

60.143(c) and 60.143a (d) and (e)) for monitoring results (i.e., pressure loss through the venturi constriction of the scrubber and water supply pressure to the scrubber) which average more than ten percent below performance test results provides a good indication of a source's compliance status. Industry are required to maintain records at the facility for a minimum of two (2) years.

An owner or operator could elect to reduce operating expenses by not installing, maintaining, or otherwise operating the control technology required by the standards. In the absence of the information collection requirements, compliance with the standards could be ensured only through continuous on-site inspections by regulatory agency personnel. Consequently, not collecting the information would result in either greatly increased expenditures of resources, or the inability to ensure compliance with the standards.

The information collected from recordkeeping and reporting requirements is also used for targetting inspections, and is of sufficient quality to be used as evidence in court. The enforcement personnel may elect to conduct an inspection to ensure that the equipment is properly installed and operated, as was indicated in the performance test report. They may also conduct periodic inspections to obtain additional data, as a check for source operation and maintenance and for compliance determinations.

All reports are sent to the delegated State or local level authority. In the event that there is no such delegated authority, the reports are sent directly to the EPA Regional Office.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR Part 9 and 48 CFR Chapter 15. The Federal Register Notice required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on September 29, 1995.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 95.35 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying

information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: 24.
Estimated Number of Respondents: 24.
Estimated Number of Responses: 31.2.
Frequency of Response: semiannual.
Estimated Total Annual Hour Burden: 2,974.8 hours.
Estimated Total Annualized Cost Burden: \$90,582.66.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the following addresses. Please refer to EPA ICR No. 1069.05 and OMB Control No. 2060-0029 in any correspondence.

Ms. Sandy Farmer, U.S. Environmental Protection Agency, OPPE Regulatory Information Division (2136), 401 M Street, SW, Washington, DC 20460, and
Office of Information and Regulatory Affairs, Office of Management and Budget, Attention: Desk Officer for EPA, 725 17th Street, NW, Washington, DC 20503.

Dated: February 15, 1996.

Joseph Retzer,
Director, Regulatory Information Division.

Agency Information Collection Activities: Submission for OMB Review: Comment Request; Office of Water 301(h) Program

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this notice announces that the following Information Collection Request (ICR) renewal has been forwarded to the Office of Management and Budget (OMB) for review and approval: Modification of Secondary Treatment Requirements for Discharges into Marine Waters, OMB Control Number 2040-0088, expiring 02/29/96. The ICR describes the nature of the

information collection and its expected burden and cost; where appropriate, it includes the actual data collection instrument.

DATES: Comments must be submitted on or before March 25, 1996.

FOR FURTHER INFORMATION OR A COPY CALL:

Sandy Farmer at EPA, (202) 260-2740, and refer to EPA ICR No. 0138.05.

SUPPLEMENTARY INFORMATION:

Title: Modification of Secondary Treatment Requirements for Discharges into Marine Waters (OMB Control No. 2040-0088, EPA ICR No. 0138.05, expiring 02/29/96). This is a request for extension of a currently approved collection.

Abstract: Under section 301(h) of the Clean Water Act (CWA), publicly owned treatment works (POTWs) discharging pollutants into certain marine waters could apply for and be granted a waiver from secondary treatment requirements for conventional pollutants. The regulations implementing this program are found at 40 CFR Part 125, Subpart G. EPA issues this waiver with the concurrence of the State in which the POTW is located. The POTW must submit application, monitoring and toxic control program information. States provide State determination and certification information.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR Part 9 and 48 CFR Chapter 15. The Federal Register Notice required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on 10/24/95 (60 FR 54496); 2 comments were received.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 460 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources;

complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities:

Publicly owned treatment works (POTWs), States.

Estimated Number of Respondents: 63.

Frequency of Response: Variable.

Estimated Total Annual Hour Burden: 75,093 hours.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the following addresses. Please refer to EPA ICR No. 0138.05 and OMB Control Number 2040-0088 in any correspondence.

Ms. Sandy Farmer, U.S. Environmental Protection Agency, OPPE Regulatory Information Division (2136), 401 M Street, NW, Washington, DC 20460.

and

Office of Information and Regulatory Affairs, Office of Management and Budget, Attention: Desk Officer for EPA, 725 17th Street, NW, Washington, DC 20503.

