

Underground Injection Control ("UIC") regulations, 40 CFR § 144.28 *et seq.* The United States alleged that Reserve Energy, Ltd. and Western Crude Reserves, Inc. once owned and operated respectively, 113 underground injection wells in the Irvine, Garrett and South Fork units in the Irvin-Furnace field in Powell and Estill Counties, Kentucky. Reserve Energy, Ltd. is a limited partnership. Western Crude Reserves, Inc. is the corporate general partner of Reserve Energy. Under the AOC, Trinity will provide \$50,000 in financial assurance and will plug or case and cement the injection wells over the course of three years. Under this settlement, EPA will obtain the injunctive relief it seeks to bring the field into compliance, plus a total of \$125,000 in financial assurance, in case Trinity does not fulfill its obligations.

The Department of Justice will receive, for a period of thirty (30) days from the date of this publication, comments relating to the proposed consent decree.
