I. Information Collection Request

EPA is seeking comments on the following Information Collection Request:

Title: Data Acquisition for Registration; ICR Numbers: EPA No. 1503.03 and OMB No. 2070-0122.

Expiration Date: Current OMB approval expires on November 30, 1997.

Affected Entities: Parties affected by this information collection are registrants of pesticide products.

Abstract: EPA is responsible for the regulation of pesticides under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA). Applicants for pesticide registration must provide EPA with the data needed to assess whether the registration of a pesticide would cause unreasonable adverse effects on human health or the environment, and EPA has authority under FIFRA to require registrants to provide additional data to maintain an existing registration.

When the need for additional data arises, EPA's Office of Pesticide Programs (OPP) issues to affected registrants a Data Call-In Notice (DCI) under the authority of FIFRA section 3(c)(2)(B). In addition, data supporting pesticide inert ingredients may be called-in based on OPP's policy statement on inert ingredients in pesticide products (52 FR 13305, April 22, 1987, and revised on November 22, 1989, 54 FR 48314). A need for additional data may arise from changes in the Agency's general data requirements, from the discovery of deficiencies in previously submitted data, or from the discovery of specific attributes of the pesticide or its ingredients.

Two kinds of DCIs are conducted under this information collection activity. The first kind of DCI consists of data requirements for pesticide products containing selected inert ingredients. The second kind of DCI addresses specific data requirements for pesticide active ingredients.

Burden Statement: The information covered by this request is collected on occasion as needed by the Agency. This ICR contains certain exemptions for small businesses so not to cause them undue burden. The public reporting burden for this collection of information is estimated to average 15,321 hours per response for inert ingredients requiring full part 158 data (2 respondents), 9,048 hours for inert ingredients requiring a minimum set of data (5 respondents), and 5,750 hours for active ingredients requiring an occasional special study for certain pesticides (23 respondents), including the time for: reading instructions, planning activities, creating information, gathering information, compiling and reviewing data, completing paperwork, and submitting and filing data.

II. Request for Comments

The Agency would appreciate any comments or information that could be used to:

(i) Evaluate whether the proposed collections of information described above are necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility.

(ii) Evaluate the accuracy of the Agency's estimates of the burdens of the proposed collections of information.

(iii) Enhance the quality, utility, and clarity of the information to be collected.

(iv) Minimize the burden of the collections of information on those who are to respond, including through the use of appropriate automated or electronic collection technologies or other forms of information technology, e.g., permitting electronic submission of responses.

The Agency is particularly interested in comments and information about the burden estimates, including examples that could be used to reflect the burdens imposed.

Send comments regarding these matters, or any other aspect of these information collections, including suggestions for reducing the burdens, to the docket under **ADDRESSES** listed above.

III. Public Record

The official record for this notice, as well as the public version, has been established for this document under docket control number "OPP-00487" (including comments and data submitted electronically as described below). A public version of this record, including printed, paper versions of electronic comments, which does not include any information claimed as CBI, is available for inspection from 8:30 a.m. to 4 p.m., Monday through Friday, excluding legal holidays. The official record is located at the address in **ADDRESSES** at the beginning of this document.

Electronic comments can be sent directly to EPA at:
opp-docket@epamail.epa.gov

Electronic comments must be submitted as an ASCII file avoiding the use of special characters and any form of encryption. Comment and data will also be accepted on disks in Wordperfect 5.1 file format or ASCII file format. All comments and data in electronic form must be identified by the docket control number "OPP-00487." Electronic comments on this notice may be filed online at many Federal Depository Libraries.
