## Rural Utilities Service

### Navajo Tribal Utility Authority; Finding of No Significant Impact

**AGENCY:** Rural Utilities Service, USDA.

**ACTION:** Notice of Finding of No Significant Impact.

**SUMMARY:** Notice is hereby given that the Rural Utilities Service (RUS) has made a Finding of No Significant Impact (FONSI) with respect to the potential environmental impact related to the construction, operation and maintenance of the Burnside Junction to Coalmine 115 kV Transmission Line Project proposed by the Navajo Tribal Utility Authority (NTUA) of Fort Defiance, Arizona.

RUS has concluded that the environmental impacts from the proposed project would not be significant and that the proposed action is not a major Federal action significantly affecting the quality of the human environment. Therefore, the preparation of an environmental impact statement is not required.

**FOR FURTHER INFORMATION CONTACT:** Dennis E. Rankin, Environmental Protection Specialist, RUS, Engineering and Environmental Staff, Stop 1571, 1400 Independence Avenue SW, Washington, DC 20250-1571, telephone (202) 720-1784.

**SUPPLEMENTARY INFORMATION:** The proposed 40-mile transmission line

would extend from the Coalmine Substation located near Tse Bonito, New Mexico (east of Window Rock, Arizona) to tap an existing 69 kV transmission line in the vicinity of Burnside Junction (located west of Ganado, Arizona). The transmission line will be designed and built for 115 kV operation, but will initially be operated at 69 kV. The primary structure type would be H-frame structures located on a 100-foot right-of-way.

The Bureau of Indian Affairs (BIA) and its environmental consultant prepared an environmental assessment report (EAR) reflecting the potential impacts of the proposed facilities. The BIA EAR, which includes input from Federal, State and local agencies and the public, has been adopted as RUS's Environmental Assessment (EA) for the project in accordance with 7 CFR 1794.61. RUS has concluded that the EA represents an accurate assessment of the environmental impacts of the project. The proposed project should have no impact on cultural resources, floodplains, wetlands, important farmland and federally listed or proposed for listing threatened or endangered species or their critical habitat.

Alternatives considered to the project included no action, localized generating facilities, wind and solar generation and alternative routes. RUS has considered these alternatives and concluded that the project as proposed meets the needs of NTUA to provide adequate service to the central section of the Navajo Nation.

Copies of the EA and FONSI are available for review at RUS at the address provided herein; or can be reviewed at or obtained from the offices of NTUA, P.O. Box 170, Fort Defiance, Arizona 86504, telephone (520) 729-5721, during normal business hours.
