

Peggy Gaudy at the address above, or call 505-599-6300.

SUPPLEMENTARY INFORMATION: The proposed Cultural Areas of Critical Environmental Concern to be addressed in the Plan Amendment/EA include archaeological and historic sites of Anasazi, Navajo, and Euro-American culture. Currently identified sites include Chacoan outliers, segments of Chacoan roads, an Anasazi Pueblo I community, Navajo pueblitos, Navajo and Anasazi petroglyphs and pictographs, a Native American traditional use area, historic homesteads, and a historic school.

The issues anticipated to be addressed by this Plan Amendment/EA include safety, resource protection, and management.

The proposed planning criteria include:

1. All proposed actions and alternatives considered must comply with current laws and Federal Regulations.
2. The resource allocations of proposed actions will be made in accordance with the principles of "multiple use" as defined in the Federal Land Policy and Management Act of 1976 (FLPMA), Sec. 103(c).
3. The Proposed Plan Amendment/EA will consider the uniqueness of the non-renewable cultural resources located within the Farmington District and management needs to ensure long term protection and preservation of identified resources.
4. This planning process will provide for public involvement including early notice and frequent opportunity for citizens and interested groups and others to participate in and comment on the preparation of the Proposed Plan Amendment/EA and related guidance.

Dated: February 12, 1996.

Mike Pool,
District Manager.

Information Collection Submitted to the Office of Management and Budget for Review Under the Paperwork Reduction Act

The proposal for the collection of information listed below has been submitted to the Office of Management and Budget for approval under the provisions of the Paperwork Reduction Act of 1995. Copies of the proposed information collection requirement and related explanatory material may be obtained by contacting Dennis C. Jones

at 303-231-3046. Comments should be submitted to OMB within 30 days of publication of this notice and should be made directly to the Office of Information and Regulatory Affairs, Attention: Desk Officer for Department of the Interior, telephone (202) 395-7340.

Title: Net Profit Share Payments for Outer Continental Shelf Oil and Gas Leases, 30 CFR 220.

OMB Approval Number: 1010-0073

Abstract: Companies involved in the exploration and development of Outer Continental Shelf oil and gas leases under the Net Profit Share Lease (NPSL) system make net profit share payments rather than royalty payments. To encourage exploration and development of a lease, the NPSL system provides for a sharing, by the lessee and the Government, of the risk involved. The lessee is permitted to deduct allowable costs to determine net profit, and profit share payments are not due until the lease becomes profitable. Lessees are required to maintain an NPSL capital account and to provide annual reports listing costs incurred, credits received, and the balance in the account. Beginning the first month in which production revenues are credit to the capital account, lessees are required to prepare monthly reports showing volume and disposition of oil and gas production, production revenue, all costs and credits to the account, the balance in the account, and the net profit share payment due the Government.

Bureau Form Numbers: None.

Frequency: Annually or monthly.

Description of Respondents: Oil and gas companies.

Annual Responses: 222.

Annual Burden Hours: 3,576.

Bureau Clearance Officer: Arthur Quintana, (703) 787-1101.

Dated: January 16, 1996.

James W. Shaw,

Associate Director for Royalty Management.

BILLING CODE 4310-70-P

Notice of Inventory Completion of Native American Human Remains and Associated Funerary Objects in the Possession of the United States Army Corps of Engineers, Tulsa District, Tulsa, OK

AGENCY: National Park Service

ACTION: Notice

Notice is hereby given in accordance with provisions of the Native American Graves Protection and Repatriation Act (NAGPRA), 25 U.S.C. 3003(d), of the completion of an inventory of human remains and associated funerary objects in the possession of the U.S. Army Corps of Engineers, Tulsa District, Tulsa, OK.

A detailed inventory and assessment of the human remains and associated funerary objects has been made by Tulsa District professional staff in consultation with the Wichita and Affiliated Tribes, the Comanche Tribe of Oklahoma, the Kiowa Tribe of Oklahoma, and the Apache Tribe of Oklahoma.

In June 1988, these human remains were exposed by shoreline erosion at site 34ST2, Waurika Lake and were subsequently removed from the ground by the Stephens County Sheriff's Department. In September 1988, U.S. Army Corps of Engineers personnel removed the partial remains of one individual from the same site. At this time, the Stephens County Sheriff's

Department turned over the human remains recovered in June to the Army Corps of Engineers.

The human remains from site 34ST2 consist of a minimum of three individuals. No known individuals were identified. A total of twenty-eight cultural items were found with the human remains, including grinding stones, pottery fragments, stone tools, and animal bone fragments (bison and deer).

Site 34ST2 has been estimated to date to 500–1500 AD based on diagnostic cultural items including pottery fragments, stone tools, and chipped stone debris discovered adjacent to the burials. The continuity and styles of pottery types and stone tools strongly indicate occupation by the same cultural group throughout this period. These pottery and tool types are consistent with styles used by the Wichita and Affiliated Tribes during the early contact period. Oral history evidence presented by representatives of the Wichita and Affiliated Tribes as well as continued post-contact use and occupancy indicates this area to be well within the traditional use and occupancy area of the Wichita and Affiliated Tribes.

Based on the above mentioned information, officials of the U.S. Army Corps of Engineers, Tulsa District have determined, pursuant to 43 CFR 10 (d)(1), the human remains listed above represent the physical remains of at least three individuals of Native American ancestry. Officials of the U.S. Army Corps of Engineers have also determined that, pursuant to 25 U.S.C. 3001(A) and (B), the objects listed above are reasonably believed to have been placed with or near individual human remains at the time of death or later as part of the death rite or ceremony. Lastly, officials of the U.S. Army Corps of Engineers have determined that, pursuant to 25 U.S.C. 3001 (2), there is a relationship of shared group identity which can be reasonably traced between the human remains and associated funerary objects and the Wichita and Affiliated Tribes of Oklahoma.

This notice has been sent to officials of the Wichita and Affiliated Tribes, the Comanche Tribe of Oklahoma, the Kiowa Tribe of Oklahoma, the Apache Tribe of Oklahoma, and the Caddo Tribe of Oklahoma. Representatives of any other Indian tribe which believes itself to be culturally affiliated with these human remains and associated funerary objects should contact Mr. Robert W. Jobson, NAGPRA Coordinator, Planning Division, USACE, Tulsa District, P.O. Box 61, Tulsa, OK 74121-0061, phone (918) 669-7193 before March 28, 1996.
