Refund Application

Eason Oil Company/Presidio Exploration, Inc., 6/11/97, RF352-9

The DOE granted an application for refund submitted by Presidio Exploration, Inc. (Presidio) in the Eason Oil Company (Eason) special refund proceeding, based on purchases by Home Petroleum Company (Home). Home was a reseller that purchased

truck load lots of butane and propane from Eason, its base period supplier. The DOE concluded that Home's butane and propane purchases from Eason probably were not discretionary in nature, but were dictated by Home's requirements for supplying its regular customers. The DOE granted Presidio a full volumetric refund for Home's butane purchases, based on a competitive disadvantage analysis using imputed butane prices drawn from regional propane prices. The DOE limited Presidio's refund for Home's propane purchases from Eason to

\$5,776, Home's total gross excess cost for these purchases. Accordingly, the DOE granted Presidio a total refund, including interest, of \$44,037.

Underground Injection Control Program; Hazardous Waste Injection Restrictions; Petition for Exemption—Class I Hazardous Waste Injection; Texas Ecologist, Inc., (TECO)

AGENCY: Environmental Protection Agency.

ACTION: Notice of final decision on petition modification.

SUMMARY: Notice is hereby given that modification of an exemption to the land disposal restrictions under the 1984 Hazardous and Solid Waste

Amendments to the Resource Conservation and Recovery Act has been granted to TECO, for the Class I injection well located at Robstown, Texas. As required by 40 CFR Part 148, the company has adequately demonstrated to the satisfaction of the Environmental Protection Agency by petition and supporting documentation that, to a reasonable degree of certainty, there will be no migration of hazardous constituents from the injection zone for as long as the waste remains hazardous. This final decision allows the underground injection by TECO, of the specific restricted hazardous waste identified in the exemption modification, into the Class I hazardous

waste injection well at the Robstown, Texas facility specifically identified in the modified exemption, for as long as the basis for granting an approval of this exemption remains valid, under provisions of 40 CFR 148.24. As required by 40 CFR 124.10, a public notice was issued July 31, 1996, and closed on September 16, 1996, and was reopened on October 10, 1996, a public meeting and hearing was held on November 19, 1996 and the comment period was closed on December 2, 1996. AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of public meeting.

SUMMARY: The Office of Science and Technology (OST) within EPA's Office of Water (OW) is conducting a public meeting prior to re-proposing effluent limitations guidelines and standards for the Centralized Waste Treatment Industry. The EPA intends to re-propose effluent limitations guidelines and

standards early next year, and this is the only public meeting that the Agency plans to sponsor prior to the re-proposal. EPA will report on the status of the regulatory development, and interested parties can provide information and ideas to the Agency on key technical, scientific, and economic issues.

DATES: The public meeting will be held on Tuesday, July 29, 1997, from 10:00 a.m. to 1:00 p.m.

ADDRESSES: The meeting will be held at the U.S. Environmental Protection Agency Auditorium, U.S. EPA Headquarters, Waterside Mall, 401 M Street SW., Washington, DC.

FOR FURTHER INFORMATION CONTACT: Jan Matuszko, Engineering and Analysis Division (4303), U.S. EPA, 401 M Street SW, Washington DC 20460. Telephone (202) 260-9126, FAX (202) 260-7185 or E-Mail matuszko.jan@epamail.epa.gov.

SUPPLEMENTARY INFORMATION: On January 27, 1995, under the authority of the Clean Water Act (CWA), EPA proposed effluent limitations guidelines and pretreatment standards to reduce the discharge of pollutants from a category of industrial facilities described as the Centralized Waste Treatment Industry (60 FR 5464). The Centralized Waste Treatment Category includes facilities that accept, by any form of shipment, certain hazardous or non-hazardous industrial waste from off-site for treatment or recovery. On September 16, 1996, EPA published a notice of data availability describing revised estimates of the size and regulatory impacts of the proposed rulemaking on the proposed oils treatment and recovery subcategory of the industry (61 FR 48805). EPA plans to re-propose effluent limitations guidelines and standards for the Centralized Waste Treatment Industry in early 1998.

EPA has scheduled a public meeting to discuss the proposed regulation for Tuesday, July 29, 1997, from 10:00 a.m. to 1:00 p.m. The public meeting will include a discussion of the scope of the regulation, subcategorization, summary of industry information, preliminary plans for technology-based regulatory options, and other regulatory issues. The meeting is informational and will not be recorded by a reporter or transcribed for inclusion in the record for the Centralized Waste Treatment Industry rulemaking. Documents relating to the topics mentioned above and a more detailed agenda will be available at the meeting.
