RIN 0694-AB54

Revisions to the Export Administration Regulations: Computer Revisions

AGENCY: Bureau of Export Administration, Commerce.

ACTION: Final rule.

SUMMARY: On March 25, 1996, the Bureau of Export Administration (BXA) published an interim rule (61 FR 12714) that restructured and reorganized the Export Administration Regulations

(EAR). The interim rule clarified the language of the EAR and simplified the application and made the export control regulatory regime more user friendly. This rule amends the EAR by making certain revisions and clarifications and in some cases, inserts material inadvertently omitted from the March 25 interim rule for the export and reexport of computers as described in the Commerce Control List and described by License Exception CTP. Among other revisions, this rule provides that "No License Required" (NLR) is available for the export and reexport of digital computers (other than those controlled for MT reasons) with a CTP of 2,000 Mtops or less, except to embargoed or terrorist-supporting destinations.

Although the Export Administration Act (EAA) expired on August 20, 1994, the President invoked the International Emergency Economic Powers Act and continued in effect, to the extent permitted by law, the provisions of the EAA and the EAR in Executive Order 12924 of August 19, 1994, as extended by the President's notice of August 15, 1995 (60 FR 42767), and notice of August 14, 1996 (61 FR 42527).

EFFECTIVE DATE: This rule is effective December 23, 1996.

FOR FURTHER INFORMATION CONTACT: Patricia Muldonian, Office of Exporter Services, Bureau of Export Administration, Telephone: (202) 482-2440.

SUPPLEMENTARY INFORMATION:

Background

Specifically, this rule revises the computer provisions of the EAR, consistent with the Presidential Directive of October 6, 1995, as follows:

1. By revising § 740.7(a), scope of License Exception CTP, to limit the scope of this License Exception to apply to digital computers controlled by a CTP parameter, specially designed components therefor and related equipment therefor.

2. By revising § 740.7(e)(2), restrictions, to apply only to digital computers and specially designed components therefor.

3. By revising § 770.2, to add an interpretation for computers, to clarify that:

a. Digital computers or computer systems classified under paragraphs (a), (b), or (c) of ECCN 4A003, that qualify for "No License Required" (NLR) must be evaluated on the basis of CTP alone, to the exclusion of all other technical parameters. Digital computers or computer systems classified under paragraphs (a), (b), or (c) of ECCN 4A003

that qualify for License Exception CTP must be evaluated on the basis of CTP, to the exclusion of all other technical parameters, except for parameters of Missile Technology concern, or for paragraph (e) of ECCN 4A003 (equipment performing analog-to-digital conversions exceeding the limits in paragraph (a.5.a) of ECCN 3A001); and

b. Related equipment classified under paragraphs (d), (e), (f), or (g) of ECCN 4A003 may be exported or reexported under License Exceptions GBS or CIV. When related equipment is exported or reexported as part of a computer system, License Exception CTP is available for the computer system including the related equipment.

4. In Export Control Classification Number (ECCN) 4A001, by revising the control language for nuclear nonproliferation (NP) and computer (XP) controls to specify that these controls apply to electronic computers with a CTP greater than 2,000 Mtops.

5. In Export Control Classification Number (ECCN) 4A002, by revising the control language for nuclear nonproliferation (NP) and computer (XP) controls to specify that these controls apply to hybrid computers with a CTP greater than 2,000 Mtops.

6. By revising Export Control Classification Number (ECCN) 4A003, as follows:

a. By creating a "Note" in the License Requirements section that specifies that "No License Required" (NLR) applies to the export or reexport of digital computers with a CTP between 260 and 2,000 Mtops, except to embargoed or terrorist-supporting destinations and computers controlled for MT reasons.

b. By revising the control language for national security controls to specify that NS Column 1 applies to paragraphs (b) and (c) and NS Column 2 applies to paragraphs (a), (d), (e), (f), and (g).

c. By revising the control language for nuclear nonproliferation (NP) and computer (XP) controls to specify that these controls apply to digital computers with a CTP greater than 2,000 Mtops.

d. By revising License Exception GBS to clarify that related equipment described in paragraphs (d), (e), (f), and (g) are eligible for License Exception GBS.

e. By revising License Exception CTP to clarify that this License Exception is available for computers controlled by paragraphs (a), (b), and (c), to the exclusion of other technical parameters, with the exception of the parameters specified as controlled for Missile Technology (MT) concerns or paragraph (e) (equipment performing analog-to-
