Bureau of Land Management

[OR–015–96–1020–00: G7–0034]

AGENCY: Bureau of Land Management (BLM), DOI.

ACTION: Notice of Intent to prepare an Environmental Impact Statement (EIS) for a Proposed Allotment Management Plan (AMP).

SUMMARY: The Lakeview District is initiating the EIS process to analyze the

potential environmental impacts of a proposed AMP for the Beaty Butte Allotment (0600) in Lake and Harney Counties, Oregon. The proposed plan covers livestock grazing management activities on approximately 400,000 acres of public lands administered by the BLM and is being developed in conformance with the Warner Lakes Management Framework Plan. This notice is being given so interested or affected people may participate and contribute to the final decision.

DATES: This notice announces the continuation of the public scoping comment period on the proposal. Interested individuals, organizations, and other agencies are encouraged to provide written comments on or before January 21, 1997 to the address below.

ADDRESSES: Scott Florence, Area Manager, Lakeview Resource Area, BLM, PO Box 151, Lakeview, OR 97630.

FOR FURTHER INFORMATION CONTACT:

Richard W. Mayberry, Project Coordinator, at address above, or telephone (503-947-2177).

SUPPLEMENTARY INFORMATION: The BLM initiated the environmental analysis process for the proposed AMP on June 2, 1995 by sending a Proposed Action Statement/scoping letter to affected interests and interested publics for comment. Since that date, the BLM has conducted a number of public meetings and began developing a draft AMP and Environmental Assessment. However, the BLM has decided that an EIS is more appropriate. The issues identified since June 1995 include potential impacts to wildlife, wild horses, visual quality, native plants, noxious weeds, wilderness study areas, riparian areas, and traditional economic uses. Those individuals, organizations, and agencies with a known interest in the proposal were sent a scoping letter requesting comments on the proposal. Persons wishing to be added to the mailing list for this EIS may do so by contacting Richard Mayberry at the address above. Comments will be received through the next 30 days for consideration in the EIS. All previously submitted comments will be considered in the EIS and need not be resubmitted.

The draft EIS is expected to be available for review in January 1997 and will have a 60-day comment period starting on the date the U.S. EPA Notice of Availability appears in the Federal Register. Because of recent court rulings, it is very important that those interested in the proposed action participate during appropriate comment opportunities, so that any substantive comments are provided at a time when

the BLM can meaningfully consider them.

Scott R. Florence,

Area Manager.
