

promptly disburse monies to the States and Indians. Accuracy of royalty collections and disbursements could not be assured without the PIF data.

Approximately 400 active solid minerals payors will submit an estimated 150 initial and updated PIF's annually. MMS estimates that it will take approximately 75 burden hours to complete these PIF's, or an average of 1/2 hour per PIF. MMS further estimates that it will take approximately 200 burden hours for all payors to perform the necessary recordkeeping directly related to the PIF, or an average of 1/2 hour per payor. Therefore, the total burden hours for this information collection is estimated to be 275 burden hours annually. At an estimated cost of \$25 per burden hour, the total estimated annual cost to respondents is \$6,875.
