance under the North American Free Trade Agreement-Transitional Adjustment Assistance Implementation Act (P.L. 103-182), hereinafter called (NAFTA-TAA), have been filed with State Governors under Section 250(b)(1) of Subchapter D, Chapter 2, Title II, of the Trade Act of 1974, as amended, are

identified in the Appendix to this Notice. Upon notice from a Governor that a NAFTA-TAA petition has been received, the Program Manager of the Office of Trade Adjustment Assistance (OTAA), Employment and Training Administration (ETA), Department of Labor (DOL), announces the filing of the petition and takes actions pursuant to paragraphs (c) and (e) of Section 250 of the Trade Act.

The purpose of the Governor's actions and the Labor Department's investigations are to determine whether the workers separated from employment after December 8, 1993 (date of enactment of P.L. 103-182) are eligible to apply for NAFTA-TAA under Subchapter D of the Trade Act because of increased imports from or the shift in production to Mexico or Canada.

The petitioners or any other persons showing a substantial interest in the subject matter of the investigations may request a public hearing with the Program Manager of OTAA at the U.S. Department of Labor (DOL) in Washington, D.C. provided such request is filed in writing with the Program Manager of OTAA not later than November 25, 1996.

Also, interested persons are invited to submit written comments regarding the subject matter of the petitions to the Program Manager of OTAA at the address shown below not later than November 25, 1996.

Petitions filed with the Governors are available for inspection at the Office of the Program Manager, OTAA, ETA, DOL, Room C-4318, 200 Constitution Avenue, N.W., Washington, D.C. 20210.

Signed at Washington, D.C. this 5th day of November, 1996.

Russell Kile,

*Program Manager, Policy & Reemployment Services, Office of Trade Adjustment Assistance.*

### Occupational Safety and Health Administration

#### National Advisory Committee on Occupational Safety and Health; Notice of Meetings

Notice is hereby given of the dates and locations of the next two meetings of the National Advisory Committee on Occupational Safety and Health (NACOSH), established under section 7(a) of the Occupational Safety and Health Act of 1970 (29 U.S.C. 656) to advise the Secretary of Labor and the Secretary of Health and Human Services on matters relating to the administration of the Act. NACOSH will hold meetings on December 10-11, 1996, in Room

S4215 A-C, and January 15-16, 1997, in Room N3437 A-D of the Department of Labor Building located at 200 Constitution Avenue NW, Washington, DC. Both meetings are open to the public and will begin at 9:00 a.m. each day lasting until approximately 4:00 p.m. the first day and 3:00 p.m. the second day of each meeting.

Agenda items for December 10 will include: a brief overview of current activities in the Occupational Safety and Health Administration (OSHA) and the National Institute for Occupational Safety and Health (NIOSH); a description of a NIOSH Cooperative Research Agreement on hearing loss prevention; a regulatory update; and a discussion of the Government Performance and Results Act (GIPRA) in relation to OSHA as well as performance measurement and program evaluation within OSHA. On December

11 there will be a panel presentation on ergonomics including an update on the planned conference; enforcement activities; the development of a regulation; OSHA's ergonomics capability; and NIOSH research relating to ergonomics. The remainder of the day will be devoted to planning future NACOSH meetings and activities.

The January 15-16 meeting will be devoted to the subject of developing performance measurements and evaluating programs in addition to the regular updates on OSHA and NIOSH activities. Several panels will be formed to discuss the indicators and measures OSHA might use, as well as the data and mechanisms that would be needed for such measurement. The committee is interested in exploring what other organizations and groups are doing in terms of measuring performance and evaluating safety programs,
