Public Land Order No. 7223; Partial Revocation of Secretarial Order Dated September 21, 1925; California

AGENCY: Bureau of Land Management, Interior.

ACTION: Public Land Order.

SUMMARY: This order revokes a Secretarial order insofar as it affects 10,969.97 acres of National Forest System lands withdrawn for Power Site Classification No. 115. The lands are no longer needed for power site purposes. The revocation is needed to permit disposal of the lands through a pending land exchange under the General Exchange Act of 1922 and to process pending applications under the Small Tracts Act. Some of the lands are either located within or adjacent to the Trinity River Wild and Scenic Area and have no waterpower or water storage value with the Wild and Scenic designation along the river. This action will open the lands to surface entry unless closed by overlapping withdrawals or temporary segregations of record. The lands have been and will remain open to mineral leasing and to mining, except for the lands that are closed because they are located within the Trinity River Wild and Scenic River Area. The Federal Energy Regulatory Commission has concurred with this action.

EFFECTIVE DATE: December 23, 1996.
