(District).

ACTION: Notice of availability of the
Draft Environmental Impact Statement
and extension of comment period: DES
96-51.

SUMMARY: Pursuant to section 102(2)(C)
of the National Environmental Policy
Act of 1969, as amended, the
Department, and the District have
issued a joint Draft Environmental
Impact Statement (Draft EIS) on the
Upalco Unit Replacement Project
(Upalco). The Draft EIS was filed with
the Environmental Protection Agency
on December 27, 1996. However, the
distribution of the Draft EIS to
Agencies/persons was not made
simultaneously with the filing.
Therefore, the date for submittal of
written comments is being extended and
the dates of the public hearings are
being changed. The distribution to
Agencies/persons was made on January
8, 1997.

DATES: Written comments on the Draft
EIS must be submitted or postmarked no
later than March 17, 1997. Comments on
the Draft EIS may also be presented
verbally or submitted in writing at the

public hearings to be held at the
following times and locations:

- Wednesday, February 26, 1997, 6:00
p.m., Salt Lake, Salt Lake County
Commission Chambers, Room N1100,
Salt Lake City, Utah.

The public hearings are being held to
address the Draft EIS for the proposed
Upalco Unit Replacement Project. In
order to be included as part of the
hearing record, written testimony must
be submitted at the time of the hearing.
Verbal testimony will be limited to 5
minutes. Those wishing to give
testimony at a hearing should submit a
registration form, included at the end of
the Draft EIS, to the address listed below
by February 18, 1997.

ADDRESSES: Comments on the Draft EIS
should be addressed to: Terry
Holzworth, Project Manager, Central

National Park Service

Notice of Availability of the Final Development Concept Plan/Abbreviated Final Environmental Impact Statement for the Entrance Area and Road Corridor, Denali National Park and Preserve, Alaska

AGENCIES: National Park Service, Interior.

ACTION: Notice of Availability of the Final Development Concept Plan/Abbreviated Final Environmental Impact Statement for the entrance area and road corridor, Denali National Park and Preserve, Alaska.

SUMMARY: The National Park Service announces the availability of a Final Development Concept Plan/Abbreviated Final Environmental Impact Statement (DCP/EIS) for the Entrance Area and Road Corridor (Front Country) of Denali National Park and Preserve. The document describes and analyzes the environmental impacts of a proposed action and three other action alternatives for visitor facilities and services. A no action alternative also is evaluated.

DATES: A Record of Decision will be made no sooner than 30 days after the date of this notice.

ADDRESSES: Copies of the statement are available on request from: Superintendent, Denali National Park and Preserve, P.O. Box 9, Denali Park, Alaska 99755.

Public reading copies of the final DCP and abbreviated final EIS will be available for review in the following locations:

Office of Public Affairs, National Park Service, Department of the Interior, 1849 C Street, Room 3424, Washington, DC 20240, telephone: (202) 208-6843.

Alaska System Support Office, National Park Service, 2525 Gambell Street, Room 404, Anchorage, Alaska 99503-2892, telephone: (907) 257-2647.

FOR FURTHER INFORMATION CONTACT: Mike Tranel, Denali National Park and

Preserve. Telephone: (907) 683-9552
FAX: (907) 683-9612.

SUPPLEMENTARY INFORMATION: Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969 (P.L. 91-190, as amended), the National Park Service, has prepared a final DCP and abbreviated final EIS for proposed visitor facilities and services in the front country of Denali National Park and Preserve in Alaska. The final DCP/EIS includes five alternatives for providing for visitor use and resource protection and related facility development in the front country of Denali National Park and Preserve. The front country includes all non-wilderness areas along the Parks Highway, the Riley Creek/headquarters area, and the park road corridor to the Kantishna airstrip. The five alternatives include a no action alternative and four action alternatives. The proposed action as revised in the final is based on the recommendations of the Denali Task Force, a committee formed at the request of the Secretary of the Interior in 1994, on proposals received during public scoping, on previous plans, on planning team work and impact analysis, and on public comments on the draft plan.

Facilities and services considered in the proposed action and in each alternative include visitor accommodations, campgrounds, camper conveniences, interpretive facilities, transportation, parking, bus tours, bicycle use, rest and picnic areas, concessions, road maintenance, trails, employee housing, administrative and support facilities, airstrips, and utility systems. The alternatives differ in construction costs, extent and location of visitor facilities, and corresponding environmental, social, and economic impacts.

The Proposed Action (Alternative D) would provide visitor facilities and services in the front country to meet a wide range of visitor needs and interests. Front country developments would be limited to actions in which the NPS has traditionally specialized, such as interpretive centers, environmental education opportunities, trails, and campgrounds. The park hotel would be closed, and the NPS would encourage the private sector to develop visitor service facilities (accommodations, food service, and other commercial services) outside the park. The existing Visitor Access Center would be remodeled and expanded to serve as an interpretive and discovery center, and a new visitor services building and parking would be constructed nearby. Camper convenience services would be

provided in this same area and the existing store and temporary shower building would be removed. Some buildings in the former hotel area would be adaptively used to provide an environmental education and science facility. New permanent rest areas would be constructed at Savage and Toklat. Additional trails would be constructed primarily in the Nenana River and Savage River areas. New campsites would be developed in the entrance area, the Nenana River corridor, and in the Kantishna area. Road maintenance and repair would be upgraded to address safety concerns and major structural failures along the park road. These actions would be phased in over the 15 to 20-year life of the plan.

Alternative A (No Action—Continue Current Management Direction) represents no change from current management direction. With the exception of development concepts not yet implemented, it continues the present course of action set forth in existing management plans and guidance documents including the Statement for Management (1995) and the General Management Plan/Land Protection Plan/Wilderness Suitability Review (1986). This alternative represents the existing situation in the park, so existing facilities and services would remain. For example, the temporary park hotel would be rehabilitated as funds allow, adaptive use of historic structures and overcrowding of administrative space would continue, campgrounds would not be expanded, and no new trail construction or additional trail maintenance would be done.

Alternative B (Implement Development Concepts from Previous Plans) would fully implement previous planning decisions and development concepts contained in approved plans such as the 1986 General Management Plan and the 1992 Amendment to the 1983 Development Concept Plan/Environmental Assessment for the park road corridor and 1987 addendum (1992 Riley Creek Amendment). These documents not only propose additional facilities throughout the park to support NPS operations; they also propose increased visitor services and facilities within the park entrance area. Examples of new facilities proposed include a new hotel and camper convenience center to replace existing temporary facilities, a hostel in the entrance area, a new interpretive center with additional administrative space, a 50-site expansion to Riley Creek campground, and upgraded trail maintenance in the entrance area.
