The revision adds to or modifies the requirements to include additional training of radiographers' assistants, leak tests of "S" tubes, and specifies records to be kept at various locations. The revision deletes the requirement for radiography licensees to submit a Quality Assurance program under 10 CFR Part 71. The revision requires the following additional information to be reported on NRC Form 313, Application for Materials License: locations and descriptions of all field stations and permanent radiographic installations, designation of a Radiation Safety Officer, and additional information on

training and testing. This information is reviewed by NRC to ensure that the safety of radiographers and the public is protected.
