**Oakloom Clothes, Incorporated  
Baltimore, Maryland; Notice of  
Negative Determination Regarding  
Application for Reconsideration**

By an application dated October 7, 1996, a petitioner requested administrative reconsideration of the subject petition for trade adjustment assistance (TAA). The denial notice was signed on October 1, 1996 and published in the Federal Register on October 16, 1996 (61 FR 53937).

The initial investigation findings showed that the workers produced men's tailored clothing, suits, coats and sportcoats. The Department's denial was based on the fact that all of the production workers were separated from the subject firm more than one year prior to the date of the petition and that the "contributed importantly" test of the Group Eligibility Requirements of the Trade Act was not met. In a follow-up conversation the petitioner, a former company official, indicated that the petition was filed only by managers who were laid off due to the fact that the company was sold. Managers were laid off by the new company and none of the production workers at the new company were affected.

Based on company official information the investigation revealed that criterion (1,2&3) of Section 223 of the Trade Act has not been met.

**Conclusion**

After reconsideration, I affirm the original notice of negative determination of eligibility to apply for adjustment assistance under Section 223 of the Trade Act to workers and former workers of Oakloom Clothes, Incorporated, Baltimore, Maryland.

Signed at Washington, D.C., this 4th day of November 1996.