Dated: February 15, 1996.

Joseph Retzer,

Director, Regulatory Information Division.

Agency Information Collection Activities Under OMB Review

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3507 (a)(1)(D)), this notice announces that the Information Collection Request (ICR) abstracted below has been forwarded to the Office of Management and Budget (OMB) for review and comment. The ICR describes the nature of the information collection and its expected cost and burden; where appropriate, it includes the actual data collection instrument.

DATES: Comments must be submitted on or before March 25, 1996.

FOR FURTHER INFORMATION OR A COPY CALL: Sandy Farmer at EPA, (202) 260-2740, and refer to EPA ICR No. 1614.02.

SUPPLEMENTARY INFORMATION:

Title: Reporting and Record Keeping Requirements under EPA's Green Lights Program, OMB# 2060-0255, ICR# 1614.02, expires March 31, 1996. This is

a request for a revision of a currently approved collection.

Abstract: Green Lights is a voluntary EPA program that encourages corporations, state and local governments, colleges and universities, and other organizations to adopt energy efficient lighting as a profitable means of preventing pollution and improving lighting quality. The program organization consists of three types of Green Lights participants: partners, allies, and endorsers. Green Light Partners agree to survey and upgrade lighting fixtures and procedures, if profitable. Allies work with EPA to increase awareness of energy-efficient lighting and provide information on products and services. Allies (except Surveyor Allies) also agree to survey and upgrade their lighting. Endorsers agree to encourage their members to promote the Green Lights goal of using lighting in the most energy-efficient, environmentally-protective way possible.

Partners and allies in the Green Lights program must complete, sign and submit to EPA a Memorandum of Understanding (MOU) that outlines the responsibilities of both the Green Lights participant and EPA. The MOU commits a Green Lights participant to survey all of its U.S. facilities and consider a full set of lighting options that maximize energy savings while being profitable and not compromising lighting quality. The participant agrees to complete lighting upgrades within five years of signing the MOU in 90 per cent of the square footage of its facilities that meet these criteria. In an effort to ensure that each new Green Lights participant gets off to a quick start, each new participant (particularly those over one million square feet) is asked to install a demonstration lighting upgrade, create a list of facilities to be surveyed/upgraded, create a survey, and develop an estimated upgrade budget. Upon completion of a lighting upgrade, or annually if the project is not completed after a year, partners and allies must complete and submit to EPA an implementation report that documents energy-efficient improvements and cost savings.

EPA has developed this ICR to obtain authorization to collect information from Green Lights participants. EPA needs to collect initial information in the MOU to formally establish participation in the Green Lights Program and to obtain general information on new Green Lights participants. EPA uses information obtained in the MOU to identify a Green Lights Implementation Manager and Media Liaison and to obtain data on the

size and type of buildings subject to the Green Lights agreement. By agreeing to participate in the Green Lights Program, the participant agrees to the terms of various information collections specified by EPA in the MOU.

EPA needs to collect information in the Implementation Report to evaluate a participant's progress and performance, and overall program results. The information provided in the Implementation Report also allows EPA to identify the fixture types, lighting controls, maintenance methods, and implementation methods most commonly utilized, and to provide technical and other assistance to participants in completing their planned upgrades. By agreeing to participate in the Green Lights Program, the participant agrees to complete and submit this form upon completion of a project, or annually if the project is not completed after a year.

EPA needs to collect information from allies on energy-efficient lighting products and services to develop a directory and provide program partners with this information. EPA needs to collect case studies on successful energy-efficient lighting investments to provide examples of profitable, energy-saving investments. EPA needs to review, prior to public distribution, any materials that carry the Green Lights logo or mention the program to ensure that the program is being represented in an appropriate manner.

EPA needs to collect information from organizations that provide financing products and services. This information will be used by EPA to develop a directory describing these financing services that are available to assist program participants in accomplishing their lighting upgrades. This information will be collected (via a questionnaire) and is strictly voluntary. An Agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR Part 9. The Federal Register Notice with a 60-day comment period soliciting comments on this collection of information was published on 10/05/95 (FR Oct. 5, 1995, Vol. 60, No. 193).

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information will vary. The estimated average hours per response varies depending upon whether the respondent is a Partner, Ally, Endorser, or financing company, and the length of time the respondent has participated in the Green Lights program. Although, new partners and
