

Louisiana compression station at an increased level of horsepower, all as more fully set forth in the application on file with the Commission and open to public inspection.

Specifically, Trunkline proposes to construct, install, own, and operate a compressor station to be located adjacent to Trunkline's T-25 platform in Ship Shoal Block 139, Offshore Louisiana, consisting of an offshore platform, 3 compressor units, each nominally sized at 9,650 horsepower and related facilities and to operate its Patterson, Louisiana Compressor Station at an increased level of horsepower from its currently certificated level.

Trunkline states that the proposed facilities are necessary to receive and transport through its system up to 500,000 Mcf per of gas which is currently being developed in the overlapping production areas of Ewing Bank, Eugene Island, South Timbalier, Ship Shoal, South Pelto, Grand Isle and Green Canyon, Offshore Louisiana.

Trunkline states that the total cost of the proposed facilities is estimated to be \$52,217,940 and will be financed from funds on hand. Additionally, Trunkline states that it is not requesting that the cost of the proposed facilities be subject to a determination of rolled-in pricing and therefore, to the extent necessary, requests waiver of the policy statement in Docket No. PL94-4-000.

Any person desiring to be heard or to make any protest with reference to said application should on or before December 24, 1996, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulation Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if

the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Trunkline to appear or be represented at the hearing.

Lois D. Cashell,

Secretary.
