Proposal to approve under OMB delegated authority the extension, with revision, of the following reports:

1. *Report title:* Weekly Report of Eurodollar Liabilities Held by Selected U.S. Addressees at Foreign Offices of U.S. Banks

Agency form number: FR 2050

OMB control number: 7100-0068

Frequency: Weekly

Reporters: Large foreign branches and banking subsidiaries of U.S. banks

Annual reporting hours: 2,860

Estimated average hours per response: 1.0

Number of respondents: 54 branches, 1 subsidiary

Small businesses are not affected.

General description of report: This information collection is voluntary (12 U.S.C. 248(a)(2), 353 et seq., 461, 602, and 625) and is given confidential treatment (5 U.S.C. 552(b)(4)).

Abstract: This report collects data on overnight and term Eurodollars held by certain U.S. residents in selected foreign branches and subsidiaries of U.S. commercial banks and Edge and agreement corporations. The data are used for the construction of the Eurodollar component of the monetary aggregates and for analysis of banks' liability management practices.

Under the proposed revisions the reporting threshold would be raised from a weekly average of \$200 million to \$350 million in Eurodollar liabilities. Additions and deletions to the reporting panel would be made only annually. The number of data items collected would be reduced from 4 to 2. As a result of the redefinition of the M2 monetary aggregate in February 1996, the overnight Eurodollar component of M2 was moved to the non-M2 component of M3, where the term component currently is included. Since the separation of the two nonnegotiable Eurodollar items (overnight and term) is no longer necessary, they would be combined into a single item, and the memorandum item would be dropped from the report.

The revised report would be implemented as of the reporting week ending Monday, March 31, 1997.

2. *Report title:* Quarterly Report of Assets and Liabilities of Large Foreign Offices of U.S. Banks

Agency form number: FR 2502q

OMB control number: 7100-0079

Frequency: Quarterly

Reporters: Large foreign branches and banking subsidiaries of U.S. banks

Annual reporting hours: 7,266

Estimated average hours per response: 3.5

Number of respondents: 483 branches, 36 subsidiaries

Small businesses are not affected.

General description of report: This information collection is mandatory (12 U.S.C. 248(a)(2), 353 et seq., 461, 602, and 625) and is given confidential treatment (5 U.S.C. 552(b)(4)).

Abstract: This report collects assets and liability information from foreign branches and subsidiaries of U.S. commercial banks and Edge and agreement corporations. A separate schedule collects information on Eurodollar liabilities payable to certain U.S. addressees. The data are used in the construction of the monetary aggregates and to monitor flows of funds between banks and their branches. The data also are combined with data from other sources to develop a profile of the total exposure of U.S. banks to individual countries. Together with data from the Department of the Treasury, the FR 2502q provides information that

the Bank for International Settlements compiles from all G-10 countries on international banking market developments. In addition, data from the FR 2502q are used by the Department of Commerce to estimate the capital accounts portions of the balance of payments.

Under the proposed revisions, the reporting threshold for branches would be raised from \$150 million to \$500 million in total assets. The number of data items collected on the Eurodollar schedule would be reduced from three to one, and updates and clarifications would be made to the reporting form and instructions.

The revised report would be implemented on the March 31, 1997, as of date.
