**Columbia Gas Transmission
Corporation; Notice of Proposed
Changes in FERC Gas Tariff**

February 13, 1996.

Take notice that on February 8, 1996, Columbia Gas Transmission Corporation (Columbia) tendered the filing as part of its FERC Gas Tariff, Second Revised Volume No. 1, the following tariff sheets to become effective April 1, 1996.

Original Sheet No. 99C

Original Sheet No. 99D

Columbia states that the instant filing is being submitted pursuant to Article VII, Section C, Accrued-But-Not-Paid Gas Costs, of the "Customer Settlement" in Docket No. GP94-2, et al., approved by the Commission on June 15, 1995 (71 FERC ¶ 61,337 (1995)). The Customer

Settlement became effective on November 28, 1995, when the Bankruptcy Court's November 1, 1995, order approving Columbia's Plan of Reorganization became final. Under the terms of Article VII, Section C, Columbia is entitled to recover amounts for Accrued-But-Not-Paid Gas Costs. As directed by Article VII, Section C, the tariff sheets contained herein are being filed in accordance with Section 39 of the General Terms and Conditions of the Tariff, to direct bill the Accrued-But-Not-Paid Gas Costs that have been paid subsequent to November 28, 1995. The instant filing reflects Accrued-But-Not-Paid Gas Costs in the amount of \$733,050.73 plus applicable FERC interest of \$20,646.94. This is Columbia's first filing pursuant to Article VII, Section C, and Columbia reserves the right to make the appropriate additional filings pursuant to that provision. The allocation factors on Appendix F of the Customer Settlement were used as prescribed by Article VII, Section C.

Any person desiring to be heard or to protest this filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street NE, Washington, D.C. 20426, in accordance with Sections 385.214 and 385.211 of the Commission's Rules and Regulations. All such motions or protests must be filed as provided in Section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.

**Columbia Gas Transmission
Corporation; Notice of Request Under
Blanket Authorization**

February 13, 1996.

Take notice that on February 7, 1996, Columbia Gas Transmission Corporation (Columbia), 1700 MacCorkle Avenue, SE., Charleston, West Virginia 25314-1599, filed in Docket No. CP96-176-000, a request pursuant to Sections 157.205 and 157.211 (18 CFR 157.205 and 157.211) of the Commission's Regulations under the Natural Gas Act, and Columbia's authorization in Docket

No. CP83-76-000,¹ to establish an additional point of delivery to Pennzoil Products Company (Pennzoil), all as more fully set forth in the request which is on file with the Commission and open to public inspection.

Columbia requests authorization to construct and operate an additional point of delivery to Pennzoil in Kanawha County, West Virginia. Columbia would construct and operate the additional point of delivery for interruptible transportation service and will provide the service pursuant to Part 284 of the Commission's Regulations and Columbia's Blanket Certificate issued in Docket No. CP86-240-000² under existing authorized rate schedules and within Columbia's certificated entitlement.

Columbia states that the additional point of delivery has been requested by Pennzoil for residential, commercial and industrial use. The quantities to be provided through the additional point of delivery will be provided on an interruptible basis and, therefore no impact on Columbia's existing design day and annual obligations to its customers as a result of the construction and operation of this delivery point is expected.

Columbia states that the estimated cost of the proposed new delivery point is \$11,452. It is stated that Pennzoil has agreed to reimburse Columbia for the total costs to install the additional delivery point.

Columbia states that the estimated daily and annual volumes of natural gas to be delivered would be 50 Dth and 18,250 Dth, respectively. Columbia also states that the gas volumes would be transported and delivered under its Rate Schedule ITS and would be accomplished without disadvantage to Columbia's other customers.
