#### Endangered Species; Permits

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Receipt of an application for modification 3 to incidental take permit 844 (P503I).

**SUMMARY:** Notice is hereby given that the Idaho Department of Fish and Game in Boise, ID (IDFG) has applied in due form for modification 3 to permit 844 authorizing an incidental take of a threatened species associated with sport-fishing activities.

**DATES:** Written comments or requests for a public hearing on the modification application must be received on or before April 28, 1997.

**ADDRESSES:** The application and related documents are available for review in the following offices, by appointment:

Office of Protected Resources, F/PR3, NMFS, 1315 East-West Highway, Silver Spring, MD 20910-3226 (301-713-1401); and

Environmental and Technical Services Division, 525 NE Oregon Street, Suite 500, Portland, OR 97232-4169 (503-230-5400).

Written comments or requests for a public hearing should be submitted to the Chief, Environmental and Technical Services Division, Portland.

**SUPPLEMENTARY INFORMATION:** IDFG requests modification 3 to permit 844 under the authority of section 10 of the Endangered Species Act of 1973 (ESA) (16 U.S.C. 1531-1543) and the NMFS regulations governing ESA-listed fish and wildlife permits (50 CFR parts 217-227).

For modification 3 to permit 844, IDFG (P503I) requests authorization for an increase in the incidental take of adult, threatened, Snake River spring/summer chinook salmon (*Oncorhynchus tshawytscha*) associated with the opening of two sport fisheries on the Little Salmon River and the Clearwater River in Idaho. The fisheries are proposed to target adult, non-listed, hatchery-produced spring chinook salmon in these watersheds. The primary source of take would be the incidental catch and release of ESA-listed spring/summer chinook salmon that may be present in the fishery areas during the fisheries. IDFG will maintain efforts to minimize the impacts to ESA-listed fish, including public information, biological monitoring, and enforcement. An increase in the incidental mortality of adult, ESA-listed, Snake River spring/summer chinook salmon is also requested. Modification 3 is requested to be valid in 1997 only. Permit 844 expires on April 30, 1998.

Those individuals requesting a hearing on the permit modification request should set out the specific reasons why a hearing would be appropriate (see ADDRESSES). The holding of such a hearing is at the discretion of the Assistant

Administrator for Fisheries, NOAA. All statements and opinions contained in the above application summary are those of the applicant and do not necessarily reflect the views of NMFS.
