

3. Eliminate minor issues or those which have been covered by a relevant previous environmental analysis, such as the Gallatin Forest Plan EIS.

4. Identify alternatives to the proposed action.

5. Identify potential environmental effects of the proposed action and alternatives (i.e., direct, indirect, and cumulative effects).

6. Determine potential cooperating agencies and task assignments.

The following preliminary issues have been identified so far:

- Potential effects to changes in sediment yield and channel stability associated with the proposed new construction.
- Potential impacts to Yellowstone Cutthroat trout habitat in the South Fork of Brackett Creek due to potential changes in sediment delivery.
- Potential impacts to the primitive characteristics of the inventoried Bridger roadless area which surrounds the current ski area to the south, north, and west. The proposal includes the development of ski lifts and ski trails adjacent to and within this area.
- The proposal includes additional ski runs and lifts in the Pine-Slushman area to the south of the current ski area and additional ski runs and lifts to the north. This proposal has the potential to change the existing visual condition as observed from various locations in the Bridger canyon.
- The proposal includes expanded season of use. The use pattern of the national forest road and trails within the permitted area may be affected.
- Potential effects to the adjacent cross-country ski trail system authorized on national forest land.
- Effects to the traffic patterns and potential increase on the highway to the ski area and its compliance to current county land use planning.

Other issues commonly associated with ski area development include: effects on cultural resources, water quality, soils, sensitive species, and scenery values. This list may be verified, expanded, or modified based on public scoping for this proposal.

The Draft EIS is expected to be filed with the Environmental Protection Agency (EPA) and available for public review in November of 1997. At that time, the EPA will publish a notice of availability of the Draft EIS in the **Federal Register**. The comment period on the Draft EIS will be 45 days from the date the EPA's notice of availability appears in the **Federal Register**. It is very important that those interested in management of the Bridger Bowl ski area participate at that time. To be most helpful, comments on the Draft EIS

should be as site-specific as possible. The Final EIS is scheduled to be completed by June, 1998.

The Forest Service believes, at this early stage, it is important to give reviewers notice of several court rulings related to public participation in the environmental review process. First, reviewers of draft environmental impact statements must structure their participation in the environmental review of the proposal so that it is meaningful and alerts an agency to the reviewer's position and contentions. *Vermont Yankee Nuclear Power Corp. v. NRDC*, 435 U.S. 519, 553 (1978). Also, environmental objections that could be raised at the draft environmental impact statement stage but that are not raised until after completion of the final environmental impact statement may be waived or dismissed by the courts. *City of Angoon v. Hodel*, 803 F.2d 1016, 1022 (9th Cir. 1986) and *Wisconsin Heritages, Inc. v. Harris*, 490 F. Supp. 1334, 1338 (E.D. Wis. 1980). Because of these court rulings, it is very important that those interested in this proposed action participate by the close of the 45-day scoping comment period so that substantive comments and objections are made available to the Forest Service at a time when it can meaningfully consider them and respond to them in developing issues and alternatives.

To assist the Forest Service in identifying and considering issues on the proposed action, comments should be as specific as possible. Reviewers may wish to refer to the Council on Environmental Quality Regulations for implementing the procedural provisions of the National Environmental Policy Act at 40 CFR 1503.3 in addressing these points.

I am the responsible official for this environmental impact statement. My address is Gallatin National Forest, P.O. Box 130, Federal Building, Bozeman, MT 59771.

Dated: June 6, 1997.

## COMMITTEE FOR PURCHASE FROM PEOPLE WHO ARE BLIND OR SEVERELY DISABLED

### Procurement List Proposed Additions and Deletion

**AGENCY:** Committee for Purchase From People Who Are Blind or Severely Disabled.

**ACTION:** Proposed additions to and deletion from procurement list.

**SUMMARY:** The Committee has received proposals to add to the Procurement List commodities and a service to be furnished by nonprofit agencies employing persons who are blind or have other severe disabilities, and to delete a commodity previously furnished by such agencies.

**COMMENTS MUST BE RECEIVED ON OR BEFORE:** July 14, 1997.

**ADDRESSES:** Committee for Purchase From People Who Are Blind or Severely Disabled, Crystal Square 3, Suite 403, 1735 Jefferson Davis Highway, Arlington, Virginia 22202-3461.

**FOR FURTHER INFORMATION CONTACT:** Beverly Milkman (703) 603-7740.

**SUPPLEMENTARY INFORMATION:** This notice is published pursuant to 41 U.S.C. 47(a) (2) and 41 CFR 51-2.3. Its purpose is to provide interested persons

an opportunity to submit comments on the possible impact of the proposed actions.

### Additions

If the Committee approves the proposed additions, all entities of the Federal Government (except as otherwise indicated) will be required to procure the commodities and service listed below from nonprofit agencies employing persons who are blind or have other severe disabilities.

I certify that the following action will not have a significant impact on a substantial number of small entities. The major factors considered for this certification were:

1. The action will not result in any additional reporting, recordkeeping or other compliance requirements for small entities other than the small organizations that will furnish the commodities and service to the Government.

2. The action does not appear to have a severe economic impact on current contractors for the commodities and service.

3. The action will result in authorizing small entities to furnish the commodities and service to the Government.

4. There are no known regulatory alternatives which would accomplish the objectives of the Javits-Wagner-O'Day Act (41 U.S.C. 46-48c) in connection with the commodities and service proposed for addition to the Procurement List. Comments on this certification are invited.

Commenters should identify the statement(s) underlying the certification on which they are providing additional information.

The following commodities and service have been proposed for addition to Procurement List for production by the nonprofit agencies listed:

#### Deletion:

I certify that the following action will not have a significant impact on a substantial number of small entities. The major factors considered for this certification were:

1. The action will not result in any additional reporting, recordkeeping or other compliance requirements for small entities.

2. The action does not appear to have a severe economic impact on future contractors for the commodity.

3. The action will result in authorizing small entities to furnish the commodity to the Government.

4. There are no known regulatory alternatives which would accomplish the objectives of the Javits-Wagner-O'Day Act (41 U.S.C. 46-48c) in connection with the commodity proposed for deletion from the Procurement List.

The following commodity has been proposed for deletion from the Procurement List:

Tape, Pressure-Sensitive
