DEPARTMENT OF ENERGY

Bonneville Power Administration

Canadian Entitlement Allocation Extension Agreements (CEAEA)

AGENCY: Bonneville Power Administration (BPA), Department of Energy (DOE).

ACTION: Notice of Availability of Record of Decision (ROD).

SUMMARY: The Administrator and Chief Executive Officer (CEO) of BPA, acting for BPA, and, as Chairman of the United States Entity (the Administrator of BPA and the Division Engineer, North Pacific Division of the United States Army Corps of Engineers), acting on behalf of the United States Entity, has decided to adopt for the CEAEA a Federal hydroelectric project allocation of 72.5 percent and a non-Federal hydroelectric project allocation of 27.5 percent.

This decision is consistent with the Columbia River System Operation Review (SOR) Final Environmental Impact Statement (EIS) (DOE/EIS-0170, November 1995) which evaluated the potential impacts of four alternatives that represent the likely range of allocations between the Federal and non-Federal projects. The selected allocation falls within this range of alternatives. None of the allocation alternatives influence power system operations under the system operating strategy selected in the Columbia River SOR on Selecting an Operating Strategy for the Federal Columbia River Power System (SOS) ROD, published February 1997.

ADDRESSES: Copies of the SOR Final EIS, Appendix P of the EIS (which presents the environmental review for the CEAEA), the SOS ROD, and complete copies of this ROD may be obtained by calling BPA's toll-free document request line: 1-800-622-4520.

FOR FURTHER INFORMATION CONTACT: Mr. Phil Mesa—PGPL-DITT2, Bonneville Power Administration, P.O. Box 3621, Portland, Oregon 97208-3621, phone number (360) 418-2152.

SUPPLEMENTARY INFORMATION: The Columbia River Treaty (Treaty), ratified in 1964, required the construction of three storage dams in Canada. These storage dams provide regulated streamflows that enable hydroelectric projects downstream in the United States to produce additional power benefits. The Treaty requires the United States to deliver to Canada one-half of these downstream power benefits (known as the Canadian Entitlement).

The Canadian Entitlement is generated downstream in the United States at both Federal and non-Federal hydroelectric projects. The Canadian Entitlement Allocation Agreements (CEAA), also executed in 1964, established how the Canadian Entitlement was to be attributed collectively to the six downstream Federal hydroelectric projects and to each of the five downstream non-Federal projects.

The Administrator's decision on the new allocation agreements, the CEAEA,

establishes both the Federal and non-Federal allocation of the Canadian Entitlement. The CEAEA will begin to replace the existing CEAA when the first portion of the Canadian Entitlement is returned to Canada in 1998. The CEAEA extend to 2024, since the United States' obligation to return the Canadian Entitlement continues to 2024, the first year the Treaty can be terminated with 10 years' notice.

Issued by the United States Entity in Portland, Oregon, on April 29, 1997.

Randall W. Hardy,

Administrator and CEO, Bonneville Power Administration, and Chairman, United States Entity.
