Office of Energy

7 CFR Part 2902

Organization and Functions

AGENCY: Office of Energy, USDA.

ACTION: Final rule.

SUMMARY: This document removes the regulations of the Office of Energy (OE) regarding organization and functions to reflect an internal reorganization of the Department of Agriculture (USDA).

EFFECTIVE DATE: March 12, 1996.

SUPPLEMENTARY INFORMATION: The Freedom of Information Act, 5 U.S.C. 552(a)(1), requires Federal agencies to publish in the Federal Register descriptions of its central and field organizations. Part 2902 of Title 7, Code of Federal Regulations, was issued in accordance with the regulations of the Secretary of Agriculture at 7 CFR 2.88, organization and functions. Pursuant to an internal reorganization of USDA, OE has been integrated into the Economic Research Service (ERS), USDA. This document removes 7 CFR Part 2902. Requests for information relating to OE may be obtained through the ERS Administrator pursuant to 7 CFR Part 3700.

This rule relates to internal agency management. Therefore, pursuant to 5 U.S.C. 553, notice of proposed rulemaking and opportunity for comment are not required, and this rule may be made effective less than 30 days after publication in the Federal Register. Further, since this rule relates to internal agency management, it is exempt from the provisions of Executive

Orders 12988 and 12866. Also, this rule will not cause a significant economic impact or other substantial effect on small entities. Therefore, the requirements of the Regulatory Flexibility Act, 5 U.S.C. 601 et seq., do not apply.

NUCLEAR REGULATORY COMMISSION

10 CFR Parts 19, 30, 51, 52, and 55

RIN 3150-AF42

Minor Correcting Amendments

AGENCY: Nuclear Regulatory Commission.

ACTION: Final rule.

SUMMARY: The Nuclear Regulatory Commission (NRC) is amending its regulations to correct several miscellaneous errors in the Code of Federal Regulations (CFR). This document is necessary to inform the public of these corrective changes to NRC regulations.

EFFECTIVE DATE: March 12, 1996.

FOR FURTHER INFORMATION CONTACT: Michael T. Lesar, Chief, Rules Review Section, Rules Review and Directives Branch, Division of Freedom of Information and Publications Services, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555, Telephone (301) 415-7163.

SUPPLEMENTARY INFORMATION:

Background

The Nuclear Regulatory Commission is amending the regulations in 10 CFR Parts 19, 30, 51, 52, and 55 to correct several miscellaneous errors in regulatory text. These changes in CFR

text occurred in the process of preparing and printing of rulemaking documents.

In particular, under § 30.72, Schedule C, the entry for C-14 only applies to non-carbon dioxide forms. This rule was first published in the Federal Register on April 7, 1989 (54 FR 14051) and the explanatory note for C-14 in the table, as printed in the final rule, appears to read "non CO," rather than "non CO₂." In a subsequent reprinting of § 30.72 in the Code of Federal Regulations, this note was inadvertently omitted. This correction replaces the explanatory note for the C-14 entry in the table.

Because this is an amendment dealing with agency organization, practice, and procedure, the notice and comment provisions of the Administrative Procedure Act do not apply pursuant to 5 U.S.C. 553(b)(A). The amendment is effective upon publication in the Federal Register. Good cause exists to dispense with the usual 30-day delay in the effective date because the amendment is of a minor and administrative nature dealing with corrections to certain CFR sections.

Environmental Impact: Categorical Exclusion

The NRC has determined that this final rule is the type of action described in categorical exclusion 10 CFR 51.22(c)(2). Therefore, neither an environmental impact statement nor an environmental assessment has been prepared for this final rule.

Paperwork Reduction Act Statement

This final rule does not contain a new or amended information collection requirement subject to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.). Existing requirements were approved by the Office of Management and Budget, approval numbers 3150-0044, -0017, -0021, -0151, and -0018.

Federal Aviation Administration

14 CFR Part 71

[Airspace Docket No. 95–ANE–31]

Alteration of V–423

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This rule alters Federal Airway V–423 due to the decommissioning of the Uplands Nondirectional Beacon (NDB).

EFFECTIVE DATE: 0901 UTC, June 20, 1996.

FOR FURTHER INFORMATION CONTACT: Patricia P. Crawford, Airspace and Obstruction Evaluation Branch (ATP–240), Airspace-Rules and Aeronautical Information Division, Air Traffic Rules and Procedures Service, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, DC 20591; telephone: (202) 267–3075.

SUPPLEMENTARY INFORMATION:

The Rule

This amendment to part 71 of the Federal Aviation Regulations alters Federal Airway V–423 due to the decommissioning of the Uplands NDB located in Ottawa, Canada. Specifically, this action eliminates a segment of Federal Airway V–423 due to the decommissioning of that NDB. Because this action is a minor amendment in which the public would not be particularly interested, I find that notice and public procedure under 5 U.S.C. 553(b) are unnecessary. Domestic VOR Federal airways are published in paragraph 6010(a) of FAA Order 7400.9C dated August 17, 1995, and
