## NUCLEAR REGULATORY COMMISSION

[IA 96-103]

### Cecil Ray Owen; Order Prohibiting Involvement in NRC-Licensed Activities (Effective Immediately)

I

Between January 25, 1995 and May 23, 1995, Mr. Cecil Ray Owen was employed by Westinghouse Electric Corporation (WEC) as a millwright at Virginia Electric and Power Company's (VEPCO) North Anna Power Station (NAPS). VEPCO holds License Nos. NPF-4 and NPF-7 for North Anna Units 1 and 2, issued by the Nuclear Regulatory Commission (NRC or Commission) pursuant to 10 CFR Part 50 on April 1, 1978 and August 21, 1980, respectively. The licenses authorize VEPCO to operate NAPS in accordance with the conditions specified therein. WEC is a contractor to VEPCO and provides various services at NAPS.

II

10 CFR 73.56 requires, in part, that nuclear power plant licensees implement access authorization programs or accept a contractor's access authorization program for individuals seeking unescorted access to protected and vital areas of nuclear power plants. The objective of the regulation is to provide high assurance that individuals granted unescorted access are trustworthy and reliable and do not constitute an unreasonable risk to the health and safety of the public. The unescorted access authorization program must include a background investigation, including an individual's employment history. The decision to grant unescorted access authorization must be based upon the licensee's review and evaluation of all pertinent information developed.

III

In order to be certified for unescorted access at NAPS, Mr. Owen was required to complete a WEC preemployment security questionnaire which included a requirement that he list all prior employment for the last five years. Mr. Owen completed the questionnaire in January 1995. The questionnaire was used by WEC to conduct a background investigation. Mr. Owen was granted unescorted access authorization to NAPS on the basis of information he submitted on this WEC preemployment security questionnaire. Information regarding prior drug usage is material to the NRC in that licensee fitness-for-duty
