March 18, 1997.

Take notice that on March 3, 1997, Louisiana Intrastate Gas Company L.L.C. (LIG) filed a Petition to justify its existing interruptible maximum rate of 20.25 cents per MMBtu for Section 311(a)(2) of the Natural Gas Policy Act of 1978 interruptible transportation service. LIG states that, as is currently in effect, shippers will be charged for (1) filing fees required to implement, commence or continue service; and (2) their pro rata share of gas consumed by LIG as compressor fuel, company use and unaccounted for gas, as provided in the relevant agreements, subject to a 2% maximum for such compressor fuel, company use and unaccounted for gas.

LIG also filed a Petition for rate approval to initiate Section 311(a)(2) firm transportation and firm authorized overrun services. LIG also states that it petitions the Commission for approval of a maximum reservation charge for such service on LIG's mainline of \$4.22 per MMBtu per month, and a maximum usage charge of 9.75 cents per MMBtu. Firm and firm overrun shippers will be charged filing fee costs and a pro rata share of compressor fuel, company use and unaccounted for gas, as provided in the relevant agreements, subject to a 2% maximum.

Pursuant to section 284.123(b)(2)(ii), if the Commission does not act within 150 days of the filing date, the rate will be deemed to be fair and equitable and not in excess of an amount which interstate pipelines would be permitted to charge for similar transportation service. The Commission may, prior to the expiration of the 150-day period, extend the time for action or institute a proceeding to afford parties an opportunity for written comments and for the oral presentation of views, data, and arguments.

Any person desiring to participate in this rate proceeding must file a motion to intervene in accordance with sections
