

**ACTION:** Request for public comment on proposed collections of information.

**SUMMARY:** This notice solicits public comments on continuation of the requirement for the motor vehicle glazing manufacturer numbers.

Before a Federal agency can collect certain information from the public, it must receive approval from the Office of Management and Budget (OMB). Under new procedures established by the Paperwork Reduction Act of 1995, before seeking OMB approval, Federal agencies must solicit public comment on proposed collections of information, including extensions and reinstatements of previously approved collections.

This document describes the collection of the identity of new motor vehicle glazing manufacturers and the assignment of a unique identification number to each prime glazing manufacturer, for which NHTSA intends to seek OMB approval.

**DATES:** Comments must be received on or before February 11, 1997.

**ADDRESSES:** Comments must refer to the docket and notice numbers cited at the beginning of this notice and be submitted to Docket Section, Room 5109, NHTSA, 400 Seventh St. S.W., Washington, D.C. 20590. Please identify the proposed collection of information for which a comment is provided, by referencing its OMB Clearance Number. It is requested, but not required, that 1 original plus 2 copies of the comments be provided. The Docket Section is open on weekdays from 9:30 a.m. to 4:00 p.m.

**FOR FURTHER INFORMATION CONTACT:** Complete copies of each NHTSA request for collection of information approval may be obtained at no charge from Mr. Ed Kosek, NHTSA Information Collection Clearance Officer, NHTSA, 400 Seventh Street, S.W., Room 6123, Washington, D.C. 20590. Mr. Kosek's telephone number is (202) 366-2589. Please identify the relevant collection of information by referring to its OMB Clearance Number.

**SUPPLEMENTARY INFORMATION:** Under the Paperwork Reduction Act of 1995, before an agency submits a proposed collection of information to OMB for approval, it must publish a document in the Federal Register providing a 60-day comment period and otherwise consult with members of the public and affected agencies concerning each proposed collection of information. The OMB has promulgated regulations describing what must be included in such a document. Under OMB's regulations (at 5 CFR 1320.8(d)), an agency must ask for public comment on the following:

(i) whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(ii) the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii) how to enhance the quality, utility, and clarity of the information to be collected; and

(iv) how to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

In compliance with these requirements, NHTSA asks public comment on the following proposed collections of information:

Assigning Code Numbers to Glazing Manufacturers

FMVSS 205 Section 6, Certification and Markings

*Type of Request*—Extension of a currently approved collection.

*OMB Clearance Number*—2127-0038.

*Form Number*—This collection of information uses no standard form.

*Requested Expiration Date of Approval*—Three years from the approval date.

*Summary of the Collection of Information*—NHTSA requires each new motor vehicle glazing manufacturer to request and be assigned a unique mark or number. This number is then used by the manufacturer as their unique company identification on their self-certification label on each piece of motor vehicle glazing.

*Description of the need for the information and proposed use of the information*—In order to ensure glazing and motor vehicle manufacturers are complying with Federal Motor Vehicle Safety Standard Number 205, "Glazing Materials," NHTSA requires a certification label on each piece of glazing. As part of that certification label, the company must identify itself with the simple two or three digit number assigned by the agency. Failure to clearly identify the manufacturer would make the certification label and therefore the safety standard compliance unenforceable.

*Description of the Likely Respondents (Including Estimated Number, and Proposed Frequency of Response to the Collection of Information)*—NHTSA anticipates that approximately 21 new

prime glazing manufacturers per year will contact the agency and request a manufacturer identification number. These new glazing manufacturers must submit one letter, one time, identifying their company. In turn, the agency responds by assigning them a unique manufacturer number.

*Estimate of the Total Annual Reporting and Record keeping Burden Resulting from the Collection of Information*—NHTSA estimates that each manufacturer will need one-half hour to prepare a letter at a cost of \$20.00 per hour. Thus, the number of estimated reporting burden hours a year on manufacturers 10.5 hours, at a total cost of \$210.

Authority: 44 U.S.C. 3506(c); delegation of authority at 49 CFR 1.50.

Dated: August 30, 1996.

Acting Associate Administrator for Safety Performance Standards.
